Installation Tip: Allow mats to lay unfolded for 48 hours at room temperature of 72° or more to help remove creases caused by packing. Test fit prior to making any permanent installations (some trimming may be necessary).

There are times when carpeting is not the appropriate floor covering for a vehicle. If your Blazer or Jimmy spends most of its time in a cow pasture, on a construction site or playing in a mud bog, then one of these heavy-duty Molded Industrial Polyvinyl (MIP) Floor Mats is your wisest choice. 1/8" thick industrial Polyvinyl is resistant to moisture and temperature; therefore, it will not dry rot or crack and lasts years longer than rubber.

These Mats are easy to clean and extremely durable. They protect your interior from water, snow, mud and most chemicals including gasoline, oil and battery acid. MIP Mats are vacuum molded from the original floor pan to cover the entire floor making installation easy. The MIP Floor Mat includes pre-cut 36 ounce jute padding under the front passenger area to provide a higher level of insulation against heat, cold and road noise.

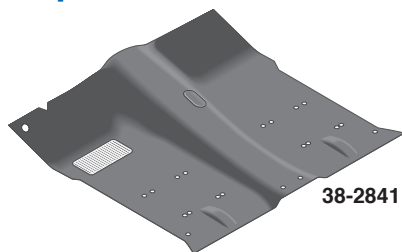

Front Molded Industrial Polyvinyl Floor Mats cover the floor from the firewall to just behind the rear of the front seat.
