Performance Sway Bars Give You Bolt-On Handling and Control

1967-72 Chevy & GMC Truck • 1/2 Ton 3/4 Ton
1967-72 Chevy & GMC Blazer, Jimmy, Suburban
Without a sway bar, a vehicle with coil spring suspension will exhibit excess body roll on cornering, which puts extreme limits on its ability

to hold the road, resulting in poor handling and excessive tire wear. Performance Sway Bars are fully forged from hardened, high carbon steel and powder coated black for durability and provide improved balance and stability in all driving conditions. Kits include urethane end link bushings, urethane frame bushings, mounting brackets (for use on stock height and lowered vehicles) and hardware.

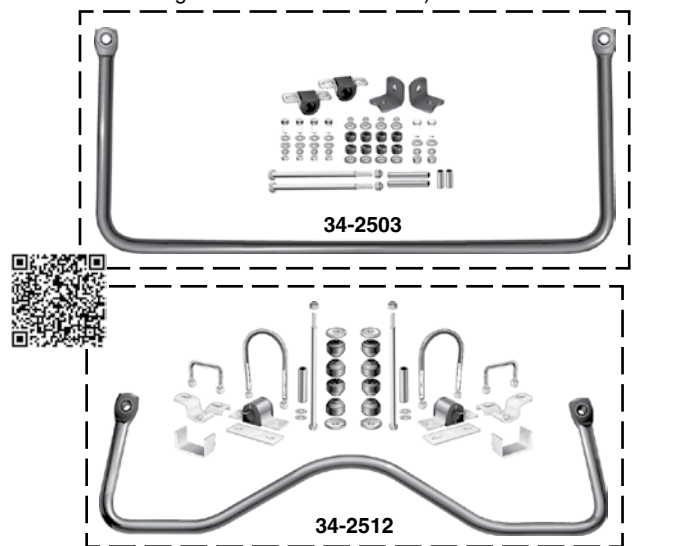

PART	DESCRIPTION	APPLICATION	REQD	PRICE
34-2510	SWAY BAR W/STOCK A-ARMS 1-1/8"	2WD	67-72 (1)	\$164.95*
34-2501	SWAY BAR W/TUBULAR A-ARMS 1-1/4"	2WD	67-72 (1)	\$199.95

Sway Bar Mount Kit allows the rear sway bar to be mounted on trucks with #37-8478 Tubular Trailing Arms. See Page 122.

34-2503	SWAY BAR-REAR COIL	1-1/8"	67-72	(1)	\$174.95
34-2512	SWAY BAR-REAR LEAF	7/8"	67-72	(1)	\$169.95*

* Or ** after the sell price means your order will incur an Oversize Part Charge for each oversized part. * Means extra charge will be \$20. ** Means extra charge will be \$50. Due to packing and/or transportation requirements, please allow additional time for delivery. Oversized Parts are not available for air delivery.

3" Body Lift Kit ... Makes Room for Larger Tires

1967-72 Chevy & GMC Truck • 1/2 Ton 3/4 Ton 1 Ton
1967-72 Chevy & GMC Blazer, Jimmy

A Body Lift spaces the body away from the frame to make room for larger tires without altering the suspension. Body Lift Kit includes reinforced nylon spacers, compression tested to 50,000 psi and plated grade 5 hardware. Since the stock suspension is not affected, and larger tires are normally part of the plan, new shocks are recommended.

PART	DESCRIPTION	APPLICATION	REQD	PRICE
37-6500	3" BODY LIFT KIT	CHEVY GMC 67-72	(1)	\$213.00

Read This: Installation of a body lift will change the center of gravity and the handling characteristics of the vehicle. Because of the higher center of gravity and larger tires, the vehicle will handle and react differently both on and off road. You must drive it safely! Extreme care must be taken to prevent vehicle rollover or loss of control, which could result in serious injury or death. Avoid sudden sharp turns or abrupt maneuvers and always make sure all vehicle occupants have their seat belts fastened.
