## Turn Up the Heat with Heated Door Mirrors from LMC TRUCK !

Eliminate the need to scrape ice and snow from your mirrors by simply flipping a switch and letting accumulated frost, ice or snow melt in a matter of minutes. LMC Truck has applied a unique conductive polymer heating element to the ever-popular Stainless Steel exterior flat glass door mirrors for 1973-91 GM Trucks. This allows for high wattage heating at sub-zero temperatures. These heated mirrors are a must have for all cold weather areas!

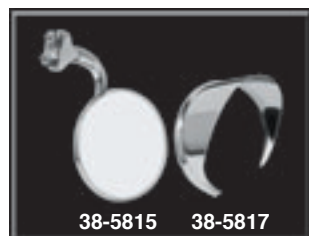

When switched to the on position, these mirrors will heat up for 10 minutes and then shut off automatically. If your mirrors need additional defrosting, repeat the cycle. The set comes complete with left and right hand mirrors, mirror gaskets, mounting hardware, switch, switch holder, fuse, circuit board, wiring and installation instructions.
