# NEW Holley Sniper 2 Electronic Fuel Injection System

## Black Finish

PART	DESCRIPTION	PRICE
38-4518	HOLLEY SNIPER 2 EFI	\$1299.95

## Polished Finish

PART	DESCRIPTION	PRICE
38-4519	HOLLEY SNIPER 2 EFI	\$1299.95

Holley Sniper 2 EFI is a self-tuning, easy-to-install, Electronic Fuel Injection conversion for common 4-barrel (4150 flange) style carburetors. Make your classic truck drive like a modern fuel-injected vehicle, including easy cold starts, smooth drivability, and improved fuel economy!

If you're looking for a high-performance fuel injection system that delivers power, efficiency, and ease of use, look no further than the Sniper 2 EFI.

- Replaces 4-barrel (4150 flange) carburetors.
- Available in black or polished finishes.
- 4 wiring connections required: Battery+, Battery-, Switched Ignition, and RPM.
- Variety of tuning and gauge display interfaces: from a 3.5-inch full color LCD Handheld, 5-inch Digital Dash, or the Bluetooth dongle, which allows you to connect either an iOS or Android based cell phone to the Sniper 2.
- Inputs and outputs consist of: 2x Ground Inputs, 2x Ground Outputs, 1x TPS Output (0-5v), and 1x Tach Output.
- Onboard contactless magnetic TPS sensor ensures an accurate TPS reading.
- The included genuine Bosch LSU 4.9 wideband oxygen sensor provides real-time fuel map learning.
- Redesigned throttle shaft and plate geometry for a smoother throttle feel.
- Supports up to 650hp naturally aspirated or 575hp on boost with four 100 lb/hr injectors.
- Next generation ECU features improved RF noise and interference resistance.
- "Hidden Harness" wiring harnesses exits from the rear of throttle body for a clean appearance.
- Redesigned injector connector for improved reliability.
- Main harness includes plug-and-play HyperSpark distributor support, for integrated timing control, making your ignition setup hassle free.
- Included clamp-on oxygen sensor kit ensures a leak free oxygen sensor installation.
- Integrated transmission kick down provisions for GM TH350/400, 200-4R/700R4 and Ford C4/C6 applications.
- Calibration wizard only requires that you answer a few simple questions about your engine to create a base map and begin self-tuning – No laptop required.

I have a picture in my office. It was an aerial photograph taken in the '60s of the farm we lived on in rural Iowa. To be exact, RR1, Anamosa, IA, before every address had a house number and a private line telephone. We had a party line phone with 8 people on it, well, that is a whole letter to itself along with the Sears and Roebuck catalog, that had everything from toys to a house you could buy and build.

It was a thing back then, and still is now, that a plane flies over, takes a picture and then sells it to you. We aren't going to get into the right or wrong of that idea right now. Instead I am going to say I am grateful that day they flew over and my parents somehow had the money to buy that picture.

It hangs in my office alongside the serenity prayer. It is there to remind me of who I am and where I come from. That my mom and dad somehow raised 5 kids in a 2-bedroom house until Uncle Dewayne converted the garage to a bedroom for them in the late '60s. That you can exist without a shower and only a bathtub, that you got three TV stations if the rabbit ears were just right and wrapped in aluminum foil, and the only thing you were allowed to watch were Gunsmoke, Rawhide, and Wild Kingdom. Oh, and can't forget The Andy Williams Show. That Sunday morning was church and then grandma's fried chicken and gravy. My grandmother was younger then than I am now. I hadn't really thought about that until I started typing out this letter.

The picture is before my grandfather put the orchard in for them and the feed lot went in. It had to be the early '60s that this picture was taken. Before mom let me put in my own flower beds and I went into the woods and dug up what I wanted to plant and tried to graft or cross-pollinate. Before my mom and I had our first and only big fight over Vietnam. I was a pacifist and plant-loving, earth-loving girl, even back then, who drove her dad's old truck long before I was old enough because the sheriff would just know I was Harold's daughter.

I have been nostalgic lately. I think it is because I turn 69 in January and have outlived my parents and two of my brothers. My parents died young. My dad was only 58, so when you are older than your parents were when they died, your brain can overthink things.

At every level I know I have a great life, with two daughters with beautiful families, and I have been truly blessed. But deep in my heart I am still that young pacifist, plant-loving, earth-loving girl who just wants to garden and drive the old truck. The shorter, colder days were always my time to slow down and think about my next chapter, until COVID, and then it was just hurry and scramble and work. This year I am taking time off work to reflect and make decisions about my last chapter. I want to go into the woods, find the plants that only grow there, and try them in my wildflower garden. I want to drive the '72 Cheyenne into "town" with my grandsons to get ice cream. I will never leave LMC or sell it, but it is time for me to enjoy and spend more time with my grandchildren and daughters. Maybe only work 50 hours a week!

## How to Read this Catalog

Throughout most of this catalog, the application line of the part number describes which model of GM Truck that particular part will fit. The models this catalog covers are 3100, 3200, 3600 Chevrolet trucks and 100, 150 GMC trucks from 1947 through 1959. Because not everyone can identify their truck by these model descriptions, here is an example of what each letter and number that appears on the description line stands for:

	APPLICATION	REQD
	CHEVY GMC 47-59	(1)
CHEVY GMC = Chevrolet Truck and GMC Truck		
CHEVY = Chevrolet Truck		
GMC = GMC Truck		
Part fits this year span		
Quantity required to complete one truck		

### Part Number Example

PART	ILL#	DESCRIPTION	APPLICATION	REQD	PRICE
38-6940	(5)	REAR WINDOW RUBBER-SMALL"A"	CHEVY GMC 47-59	(1)	\$16.95

The application line states that this part, **#38-6940**, fits 1/2 and 3/4 ton Chevrolet and GMC models from 1947-59.

On the description line of part you see "A", this means there is a special note about this particular part.

At the bottom of the page the part appears on you will find a shadow box that will describe to you what the special note for this part is.

Example:

Note: "A" Both black and chrome trim bead are included.

This note is telling you that this part, **#38-6940**, comes with black trim bead for standard models and chrome trim bead for deluxe models.

## If You Can't Find the Part You Need in this Catalog, Here's What to Do:

- Check local SALVAGE YARDS. Even if they do not have a truck like yours on hand, most salvage yards have access to a communication network which connects them to other salvage yards in your region of the country. Ask them if you may use it, if necessary.
- Check your local BODY SHOPS and GARAGES for parts accumulations they may have built up over the years. You might get lucky!
- Check local WELDING and MACHINE SHOPS to see if they might be able to MAKE the part you need.

# LMC TRUCK®

**LMC TRUCK** is in no way affiliated with the General Motors Corporation nor do we intend to imply that. The names General Motors and Chevrolet are used for reference only.

*Applications listed in this catalog are based on original factory information. However, variances will occur due to non-documented substitutions, and changes made during the vehicle's production.*

## 1947-55 1st Series Advance Design Trucks

**1947:** First year that six volt battery was located under floorboard in cab. The first of this new body series which was lower, wider and longer. The truck name was stamped into the tailgate. Gas tank was located under the bed. Hood was now opened from the front. All 1/2 ton 3100 Series were shortbeds-78; all 3/4 ton 3600 series were longbeds-87. The bed floors were covered with Yellow Pine. Outside door handles were turn-down style. The standard engine was a Chevrolet 216.5ci inline six and was the only engine available.

**1948:** First year for column shift three-speed transmission. The parking brake was moved to the floor. Hood emblem was made of die cast metal. Windshield wiper changed to incorporate a fuel and vacuum pump for better wiper action. Treads were added to the running boards for safety.

**1949:** Two-piece windshield was stationary. Gas tank was located behind seat in cab. Hood emblem was made of chrome plated steel. Speedometer needle was changed to Red. The spark plugs were changed to 14mm. Final year for lever action shocks on Chevrolet. Hood side emblem states Chevrolet 3100 on 1/2 ton trucks and Chevrolet 3600 on 3/4 ton trucks.

**1950:** Modern tube type shocks were introduced. Hood side emblems state Chevrolet 3100 on 1/2 ton trucks and Chevrolet 3600 on 3/4 ton trucks.

**1951:** Had both turn handle exterior door handles and wing vents. Horizontal rod for seat adjustment was located under cushion and secured to seat frame. Speedometer's maximum speed was 80 mph. Bed changed from nine board type to eight board type in mid-year.

**1952:** Glovebox door and horizontal strips below and above radio speaker grille were painted steel instead of stainless steel. Outer door handles were now push-button type. Speedometer's maximum speed was 90 mph.

**1953:** The first year factory installed turn signals were optional, yet, in some states turn signals were mandatory. Hood emblem was stainless steel. A new instrument panel included a 60 lb. oil pressure gauge.

**1954:** New 235 cubic inch engine was in pickups. Bed was increased in depth (giving a 2 inch lower loading height) and had all new bed sides. Rear bumper option now had a dropped center to serve as a license plate location. Tail light was rounded. Hubcaps now had the Bowtie emblem. Hood emblem showed 3100. Windshield was now one piece. Drive rear end was closed. For the first time on the option list was a Hydra-matic automatic.

**1955 1st Series:** First year for the open drive shaft on 1/2 ton pickup and panel. Final series to have the six volt electrical system. Battery was now located under the right hand side of the floor board. Hood emblem had been redesigned to include Chevrolet.

## 1955-59 2nd Series Task Force Trucks

**1955 2nd Series:** First year for the new body style. New windshields curved to wraparound. A larger panoramic window came equipped on the Deluxe cabs. The running board changed to be a small section between the rear of the cab and the rear fender. The new V-shaped dash included a speedometer with an odometer, fuel and temperature gauges as well as ammeter and oil gauges which were standard. Battery was now located on the right hand side of the firewall under the hood. The 235ci came standard with this truck; a 265ci V8 was optional. Power steering and brakes were new options. The electrical system changed to a 12 volt.

**1955 Hood Emblem**

**1956:** Designed with a flatter hood and side fender spears which were oval in shape. Parklight lenses were round.

**1956 Hood Emblem**

**1958:** This year was the introduction of Fleetside pickups. Chevy's first steel, double wall, wide-box pickup. New designations: 3100 Series became 31 and was shown that way on the emblems. All the 1/2 ton trucks were called Apache. New front end with quad headlights and new grille. This model also got a new hood and new fenders. First year air conditioning was available from the factory.

**1959:** Changes were minimal, hood emblem changed to a Bowtie with a V, and the side emblems were moved to the fender crease above the front fender and now show CHEVROLET APACHE 31.

## POR-15 Restoration Products

**POR-15** is a high-performance rust preventative black paint designed to extend the life of new and rusted metal surfaces. It dries to a rock-hard, non-porous finish that will not rust, chip, crack or peel.

Dries in 2 to 5 hours; body fillers and paint can be applied over POR-15. For maximum effectiveness, degrease metal surfaces with Cleaner Degreaser, then prime with Metal-Prep.

**Approximate product coverage:**  
1 pint = 48 sq. ft.; 1 quart = 96 sq. ft.

**Dry Time Accelerator** reduces the cure time of POR-15 by 30-50% without affecting the final physical properties of the paint. One 8 ounce bottle treats 64 pints or 32 quarts of POR-15.

PART	DESCRIPTION	PRICE
37-8411	POR-15 SEMI-GLOSS-1 PINT	\$41.88
37-8412	POR-15 SEMI-GLOSS-1 QUART	\$63.89
37-8408	POR-15 GLOSS-1 PINT	\$41.88
37-8409	POR-15 GLOSS-1 QUART	\$63.89
37-8418	DRY TIME ACCELERATOR	\$34.05

**High Temp Paint** is an extreme temperature finish that maintains color without burning off or discoloring on manifolds and headers. Withstands high temperatures up to 1,200°F and resists cracking, chipping and peeling. It is weather-, salt- and moisture-resistant. Available in gray or aluminum color; can be brushed or sprayed on. Recommend sandblasting for optimal surface preparation.

**Approximate coverage:** 8 oz. covers a set of big block V8 headers with two coats.

PART	DESCRIPTION	PRICE
37-8484	HIGH TEMP PAINT-GRAY 8 OZ	\$25.51
37-8485	HIGH TEMP PAINT-ALUM 8 OZ	\$25.51

**Metal-Prep** provides adhesion for POR-15 on any metal surface. Gently etches metal, neutralizes rust and creates an ideal anchor for coatings such as POR-15, while leaving a zinc phosphate finish to ensure chemical bonding of paint and steel. Metal-Prep must be used on galvanized metal, aluminum, stainless steel and smooth, polished or new metal surfaces prior to applying POR-15. Metal-Prep is water-based so it is not caustic, corrosive, toxic or flammable.

PART	DESCRIPTION	PRICE
37-8415	METAL-PREP 1 QUART	\$22.14
37-8416	METAL-PREP 1 GALLON	\$44.74

**Cleaner Degreaser** cleans and degreases in one application without messy residues, noxious fumes or flammable solvents. Removes grease, oil, mildew, algae, musty odors, soap films and wax from canvas, vinyl, plastics, nylon, wood, fiberglass and all metal surfaces.

Cleaner Degreaser should be used as a surface prep prior to using Metal-Prep and POR-15.

PART	DESCRIPTION	PRICE
37-8413	CLEANER DEGREASER 1 QUART	\$14.67
37-8414	CLEANER DEGREASER 1 GALLON	\$29.61

**POR-15 Self Etch Primer** is a quick drying and easy-to-apply coating which enables a restorer to quickly topcoat POR-15 Rust Preventive Coating and other basecoats. You can even topcoat POR-15 that's been in place for months or years. This Self Etch Primer is NOT a high-build primer, it can be sprayed on almost any painted surface and can be top coated in 15 - 30 minutes. It bonds incredibly well to POR-15 Rust Preventive Coating, and all topcoats bond incredibly well to POR-15 Self Etch Primer. It can be sanded lightly, and, if desired, multiple coats may be applied.

PART	DESCRIPTION	PRICE
37-8401	SELF ETCH PRIMER-GRAY	\$39.15

37-8403

37-8404

**POR-15 Top Coat** can be applied directly to a clean prepped metal surface, but when used as a top coat over POR-15 Rust Preventive Coating it provides the toughest, most permanent protection against rust and corrosion. It has exceptional long-term gloss and color retention when exposed to sunlight and the elements, non-porous, extremely scratch and chip resistant, won't crack, peel or chip. Can be applied directly to metal substrates, with no need for a primer or undercoat, and is formulated to form a robust barrier that sheds moisture.

Chassis Black has a semi-gloss appearance. For maximum durability, Chassis Black should be clear coated.

PART	DESCRIPTION	PRICE
37-8402	TOP COAT-CLEAR	\$28.39
37-8403	TOP COAT-GLOSS BLACK	\$28.39
37-8404	TOP COAT-CHASSIS BLACK	\$28.39

**Bed Liner** is a water-based, rubberized coating ideal for protecting truck beds, and all other metal, aluminum, fiberglass and wood surfaces exposed to impacts and scuffs. It is UV stable and offers superior adhesion, impact resistance and flexibility. Features a textured semi-gloss black finish for good looks. Prior to application, surfaces should be degreased with Cleaner Degreaser and metal surfaces should be treated with Metal-Prep. Bed Liner can be applied over POR-15.

Shortbed trucks - 1 gallon for two coats on bed floor, sides and tailgate. Longbed trucks need an additional quart.

**Approximate product coverage:**  
1 quart = 25-30 sq. ft.; 1 gallon = 100-120 sq. ft.

PART	DESCRIPTION	PRICE
37-8480	BED LINER 1 QUART	\$37.94
37-8481	BED LINER 1 GALLON	\$142.96

**Fuel Tank Sealer** coats the inside of your tank to stop rust and seal pinholes and weld seams. It's a non-porous, flexible film that is resistant to all fuels, alcohols and fuel additives. This environmentally safe sealer does not contain the harmful chemical Methyl Ethyl Ketone (MEK) and is non-flammable. Cleaner Degreaser and Metal-Prep must be used to prep fuel tank prior to using fuel tank sealer.

**Approximate product coverage:**  
1 pint = to 12.5 gal tank; 1 quart = to 25 gal tank

PART	DESCRIPTION	PRICE
37-8488	FUEL TANK SEALER 1 PINT	\$31.44
37-8489	FUEL TANK SEALER 1 QUART	\$54.60

**POR-15 Stop Rust Kit** is designed to stop and/or prevent rust on metal surfaces and ensures the best results when applying POR-15 Rust Preventive Coating. The kit contains everything you need for the 3-step process; 8 ounce bottle of POR-15 Cleaner Degreaser, 8 ounce bottle of POR-15 Metal-Prep, 4 ounce can of POR-15 Gloss Black, two paint brushes, 1 pair of latex gloves, and detailed instructions and tips. The kit is ideal for small projects such as sub-frames, axle replacements, control arms, brake shields and much more! There is enough material in this kit to cover a 6 sq. ft. area with two coats.

37-8405	STOP RUST KIT	\$27.84

## LMC Truck Cover ... Who Knew Protecting Your Vehicle's Finish Could Be So Inexpensive!

LMC universal fit truck covers provide protection from the elements and are not affected by temperature extremes. In summer a cover keeps the interior cooler and helps protect from the sun's damaging rays, which can cause fading and deterioration. In winter it can keep the snow and ice off your glass and finish.

Fabric will not stretch, shrink, rot or mildew. Elastic is sewn in front and rear hems to ensure snug fit. Call or go online and order your truck cover today.

Antenna must be removed or an antenna grommet attached to your cover before use. See below for more information on antenna grommet.

## Steel Body Panels and What to Expect

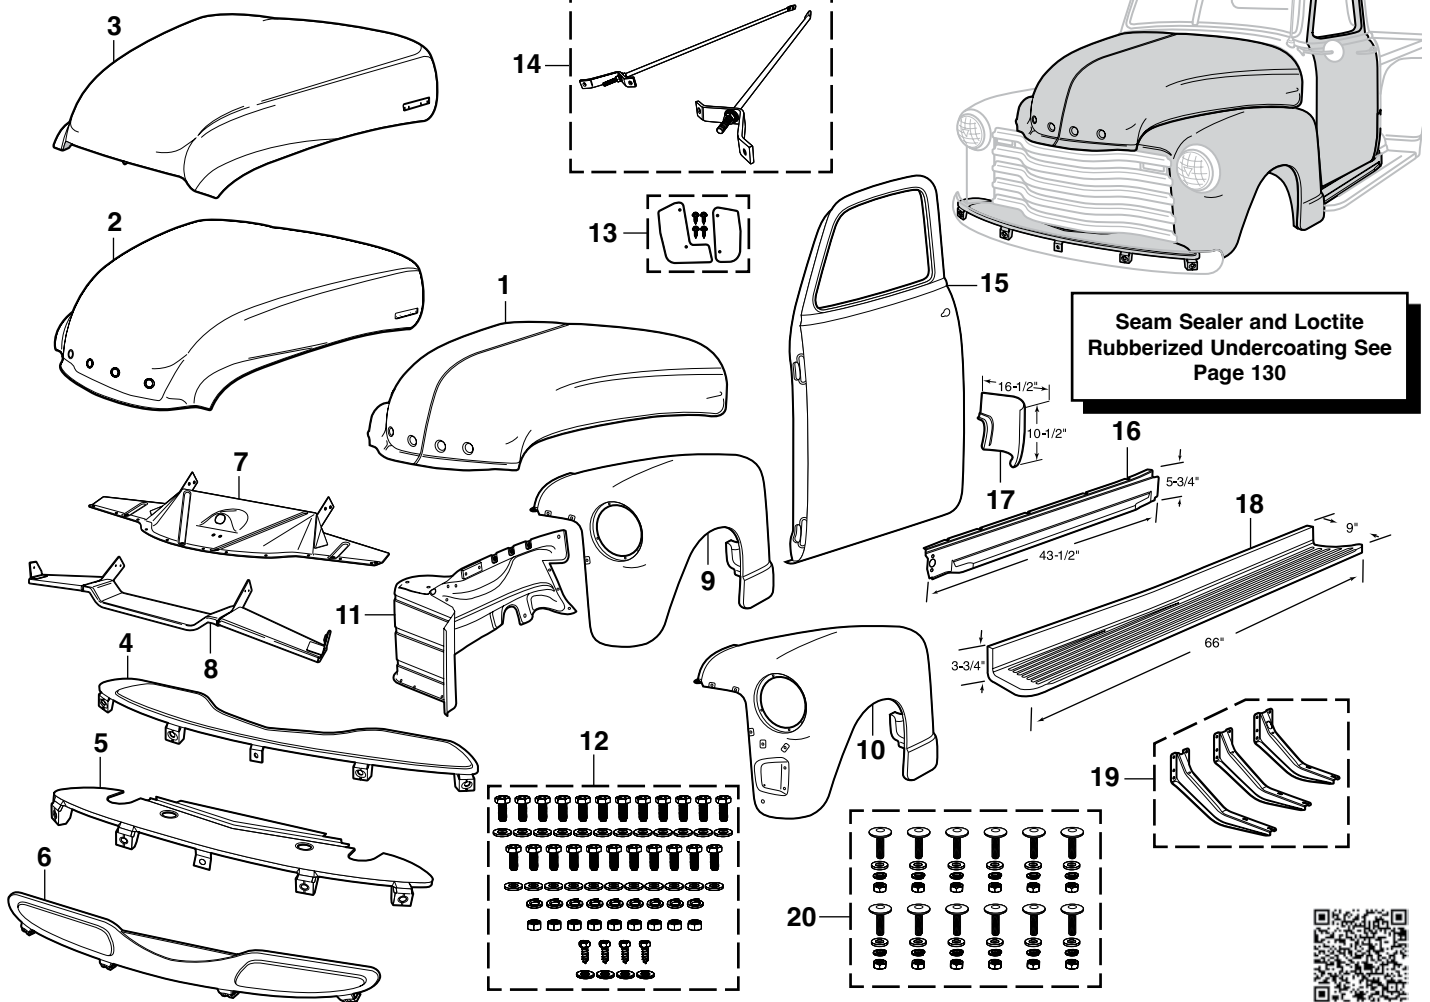

All sheet metal is inspected before it is shipped and careful steps are taken to package parts so there is no damage during shipping. Due to the nature of the product, sheet metal is easily damaged and scratches, dents, dings and other imperfections are normal and not considered damaged. These kinds of imperfections should be expected and can be easily fixed during installation and the paint preparation, sanding and priming stages of your restoration. It is recommended you inspect all sheet metal that is delivered before the delivery driver leaves. Test fitting of all panels before installation is recommended and the use of alignment shims and other adjustments during the install may be required.

## Steel Body Panels and What to Expect

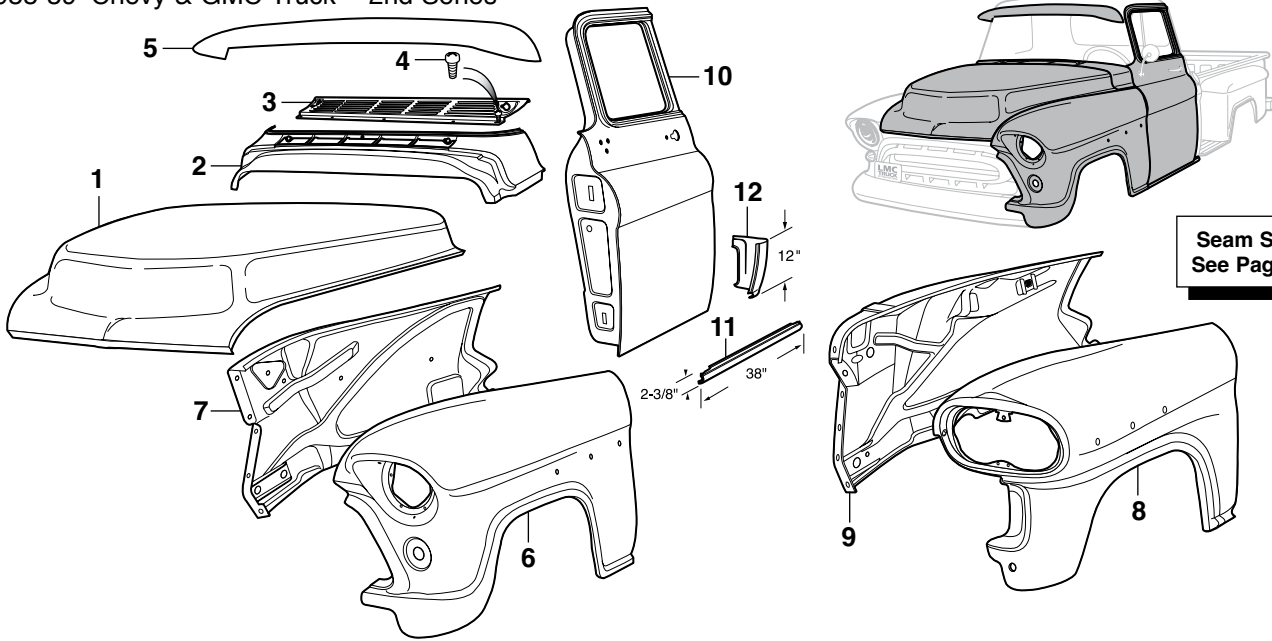

All sheet metal is inspected before it is shipped and careful steps are taken to package parts so there is no damage during shipping. Due to the nature of the product, sheet metal is easily damaged and scratches, dents, dings and other imperfections are normal and not considered damaged. These kinds of imperfections should be expected and can be easily fixed during installation and the paint preparation, sanding and priming stages of your restoration. It is recommended you inspect all sheet metal that is delivered before the delivery driver leaves. Test fitting of all panels before installation is recommended and the use of alignment shims and other adjustments during the install may be required.

\* Or \*\* after the sell price means your order will incur an Oversize Part Charge for each oversized part. \* Means extra charge will be \$20. \*\* Means extra charge will be \$50. Due to packing and/or transportation requirements, please allow additional time for delivery. Oversized Parts are not available for air delivery.

Finish off the look of your wood bed with a Bed to Frame Mounting Kit and Bedside Hardware Kit.

The Bed to Frame Mounting Kit includes the hardware to attach the bed wood to the frame.

The Bedside Hardware Kit comes with the hardware to attach the bedside and wheel housing (on Fleetside models) to the bed. Kits include stainless steel hardware with polished bolt heads and offset washers.

## Tailgate Latch Kit

Universal Tailgate Latch Kit utilizes modern rotary latches and black vinyl wrapped tailgate support cables in a one-piece design to provide simple and smooth tailgate operation. Kit can be bolted on or welded on any single wall tailgate. Drilling is required for bolt-on application. Some welding is required on double wall tailgates. Paint to match the color of your truck. Mounting brackets, hardware and illustrated instructions included. Fits Fleetside and Stepside applications.

PART	DESCRIPTION	APPLICATION	REQD	PRICE
38-3010	UNIVERSAL TAILGATE LATCH KIT	47-59	(1)	\$249.95
38-3048	REPLACEMENT SUPPORT CABLE SET	47-59	(1)	\$27.95

## Tuff Truck Bag

Tuff Truck Bag is heavy-duty to withstand the elements for all-season cargo protection yet lightweight and collapsible to allow for easy storage when not in use. Tuff Truck Bag can be set up and loaded into any truck bed within minutes, unlike the time required for a camper shell or tonneau cover installation.

- Made from weatherproof, waterproof, non-breathable PVC material with heat fusion epoxy sealed seams along all edges.
- Heavy-duty, commercial-grade zipper and waterproof PVC triple-fold flap that covers the zipper.
- Heavy-duty metal rings in all four bag corners (top and bottom) to retain the bag to the truck.
- Includes storage tote bag and four adjustable bungee cords.
- Provides 26 cubic feet (40"x50"x22") of waterproof storage for any truck bed.
- Can be used alone or in addition to existing storage boxes.

PART	DESCRIPTION	PRICE
38-3058	TUFF TRUCK BAG-BLACK	\$164.95

## Hidden Tailgate Hinge Set

Hidden Tailgate Hinge Set eliminates the original style tailgate hinges to provide a clean custom look with smoother operation. Hidden hinge plates are precision cut to match tailgate profile and can be painted body color. Includes two hinge plates, two plastic trunnions that install into bottom roll of tailgate, hardware and instructions. Welding is required for installation.

PART	DESCRIPTION	APPLICATION	REQD	PRICE
38-3016	HIDDEN TAILGATE HINGE SET	CHEVY GMC 47-53	(1)	\$85.95

## Stepside Hidden Tailgate Latch Kit and Check Strap Kit

**Hidden Tailgate Latch Kit** has spring-loaded locking pins which are contained in your choice of plain or stainless steel housings that are concealed inside of the upper edge of the tailgate, eliminating the bulk, noise and paint chips associated with stock tailgate chains. Installation requires mounting holes to be drilled in the tailgate. Includes easy-to-follow, fully illustrated instructions. Call or go online and order yours today!

**Tailgate Check Strap Kit** perfectly complements the Hidden Tailgate Latch Kit. Check straps feature 5/8" wide woven nylon webbing with stainless steel end fittings for a worry-free way to hold the tailgate open. Kit includes two straps, stainless steel hardware and instructions.

## Windshield and Rear Window Installation Tips:

1. Fit your new window rubber to your cab first, then install the window glass.
2. Use a rubber friendly lubricant such as WD40 and the Windshield Stick (#38-0796) to ease installation and avoid damaging your window rubber.
3. Window rubber shrinks; your new window rubber may appear slightly larger than the original prior to installation.

**TINT** Window has a full light green or gray tint to glass.

**SHADED** Window has a full light green tint with a dark band at the top of glass.

**Windshield and Glass Sealant** is silicone and seals windshields, windows, sunroofs and more. Flows into leaks like water but dries to form a flexible, tough, clear seal resistant to extreme temperatures, vibration, shock and most chemicals.

**38-0783**

**STANDARD** = Standard Rubber Seals do not have a groove for trim.

**CUSTOM** = Custom Rubber Seals do have a groove for trim.

A Chrome Door Edge 4" Peep Mirror adds style and extra rear visibility to your truck. Attaches to the left or right side of the outer edge on the door window frame. A Chrome Convex 4" Peep Mirror provides a wider field of view than flat mirrors. A Chrome Peep Mirror Extension is available separately and adds 1-1/2" of length to the mirror arm for increased visibility. Reduce glare with a stainless steel 4" Peep Mirror Visor; sold separately.

## Sound Control Mat

**Sound Control Mat** reduces noise, vibration and heat created from the engine, road and structure of your vehicle. Can be applied to any interior surface area; cover as little as 25% of an area for a noticeable reduction. Each 2mm thick sheet consists of butyl rubber with a top layer of heat resistant aluminum that is easy to cut and conform to contoured surfaces, just peel and stick. Available in silver and black, each sheet measures 21" x 29".

**3-in-1 Sound Control Mat** combines the vibration absorption and heat-resistant capabilities of the 2mm thick Sound Control Mat with an additional 5mm thick layer of foam for more efficient sound deadening. This makes it our most effective product for eliminating road noise and vibrations in your truck. Each sheet is 7mm thick and measures 19" x 31".

Color coordinated original style heel pad is attached and an easy-to-install dimmer switch grommet is also included. The color coordinated vinyl binding helps prevent fraying and adds the finishing touch.

Carpet covers the floor from the firewall to the back of the cab. Trimming will be necessary on trucks with an in-cab gas tank.

**IMPORTANT:** Before choosing a floor covering, check the floor pan configuration of your vehicle. Was your vehicle originally equipped with an Automatic (Low Hump) or Manual (High Hump) transmission? Selecting the correct floor pan configuration is an important part of ensuring that your floor covering fits properly.

## Sewn Carpet ... Designed to Fit Your Truck Perfectly

Top quality 100% nylon cut-pile carpet is cut and sewn to fit your truck's floor pan. The edges are fully bound with a driver's side heel pad. The carpet has an attached insulation pad and features snaps to allow access to battery and master cylinder. Comes complete with illustrated instructions, one 12 ounce can of spray adhesive and snap studs.

## 1/8" Thick Molded Industrial Polyvinyl (MIP) Floor Mats

38-2932

Shiftrod Holes are Not Pre-cut

Heavy-duty Molded Industrial Polyvinyl (MIP) Floor Mats are made of durable 1/8" thick industrial Polyvinyl and are resistant to moisture and temperature; therefore, they will not dry rot or crack and last longer than rubber. They are vacuum molded from the original floor pan to cover the entire floor, making installation easy.

Mats are easy to clean and protect your interior from water, snow, mud and most chemicals. The MIP Floor Mat includes pre-cut 36 ounce jute padding under the passenger areas to provide a higher level of insulation against heat, cold and road noise.

PART	DESCRIPTION	APPLICATION	REQD	PRICE
38-2931	MIP FLOOR MAT	1ST CHEVY GMC 47-55	(1)	\$144.95
38-2932	MIP FLOOR MAT-COLUMN SHIFT	2ND CHEVY GMC 55-59	(1)	\$204.95
38-2933	MIP FLOOR MAT-FLOOR SHIFT	2ND CHEVY GMC 55-59	(1)	\$204.95

**Installation Tip:** Allow mats to lay unfolded for 48 hours at room temperature of 72° or more to help remove creases caused by packing. Test fit prior to making any permanent installations (some trimming may be necessary).

**Look New Again ... The Easy Way!**

## Now You Can Be Sure All Your Interior Colors Match

ColorBond permanently changes the color of your interior. Sprays on and dries to the touch in 45 seconds, forming a complete bond in 10 minutes. Original grain pattern is never altered or hidden, no matter how many times ColorBond is applied. Will not crack, flake, peel or rub off from solid or flexible materials because the color becomes part of the surface.

**\$20.95**  
each

Black #37-8375	Blue #37-8382	Brown #37-8388
Dark Gray #37-8385	Gray #37-8383	Dark Red #37-8384

ColorBond can be used on:

- Vinyl
- Leather
- ABS Plastic
- PVC
- Polyurethane
- Polycarbonate
- Lexan
- Acrylic
- Recycled Plastics
- Carpet
- Cloth Upholstery

ColorBond is a semi-gloss finish that is OEM approved, UV stable and colorfast. Each 12 ounce can will cover 7 square feet. ColorBond Prep/Cleaner should be used prior to applying ColorBond.

**37-8396 ColorBond Satin Clear Coat** provides a protective finish that won't wash off. Protects against fading, cracking and heat deterioration.

**37-8395 ColorBond Adhesion Promoter** is required for the use of ColorBond on materials such as Polypropylene, Thermoplastic Elastomer, Polyolefin, Fiberglass and metal.

## Prep/Cleaner

**37-8399 ColorBond Prep/Cleaner** is a fast drying, non-solvent, multi-surface cleaner. It cleans and prepares the surface for use of ColorBond.

## Spitshine Tire Black ... Bring Back the Shine

**37-8370**  
\$21.45

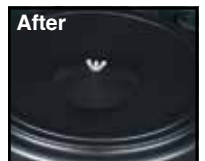

**ColorBond Spitshine Tire Black** is a specially formulated paint, not a clear silicone dressing, designed to restore a military shine to faded and scuffed tires for a minimum of two months. Spitshine is not greasy or tacky, so it won't attract unsightly dirt and dust. Each 12 ounce can is easy to apply; first, clean tires of any existing dressings, silicones and dirt with ColorBond Prep/Cleaner. Mask the wheel or rim and apply in light coats. Reapply Spitshine Tire Black if tires become scuffed.

*Not for use on tires with white lettering or sidewalls.*

## Black Underhood Paint

**37-8367**  
Black  
\$20.95

**Black Underhood Paint's** specially formulated acrylic lacquer restores the finish of brackets, core supports, heater boxes and all underhood components. Withstands temperatures up to 250°F but is not designed to be applied to engine, manifolds or headers. 12 ounce can covers 6 square feet. Call or go online and order yours today!

## New Vintage USA Gauge Clusters

Period-styled and themed gauges for your classic truck. New Vintage USA gauge clusters easily interface with original engines as well as high-tech late-model engines, ignition systems, PCMs and speed sensors including GPS. High-tech mini-OLED displays give additional information with easy to read menus, set-up and programming features. Gauges have built-in performance timers, speed warnings and shift alert. Accepts additional auxiliary inputs without requiring separate modules. All parts are direct fit designs that fit the stock gauge mounting locations without any cutting or modification required. Made in Detroit, Michigan and backed by a 5-year warranty.

RTX Gauge Clusters are focused on retaining the stock look without sacrificing late-model features. Every effort has been made to incorporate OEM design elements regarding the layout, face styling and indicators. A casual glance may dismiss these as original equipment, but once you turn the key and the LED backlighting comes on in your favorite color scheme, all doubts will be removed. A hidden rocker switch provides quick access to all settings and functions.

The digital message center can be configured to display just about any piece of information needed. Over 30 user-selectable LED color options are available with 12 factory preset color themes. Fully lit color needles, back-lighted color faces and a full color message center are dimmable for driving at night. Each analog gauge sweep (except speedometer) contains a red LED indicator for quick indication of a warning condition. Gauge clusters can also be completely configured through Bluetooth with Dakota Digital's Android and Apple free mobile app.

Includes water temp, oil pressure, and speed sensors. Existing fuel sending unit can be used. Detailed installation instructions and operation manual included. Optional expansion accessories add functionality and allow additional gauge readings to be displayed.

Over 30 Different LED Color Options to Choose From

## GPS Speed/Compass Sender

Dakota Digital GPS Speed/Compass Sender is a simple connection to the gauge cluster that adds accurate speed information, compass heading, altimeter data, and automatic clock syncing, all with fully automatic calibration! No DIP switches, no guessing, no inaccuracies, period.

Fuel Neck Filler Panel  
See Page 39

Replacing a side frame rail or in-cab gas tank with a rear frame rail mount steel tank frees up room inside the cab, eliminates unpleasant gasoline odors, moves the fuel's weight and adds traction to the rear wheels of the truck. Gas tank could also be used as an auxiliary tank for extra fuel reserve.

These baffled 19-gallon bed-fill steel gas tanks are flanged for frame rail mounting and include fuel line fittings and mounting hardware. Additional parts will be necessary to complete the installation. A sending unit, flush-mount fuel filler and filler hose will need to be added; each sold separately. Sending units will work with 6 volt or 12 volt systems. A hole in the bed floor for the fuel filler, an extension of the fuel feed line and sending unit wires and relocation of the frame mounted spare tire will be needed. Flush-mount fuel fillers are available in polished finish with keyed cap or pop-up twist knob. Order the filler hose to make the connection between the fuel filler and rear mount tank.

## Fuel Pump Control Module

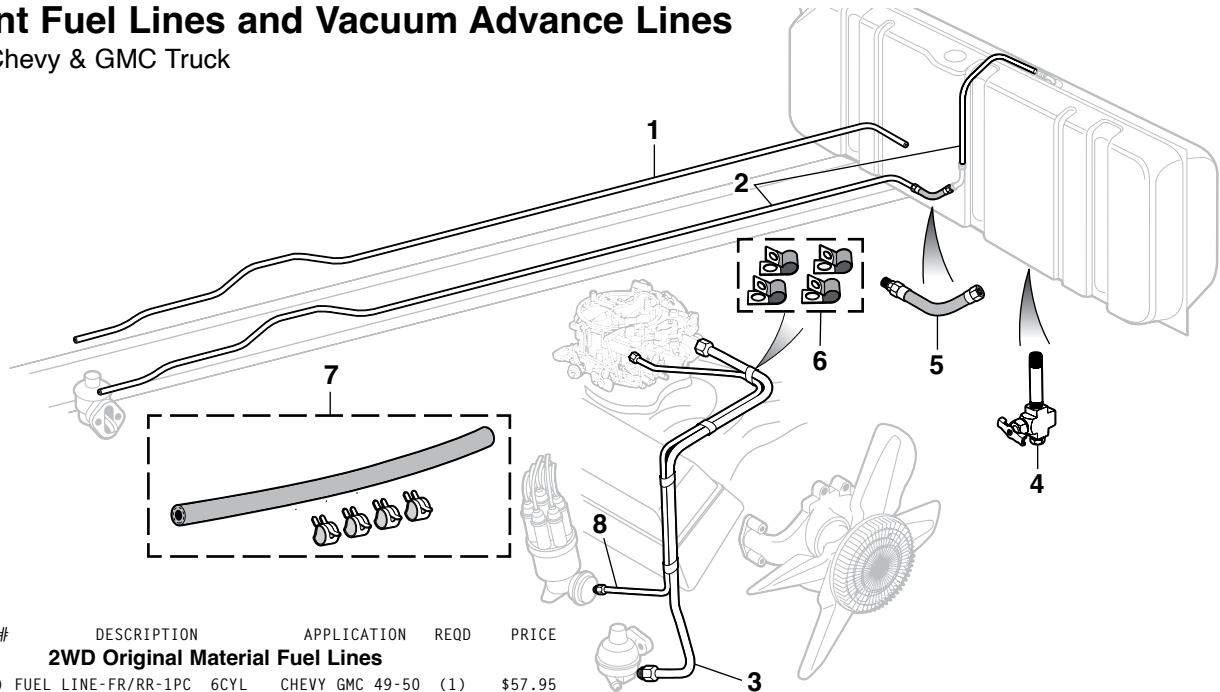

Updating your truck to an electric fuel pump? Wiring the pump to an on-off switch or to a simple ignition switched source isn't the best idea. If an accident occurs, your pump would run as long as the switch is active. With the Fuel Pump Control Module, when the key is turned, the fuel pump turns on to prime the system in a three-second cycle, just like modern vehicles. Then the module uses the tach signal so the pump only runs when engine is running, giving you quicker start-ups and improved operating safety.

## NotchHead Line Clamps

NotchHead Line Clamps organize both hard and soft lines and clamp them in place to keep from being chafed on sharp edges or crushed under moving components. Easily secure lines without marring paint. Can also be used as separators for running hoses in parallel by bolting two line clamps together. Flexible lines easily snap in for quick installation and mock-ups. Mounting hardware included in each kit.

## Performance Sway Bars Give You Bolt-On Handling and Control ... Drive Faster Through Turns with Improved Traction

Improve the handling ability and cornering traction of your vehicle with a Performance Sway Bar. Too much weight transfer in a corner destroys a vehicle's road-holding ability, causing the wheels to "drift" or "creep" sideways in the turn, resulting in poor handling and excessive tire wear. Sway bars give your vehicle the balance and stability it needs in curves, passing situations and uneven surfaces.

## Tilt Wheel Steering Column ... Modern Comfort for Your Classic Trucks

Add the convenience and reliability of a new adjustable tilt wheel steering column built specifically for your truck. This is not a universal column that requires modification. Larger casting design and larger shafts and bearings provide more strength and stability in the column. Improved bearing seat with thicker 16 gauge steel and a superior welded head attachment will never loosen.

These steel columns are available in a ready-to-paint brushed finish or show-quality chrome. All columns include underdash mount, drop bracket, floor mount, self-canceling turn signals, hazard warning flasher switch, knobs and handles. All of these features add strength and reliability, and every column is backed by a 3 year warranty.

**Steering Wheel Puller**  
See Page 83

**A Steering Wheel, Shift Indicator, Steering Coupler and Custom Wiring Harness/Wiring Adaptor are required for installation of the Steering Column.**

38-4866

38-4867

**Shift Indicator** - This simple-to-install Shift Indicator can be positioned anywhere on the column head for easy reading. These Shift Indicators only fit the steering columns listed on this page.

Billet Horn Buttons include mounting hardware.

Steering wheels are available for original steering column and tilt column shown on page 81. Original 1947-59 steering wheel will not fit the tilt steering column; you must use one of the steering wheels listed below or an OE steering wheel for a 1974-94 GM truck.

These 14" diameter, 3 spoke steering wheels have a half-wrap design featuring a billet back with a wood or leather grained vinyl front. Facing ring is available in hand-rubbed wood or black leather grained vinyl.

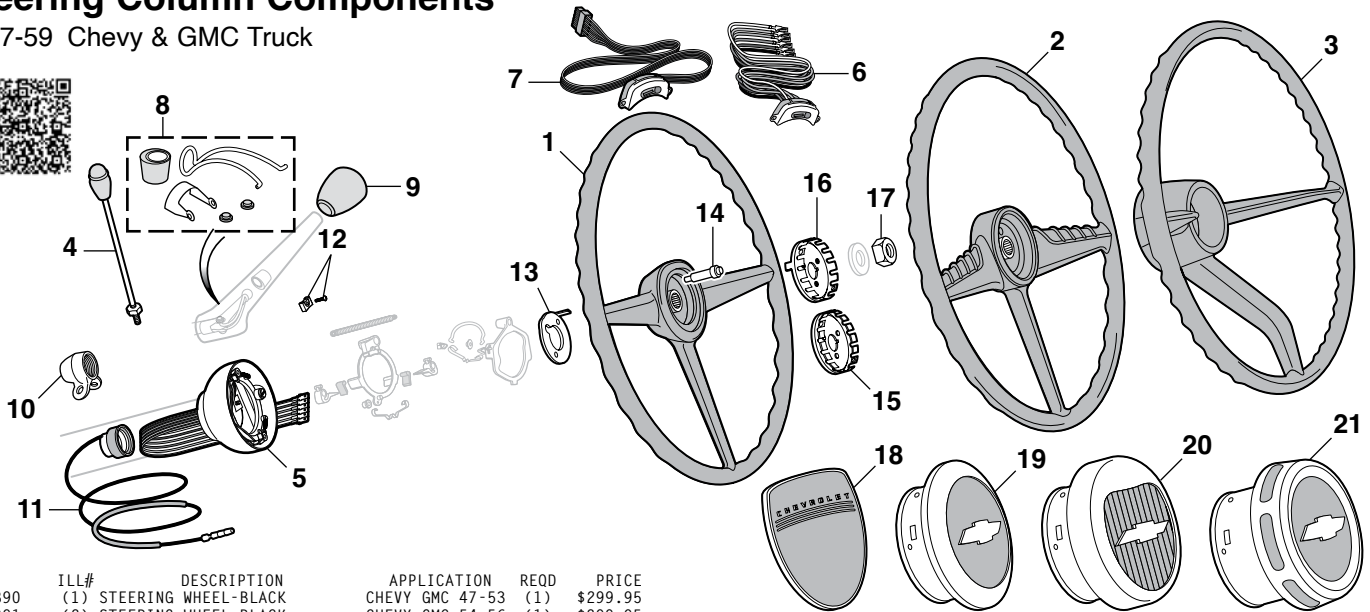

Wood Steering Wheel has been stained a rich mahogany color and urethane-coated for better heat resistance and long life. Leather Grained Vinyl Steering Wheels are available in matte black powder coat or high-polished finish. The one-piece billet backing ring has contoured finger notches.

Each steering wheel requires a horn button and an installation kit; sold separately below. Horn buttons are available plain or logoed and in black or polished finish.

## Disc Brake Kit ... No More Front Drums

37-8552

Disc Brake Kit contains parts needed to convert from front drum brakes while reusing existing hubs, spindles and brake pedal. 1947-50 models may need to drill out the lower spindle hole to 1/2" to accept the brake caliper brackets. A new brake master cylinder #37-8553 for 1947-55 1st Series trucks or #37-8554 for 1955-59 2nd Series trucks is needed, see below.

Requires fabrication of new front brake lines. Roller Bearing Conversion Kit #37-8557, see below, is recommended for use with Disc Brake Kit.

Requires use of 15-inch or larger diameter wheels originally designed for use with disc brakes.

Kit includes 12" brake rotors; brake calipers and semi-metallic pads; brake caliper brackets; brake hoses; wheel spacers and hardware.

## Disc Brake Master Cylinder Kit

37-8553

37-8450

37-8462

Master Cylinder Kit converts your truck from a single reservoir master cylinder to a dual reservoir disc brake master cylinder. Comes with disc/drum combination valve assembly to assure proper front to rear brake pressure. For 4-wheel disc brakes, #37-8450 combination valve will need to be purchased. Master Cylinder Kits include bracket for use with automatic transmission. For 1st Series manual transmission applications, bracket kit #37-8462 is required and sold separately. Mounting brackets allow you to retain the original brake pedal.

## Brake Booster Kit ... Upgrade to More Stopping Power

37-8445

37-8450

Brake Booster Kit includes the parts you need to convert from manual brakes to a vacuum assisted power brake system. Kit comes with 7" dual diaphragm booster, frame bracket, dual reservoir master cylinder, bottom mount disc/drum combination valve assembly.

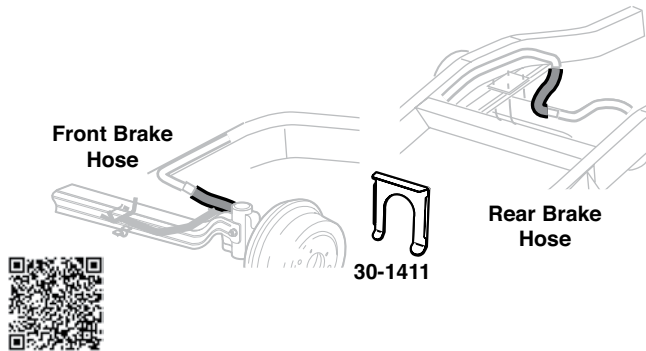

Boosters require a minimum of 16" of vacuum and will not work with radical cams or blowers where there is not enough vacuum; measure before ordering. For 4-wheel disc brakes, #37-8450 combination valve will need to be purchased. Brake Booster Kits fit trucks with automatic transmissions only.

## PERFECT TORC Transmission Controller

38-4558

The PERFECT TORC Transmission Controller is the stand-alone electronic transmission control unit you've been waiting for. Installation and initial setup is easy, and the controller is supplied with base calibrations for your transmission type, so you can be up and running immediately after installation. The PERFECT TORC Transmission Controller can be tuned using the provided calibration software and a Windows-based laptop, and basic tuning options are available without ever plugging into a laptop. With a digital display, two separate shift tables, and the ability to perform on-the-fly calibrations, the ultra-reliable and vibration-resistant controller supports paddle and simple push button shifting. The system is designed to work seamlessly with GM 4L60/65E and 4L80/85E transmissions on fuel-injected, carbureted, and diesel engines.

Note: GM 4L60E transmission must be 1996 or newer. GM 4L80E transmissions must be 1995 or newer.

## Rear End Conversion Kits

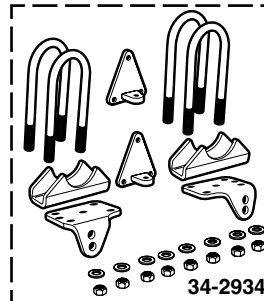

1947-59 Chevy & GMC Truck

Rear End Conversion Kits allow you to install any rear end housing with 3" diameter axle tubes into your 1947-59 truck.

### 1947-55 1st Series

Kit includes axle seat brackets, spring seat brackets with lower shock mount provision, upper shock mount brackets and u-bolts. The axle seat brackets have two indexing holes, one offset 2" forward for 1947-53 models when converting from a closed driveline and one centered for 1954-55 models. The indexing holes allow the rear end to be centered in the wheel opening. The shock mount brackets will allow

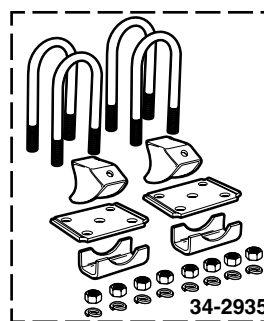

you to upgrade to gas-charged shocks on 1947-49 models and reposition shocks if necessary. On models with the rear spring mounted over the axle tubes this kit can be used to mount the rear spring under the axle tubes for a 4"-5" rear drop. Welding is required for installation.

Kit Includes:

- Axle seat brackets
- Spring seat brackets
- Upper shock mount brackets
- U-bolts

PART	DESCRIPTION	APPLICATION	REQD	PRICE
34-2934	REAR END CONVERSION KIT 1ST 1/2T	CHEVY GMC 47-55	(1)	\$163.95

### 1955-59 2nd Series

Kit includes spring seat brackets, axle seat brackets, u-bolts and lower shock mount brackets. This kit can be used to mount your 3" rear end under the leaf spring, as originally equipped, or used to flip the rear end housing and mount it over the rear spring for a 4"-5" rear drop. Welding is required for installation.

Kit Includes:

- Axle seat brackets
- Spring seat brackets
- Lower shock mount brackets
- U-bolts

## Wheel Bearing Grease Packer

Wheel Bearing Grease Packer quickly flushes out old grease and repacks the bearing with less the mess. The Wheel Bearing Grease Packer works on bearings up to 3 1/2" outer diameter. The grease stays in the tool cavity, not on your hands. To pack a bearing, simply place the bearing on the piston, press down on the cap until the old grease is forced out and the new grease shows on top of the bearing.

## Oil Pump Priming Tool

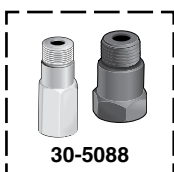

38-1308

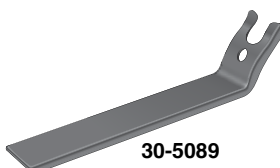

Before starting a new or rebuilt motor for the first time, it's critical to prime the lubricating system to prevent premature wear. Failure to pressurize the oil could result in a dry start that can cause camshaft, bearing and/or piston ring failure. An Oil Pump Priming Tool makes this process easy — just remove the distributor, insert the priming tool and turn it clockwise with a 3/8" drill. The tool has a machined aluminum collar that simulates the distributor and helps to eliminate damaging side loading of the oil pump drive while priming.

## Edelbrock Aluminum Performance Intake Manifolds

38-4572

**PERFORMER RPM:** A dual-plane, high-rise manifold designed with a 180° firing order produces incredible top-end horsepower while retaining great throttle response. Their larger plenums and runners match high-lift cams, free flowing exhausts and other modifications of a performance engine. Great for street or strip.

**RPM AIR-GAP:** The RPM Air-Gap offers the same proven qualities of the Performer RPM but with the addition of Edelbrock's patented Air-Gap. The Air-Gap design features an open air space that separates the runners from the hot engine oil for a cooler, denser charge for more power.

Glove Dispenser features two large magnets that hold the dispenser in place. You can also mount it on a wall using the screw slots provided. Fits all common sizes of disposable rubber glove boxes, both 50 and 100 packs. The dispenser has 3 adjusting springs which can be adjusted as necessary to hold various box sizes. Made of powder coated steel.

PART	DESCRIPTION	PRICE
38-0719	MAGNETIC GLOVE DISPENSER	\$25.95

## Header Wrap

Increase performance by keeping hot exhaust gasses inside the headers for maximum velocity, improved exhaust scavenging and protecting sensitive engine components from high temperatures.

Header Wrap is able to withstand temperatures up to 1,200°F and is made from vermiculite-coated, textured fiberglass yarn woven into a strong, flexible wrap that can easily be cut with scissors.

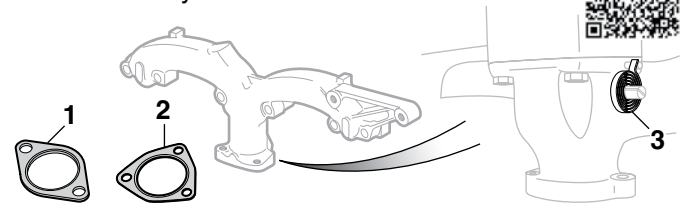

Available in 25 or 50-foot rolls of 1" or 2" widths. Two 50-foot rolls of 2" wide are generally enough to wrap standard V8 headers. Stainless steel locking cable ties keep the wrap securely in place. *Header Wrap can void warranty of some headers. Check header manufacturer's warranty before installing.*

Headers with tight bends should use 1" wide wrap for coverage. Overlap wrap 1/4" for optimum heat dissipation.

## Manifold Vacuum Fittings and Plugs

Manifold Vacuum Fittings are used to connect to engine vacuum operated components such as power brake booster, transmission modulator, vacuum advance, HVAC components, etc. These are often overlooked or broken during attempted transfer when swapping engines or intake manifolds. Manifold Vacuum Fittings are available in a 90° or T-style fitting. The 90° fitting has a single 3/8" vacuum port and the T-style fitting has a 3/8" and 1/4" vacuum port. Both styles are available in zinc-plated steel or chrome-plated aluminum.

For those simply needing to plug the vacuum port in the intake manifold, order #30-1434. To plug the water ports in the intake manifold or water pump, order #30-1435.

## Carburetor Synchronizer Tool ... Makes it Easier to Do the Job Right

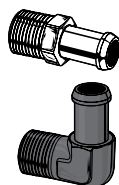

If dual carbs are added to an engine, the Carburetor Synchronizer Tool helps the truck run with better economy by balancing the airflow between the two carburetors giving equal airflow at all degrees of its throttle opening. By manipulating the idle adjustment screw, each carburetor can be set at the same air intake volume.

The tube, which must always remain in a vertical position, is adjustable through 150° to allow the tool to be used on almost any type of carburetor and manifold installation.

## NEW **Holley** Sniper 2 Electronic Fuel Injection System

Holley Sniper 2 EFI is a self-tuning, easy-to-install Electronic Fuel Injection conversion for common 4-barrel (4150 flange) style carburetors. Make your classic truck drive like a modern fuel-injected vehicle, including easy cold starts, smooth drivability, and improved fuel economy!

If you're looking for a high-performance fuel injection system that delivers power, efficiency, and ease of use, look no further than the Sniper 2 EFI.

- Replaces 4-barrel (4150 flange) carburetors.
- Available in black or polished finishes.
- 4 wiring connections required: Battery+, Battery-, Switched Ignition, and RPM.
- Variety of tuning and gauge display interfaces: from a 3.5-inch full color LCD Handheld, 5-inch Digital Dash, or the Bluetooth dongle, which allows you to connect either an iOS or Android based cell phone to the Sniper 2.
- Inputs and outputs consist of: 2x Ground Inputs, 2x Ground Outputs, 1x TPS Output (0-5v), and 1x Tach Output.
- Onboard contactless magnetic TPS sensor ensures an accurate TPS reading.
- The included genuine Bosch LSU 4.9 wideband oxygen sensor provides real-time fuel map learning.
- Redesigned throttle shaft and plate geometry for a smoother throttle feel.
- Supports up to 650hp naturally aspirated or 575hp on boost with four 100 lb/hr injectors.
- Next generation ECU features improved RF noise and interference resistance.
- "Hidden Harness" wiring harnesses exits from the rear of throttle body for a clean appearance.
- Redesigned injector connector for improved reliability.
- Main harness includes plug-and-play HyperSpark distributor support, for integrated timing control, making your ignition setup hassle free.
- Included clamp-on oxygen sensor kit ensures a leak free oxygen sensor installation.
- Integrated transmission kick down provisions for GM TH350/400, 200-4R/700R4 and Ford C4/C6 applications.
- Calibration wizard only requires that you answer a few simple questions about your engine to create a base map and begin self-tuning – No laptop required.

## **Holley** In-Tank Retrofit Fuel Modules

With over 100 years of expertise in fuel systems, Holley is unrivaled in the industry. Holley In-Tank Retrofit Fuel Modules allow you to easily convert your truck's original fuel tank into a fuel-injection compatible tank with basic tools and no complexity. The universal, return-style systems fit fuel tanks up to 12" deep, and Holley's brilliant HydraMat (included) virtually eliminates any chance of fuel starvation or poor running conditions due to air entering the fuel system. The innovative billet bracket system ensures a corrosion-free life in a low-profile design that can be rotated to fit in any position needed for your application. Available with either a 255 or 450 lph (liters per hour) fuel pump.

## Accessory Drive Systems

### Accessory Drive Systems include:

- Powermaster 170 amp alternator
- Aluminum water pump
- Sanden AC compressor (where applicable)
- Gates tensioner and serpentine belt

- GM Type II power steering pump
- SFI Approved balancer (LS models only)
- All necessary CNC billet aluminum brackets and pulleys
- Stainless steel hardware

Available in Black Anodized and Polished Aluminum

Power steering reservoir and hoses are not included and must be purchased separately. LS Systems fit 4.8L, 5.3L and 6.0L Truck engines and will not work on engines with Variable Valve Timing (VVT).

### Serpentine Drive Systems

Small Block and Big Block Engines

Serpentine Drive Systems are the most compact and easiest to install serpentine kits on the market. Change the appearance and performance of your engine with pulleys and brackets CNC-machined from high quality billet aluminum. Includes six rib serpentine belt with more contact area than a traditional v-belt setup to drive all of your accessories.

### V-Drive Systems

Small Block and Big Block Engines

V-Drive Systems are the most compact and easiest to install belt drive kits on the market. Change the appearance and performance of your engine with pulleys and brackets CNC-machined from high quality billet aluminum. Includes v-belt setup to drive all of your accessories at a more affordable price than a serpentine belt setup. These kits work with mechanical and electric fans.

**SBC = Small Block Chevy V8**  
**SWP = Short Water Pump**  
**LWP = Long Water Pump**

AC Systems with compressor are designed for use with small block Chevrolet engines unless otherwise stated. Order the corresponding compressor mounting bracket and engine pulleys based on the water pump length and desired compressor mounting location for your vehicle. Kits supplied without compressor are ideal for vehicles that have swapped engines and/or already have installed an AC compressor as part of their engine's accessory drive system. All systems are designed for use with R134A refrigerant.

These are complete AC, heat and defrost systems that are electronically controlled. The unit is interior mounted under the dash and installs to the firewall using the original heater mounting holes. AC and heater fittings pass through the factory blower motor hole with a custom rubber grommet. Step-by-step, fully detailed illustrated instructions are included.

**1947-55** system's compact design allows you to retain the cowl vent and a majority of the glove box. Custom molded plenum fits along bottom edge of the dash and has provisions for the electronic slide control and vents. If desired, the plenum can be painted or covered with upholstery to match the interior of the truck. Adding the optional trinary switch upgrade #32-0543 and additional 14" electric condenser fan #32-0542 will increase airflow across condenser to maximize the AC system performance.

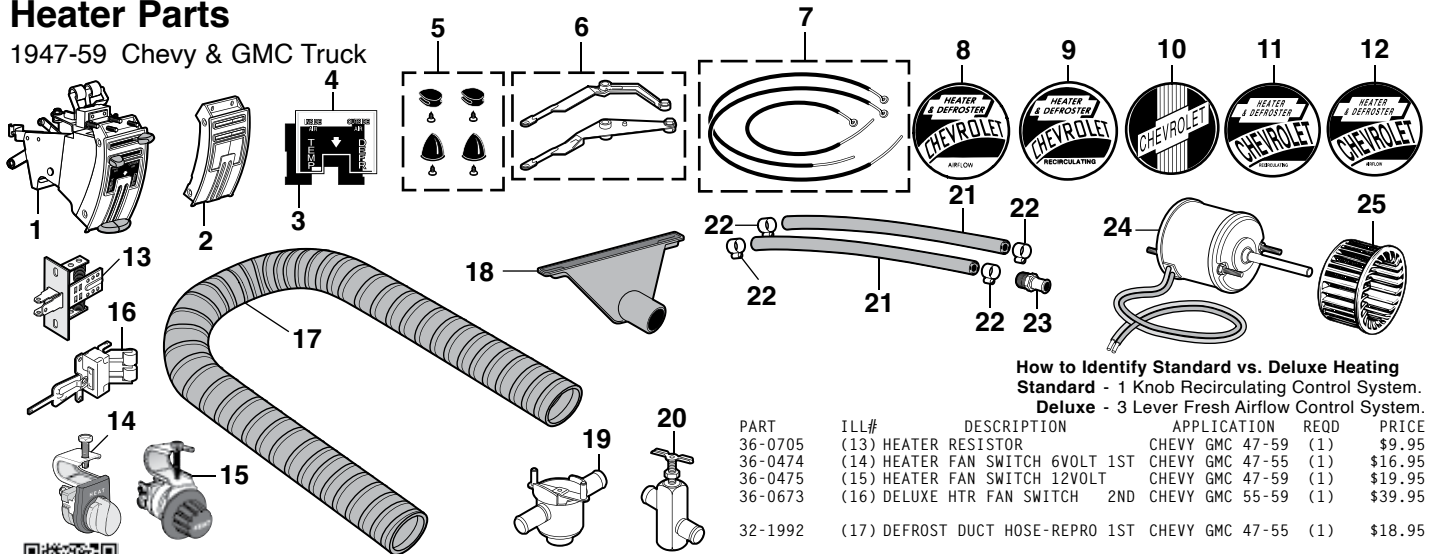

**1955-59** systems feature high torque electric servo motors to operate the heater valve and defrost functions. Includes custom dual center, left hand and right hand air vents.

## Electric Cooling Fan Kit Keeps Your Engine Cool

Electric Cooling Fan and high-performance motor give maximum air delivery while working off the electrical system. Fan blade and shroud are constructed of glass-filled nylon for strength and durability; includes mounting hardware as well as easy-to-follow instructions. **Fits 12 Volt Systems Only**

#38-4894 Adjustable Thermostat, sold separately, operates fan only when needed. Adjustable Thermostat is adjustable from 150°-240°F.

Quick Re-Installation Kit contains everything needed to reinstall the cooling fan if removed.

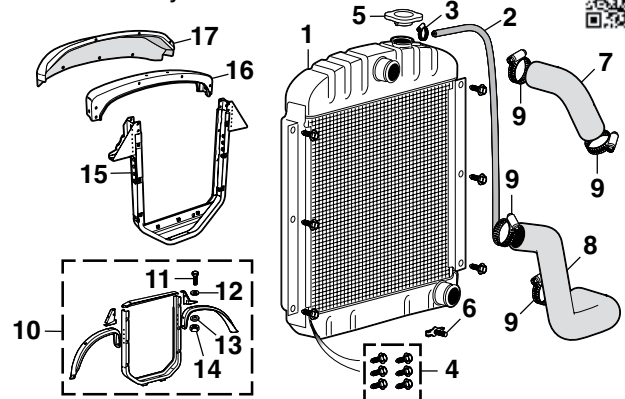

A/C Cooling Fan Harness activates the electric cooling fan when the A/C compressor clutch is engaged. Kit includes heavy-gauge wire harness, relay, 30 amp fuse, electrical connections and installation instructions.

## Flame-Thrower™ Billet Distributor 30-Month Warranty

36-2961

36-2979

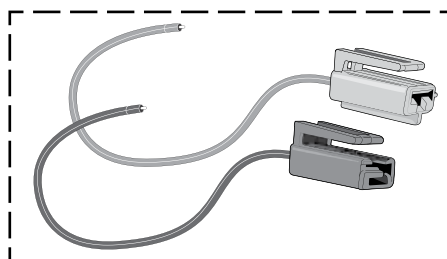

The Flame-Thrower™ is a performance proven distributor. Stable timing and precise spark distribution is provided by the patented Ignitor II electronic ignition module. The Ignitor II increases performance by adjusting the dwell angle to maintain peak energy throughout the entire rpm range. For maximum high rpm performance use the low resistance Flame-Thrower II™ Coil.

Features include low torsion, tempered .500" diameter shaft for accurate timing and longer life; housings that are CNC-machined from highly polished 6061 T-6 aluminum for strength; a top roller bearing and oil impregnated bronze sintered bottom bushing that reduce friction and vibration; a machined heat treated gear to ensure durability and a tight mesh with cam to eliminate horsepower-robbing timing fluctuations; an easily adjustable proprietary mechanical advance; high dielectric strength cap with brass terminals and premium rotor; and additional springs for setting custom advance curves. Easy installation.

## Ignitor Electronic Ignition System ... Never Change Points Again!

### 30-Month Warranty

This precisely engineered solid state breakerless ignition system installs with only two wires. The entire Ignitor System is immune to dirt, oil, heat and moisture. Firing down to zero rpms it switches twice the energy of conventional systems. Installation is fast and simple; can be installed in the time required to change a set of points.

## Ignitor II Electronic Ignition System

All the Benefits of the Original Ignitor and More

### 30-Month Warranty

Senses current level in the coil and adjusts dwell to maintain peak energy throughout the entire RPM range. Develops an average three times more available energy between 3,000 and 5,000 rpm and nearly doubles available plug voltage.

High rpm performance is improved with the Flame-Thrower II™ Coil. Peak current level is reached just prior to spark, so ignition energy is sustained with less heat build up, increasing coil and module life.

Adjusts spark timing over the entire rpm range to compensate for the inherent electronic delay, resulting in more stable timing. Senses incorrectly wired or key left on and shuts down the system, protecting the coil and other components from damage.

## Flame-Thrower™ 40,000 Volt 1.5 Ohm High Performance Coil

47-2940-C 47-2941-C

The perfect coil to go with the Ignitor Electronic Ignition and adds performance to most distributors. Higher voltage allows larger spark plug gaps for added power, smoother response and better fuel economy. The coil is oil filled for better cooling and fits existing brackets. Available in chrome or black.

## American Autowire Wiring Harness Designed Specifically for Your Classic Truck

This quality Wiring Harness from American Autowire will rewire truck from headlights to tail lights and is able to add many options and accessories. High heat and abrasion resistant XLPE wire withstands -60°F to +275°F. Wires are ink jet printed every two inches with circuit descriptions. GM color-coding is used throughout.

Harness contains fuse box and custom aluminum mounting plate for bolt-in underdash installation. All required hardware and detailed installation instructions included.

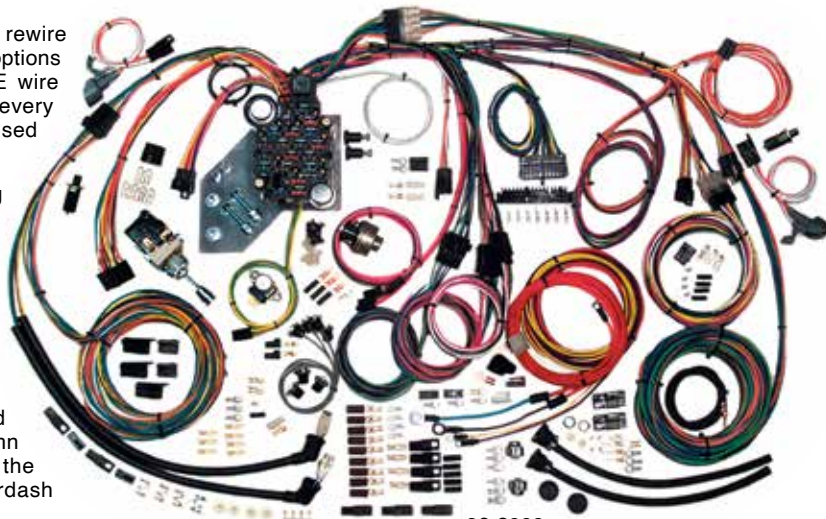

All original terminals, connectors and light sockets are supplied for original cluster gauges. Complete replacement headlight switch with internal circuit breaker and dimmer switch is also included.

New ignition switch is included for dash-mounted applications. Connectors and terminals are also supplied for GM column mounted ignition switches. Steering column connection plugs into any GM steering column using the supplied connector and terminals. Also includes underdash courtesy lights and door jamb switches.

An accessory disconnect is provided with fused or circuit breaker connections for power windows, power seats, cruise control, electric fuel pump, power door locks, extra radio or optional power accessory.

Engine wiring includes standard starter and gauge leads for water temperature, oil pressure and tachometer. Heavy 8-gauge alternator leads are supplied along with power and tachometer connectors for both points type and HEI distributors.

All power circuits are protected by fusible links. Wiring for an electric engine fan and original or custom fuel tank mounting is included.

36-2990

Wiring Harness is designed for 12 volt systems only. To maintain 6 volt heater order part #36-3608 and #36-3640 for 6 volt gauge, see page 114. Harness will not work with an ammeter gauge. Does not include resistance wire for points ignition systems.

All headlight and tail light connectors and terminals are provided with original weatherproof style boots and tubes. Park, directional, backup and license lamp connections provided.

## American Autowire Universal Wiring Harness ... Finish the Job Right the First Time

Universal Wiring Harness from American Autowire is a comprehensive approach to rewiring your truck's electrical system. Factory assembled harness features a prewired fuse block with modern blade-type fuses and built-in additional circuits. Wiring Harnesses are available in 13-circuit and 20-circuit assemblies.

Highest quality terminals and color coded and labeled GXL/XLPE wire (cross-linked polyethylene, -60°F to 275°F abrasion resistant) are used. Includes conventional, GM SI internal regulated and 1-wire alternator leads; HEI distributor wiring; GM column mounted ignition switch connectors; headlight and floor mounted dimmer switches. Terminals are provided to make adapting to any aftermarket steering column easier. Standard features include starter wiring, tachometer lead, single headlight plugs, third brake light, horn relay, turn signal and 4-way hazard flashers, fuses, terminal ends and wire ties. Easy-to-follow instructions and schematics are included.

36-3662

Wiring Harness is designed for single headlight 12 volt negative ground systems only. Can be adapted for use on dual headlight models with additional wire and original sockets. To maintain 6 volt heater order part #36-3608 and #36-3640 for 6 volt gauge, see page 114. Harness will not work with an ammeter gauge. Does not include resistance wire for points ignition systems.

## Classic Braid Flex Loom and Wire Loom Installation Tool

**36-2615**

Soft cloth-like 10 mil thick braided material is lightweight, flexible and retains shape and rigidity from -100°F to +250°F with a melt temperature in excess of +400°F. Features a lateral split along its entire length that closes in around the wire bundle without the need for tape or wire ties. Additional 25% edge overlap allows coverage around inline plugs, connectors and splices. Comes in 3/16", 3/8", 1/2", 3/4" or 1" diameter and sold as a 10' roll.

## Voltage Reducers

**36-3608**

**#36-3608 Ceramic Voltage Reducer:** Provides solution for a 6 volt heater (etc.) that must be used with a 12 volt vehicle electrical system. *Not intended for use with electrical gauges; 4 amps maximum current. More than one may be used in parallel to increase load capacity.*

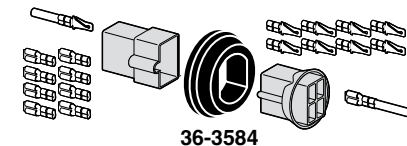

**36-3640**

**#36-3640 Electronic Voltage Reducer:** Enables reuse of original 6 volt fuel, oil and temperature gauges when converting a truck to a 12 volt negative ground system. Connect one reducer to each gauge and the EVR will stabilize output at 6 volts while eliminating gauge fluctuation.

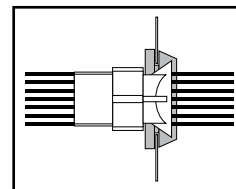

Note: Do not use on amp gauge. Most amp gauges will work on 12 volts with no changes required. An electronic voltage reducer will have to be purchased for each 6 volt gauge.

## Custom Light Bulbs

**Halogen Bulb Tech Tip:** Always handle halogen bulbs by the plastic base to prevent contaminants on the glass from shortening the life of the bulb.

### Halogen Blue-Coated Headlight Bulbs

Replace the white halogen bulbs with a halogen blue-coated bulb. Blue-coated bulb creates an intense white light, giving the cool look of HID (high intensity discharge) lighting without the high price; call or go online and order yours today!

PART	DESCRIPTION	APPLICATION	REQD	PRICE
36-0291	HALOGEN BULB-BLUE FOR HEADLIGHT	#36-0281 47-57	(2)	\$3.95

### Superwhite Bulb Set Produces 30% More Light

Superwhite headlight bulbs produce 30% more light while retaining the street legal wattage. Superwhite bulbs use a proprietary mixture of premium gases that includes Xenon, which cools the light filament, improving the efficiency and light output of the bulb, unlike standard halogen bulbs which use less efficient argon gas.

Superwhite bulbs operate in the Kelvin color temperature range of 4000-4200K, producing a brighter, white light. Traditional halogen bulbs operate at 2600-3000K, emitting a more yellowish appearance. Sold in sets of two. Call or go online and order yours today!

## LED Bulbs

LED bulbs have no filament, making them less sensitive to vibrations, and illuminate 140 times faster while lasting up to 20,000 hours, much longer than conventional incandescent bulbs. They emit less heat and use only 15% of the energy required by incandescent bulbs, reducing the load placed on a vehicle's electrical system.

# LED Lighting

New technology previously only on high-end luxury cars is now available for trucks! LEDs quickly alert other drivers of your intentions with LED bulbs that illuminate 140 times faster than conventional incandescent bulbs, which translates to a gain of 20+ feet of reaction distance.

## Additional LED benefits:

LED lights have no filament, which means they are less sensitive to vibrations, and they can last up to 20,000 hours. They use only 15% of the energy required by incandescent bulbs, reducing the load placed on your truck's charging system, and less heat is emitted.

An Electronic Flasher is recommended when upgrading to LED bulbs or light assemblies. Due to the lower current draw of LED lighting, the factory flasher may cause inconsistent flash rates, no flash or indicate that a bulb is out.

## LED Parklight Lenses

## Driving Light Set

38-1274

Driving lights provide a longer, more focused beam pattern for improved long-range vision. Features include reinforced steel housing with black finish and adjustable chrome mounting bracket with 10mm mounting stud; and state-of-the-art reflector which gives maximum light output from a 4-1/2" diameter light. Lights are complete with illuminated push button switch, 12-volt relay, all necessary wiring, mounting hardware, protective lens covers and high efficiency halogen 12V 55W replaceable bulbs.

For added style, replace the white halogen bulb with a halogen blue-coated bulb. The blue-coated bulb creates an intense white light which gives the cool look of HID (high intensity discharge) lighting without the high price.

## Retail Delivery Fee Notice

*Some states are starting to pass legislation requiring us to collect a Retail Delivery Fee on shipments. Check with your state's department of revenue for more information.*

*For those customers living in states that require this, the extra fee will be added to each purchase that is taxable under the state code.*

### What You Need to Know Before Ordering:

We are excited that you've decided to make us a part of your journey! Whether you are rebuilding from the ground up or just adding some distinctive touches to your vehicle, we are proud to give you a hand.

In addition, we'd love to see what you've been up to with your projects, so please log on to [lmctrucklife.com](http://lmctrucklife.com) and share your stories and pictures.

Understand that we are not trained automotive technicians. We want you to consult with mechanics regarding technical advice. Technical information is also included in the workshop manuals shown in this catalog. Please take the time to consult these resources if you feel you need to.

On those occasions that we've run out of a part on your order, chances are that it's already on its way to us. These items are listed as backordered on your invoice and will be sent your way as soon as possible. If you're not interested in waiting for your backordered product, just call our customer service line at (800) 222-5664, and we will cancel it and refund any money that has been paid.

You can also write "No Backorders" on your order form before you send it to us, and we'll make sure only to ship the products we currently have in stock.

Some parts have extra charges. Please consult below to make sure you understand these charges and so you aren't surprised later.

#### Part Number Definitions

- T** - After a part number means that part must be shipped Truck Freight. The prepaid order will include a \$150.00 charge for delivery in the 48 contiguous United States. Orders outside of 48 states will be quoted. Due to packing and/or transportation requirements, please allow additional time for delivery.
- \* - After the sell price means Oversize Part Charge. Your order will incur a charge of \$20.00 for each oversized part. Due to packing and/or transportation requirements, please allow additional time for delivery. Oversized Parts are not available for air delivery.
- \*\* - After the sell price means Oversize Part Charge. Your order will incur a charge of \$50.00 for each oversized part. Due to packing and/or transportation requirements, please allow additional time for delivery. Oversized Parts are not available for air delivery.
- R** - After a part number means Remanufactured Part. No core charge.

And one more thing, the part our lawyers make us say: We reserve the right to refuse service or shipment to anyone. We reserve the right to collect a service charge of \$20 for a returned check and to hold any shipments until the fee is collected.

Thank you for your support. Best of luck with all your projects!

### What You Need to Know Before Returning:

If only we lived in a perfect world! Unfortunately, we don't, and things can go wrong. When that happens, we do our best to try to make things right again. But we need your help as well.

All returns must be in like new condition and in the original packaging. Please include a copy of your invoice, as that will make the process quick and easy.

We refund your payment the same way you paid. Refunds of less than \$1 will not be made except by customer request.

We can't be responsible for damages, so please package your returned items carefully.

If you can ship the item back to us ground or USPS within the 48 contiguous United States, you don't need to call for authorization. Just send it to us at:

**15450 W. 108th St, Lenexa, KS 66219**

If we shipped you the wrong item, send it back, and we'll send the right item and reimburse you the ground rate for your return.

We can't accept anything that has been installed (unsuccessful attempts do count), disassembled, drilled, welded, cut, painted, or modified in any way, so please make sure to check and doublecheck the fit before starting any work.

If you are returning a kit, it needs to contain all the parts you received. No partial kits may be returned.

Electronic media (CDs, DVDs) cannot be refunded once they are opened. However, if it is not working properly, it can be exchanged for the same part number.

Please call our customer service line for a return authorization if your part was delivered outside of the 48 contiguous United States.

If you want to return something you bought over a year ago, please call our customer service line for return authorization.

You must call Customer Service when returning a Truck Freight item.

**Customer Service Line: (800) 222-5664**

**¿Habla Español? (855) 456-2288**

A 20% non-refundable restocking fee will be added to anything that's over a year old (unless the extended manufacturer warranty is still in effect, of course) as well as to any unauthorized Truck Freight returns.

And the legal part again: We have the right to refuse any return we deem unfit for resale. We also have the right to refuse any shipments where the shipping charges, duties, customs, etc., are not prepaid.

This chart shows shipping charges on orders up to \$500. Parts must be 108 inches or less and weigh 70 pounds or less to qualify. If any part does not meet these qualifications, your order will be delivered by ground for additional charges.

All orders will ship complete. Any additional delivery charges will be added to your total as needed, including Oversize Part charges or overweight charges.

We will need a daytime phone number with your order. If there is a problem with your order, we will attempt to contact you three times. If we are unsuccessful, your order will be cancelled 5 days after that third failed attempt.

### What You Need to Know When Shipping Problems Occur

Please open your package(s) as soon as possible and make certain that everything is accounted for and nothing was damaged in shipment. Damaged shipments are the responsibility of the carrier and must be reported to the carrier within 15 days of receipt.

If the package looks damaged when it arrives, open it with the delivery person present, so that they can make an immediate report of damages and discrepancies. If the damage is not obvious at the time of delivery, or if the package was left for you by the shipping company, contact their customer service as soon as possible to make your claim.

On Truck Freight shipments, it is your responsibility to check your order and have the driver note any damage on the freight bill before you sign for your item(s).

Please keep all packing, packaging and contents until your claim has been settled with the shipping company.

### What You Need to Know About Shipping Internationally

All international orders ship complete. Shipping charges must be prepaid in U.S. funds. Brokerage, duties, taxes, and fees associated with the order are paid by the customer. We do not accept personal checks on international orders.

**New Rules for Out-Of-State Sales Taxes**

On June 21, 2018, the United States Supreme Court fundamentally changed the rules for collection of sales tax on out-of-state transactions. In its decision the Court effectively stated that individual states can require online sellers to collect state sales tax on their transactions. Many states already have, and more will continue to, impose sales tax collection on companies.

Based on this ruling we will be collecting taxes if you reside in a state that requires us to do so.

*If you are planning on sending an order by mail, please be sure to check your State and Local Sales Tax rates.*

## A Part of the Family

*Tim Sexton and His 1955 Chevy 3100*

When my wife Amy and I got married in 1989, my father-in-law (Woodrow "Red" Charles) had a 1961 Black convertible VW Beetle. It was beautiful. He would take it to shows and drive it in parades. He sold that and started working on a 1948 Plymouth, but after years of searching for parts, he gave up on it.

Then, he got a 1949 Chevrolet 3100. That is when the real fun began. After several years, a lot of work, and many hours, it was finished. After a few years, he sold it. But before he did that, he had gotten a 1955 First Series 3100. After more trips collecting parts, the work started. This was a complete frame-off, nut and bolt restoration. It was a lot of work; many, many hours spent in that shop. I remember peeling my fingernails loose pushing the rubber molding in the doors. The only thing that wasn't done in his shop was having it painted.

The paint job itself took a while, but the decision-making process took even longer. Red originally thought about making the truck a replica of his Sinclair gas station work truck, the iconic green dinosaur color. But he eventually decided to go with the blue color you see and restore it as a showpiece. It is painted in a baby blue (according to my daughter, it is NOT Carolina blue) and light almond colors.

While completing the build, we started putting the oak wood in the bed because models from this time had wood in the bed. My father-in-law insisted that it be finished in the original flat black, not like the trucks today with a shiny stained wood. It never fails, people always comment on the bed looking so original.

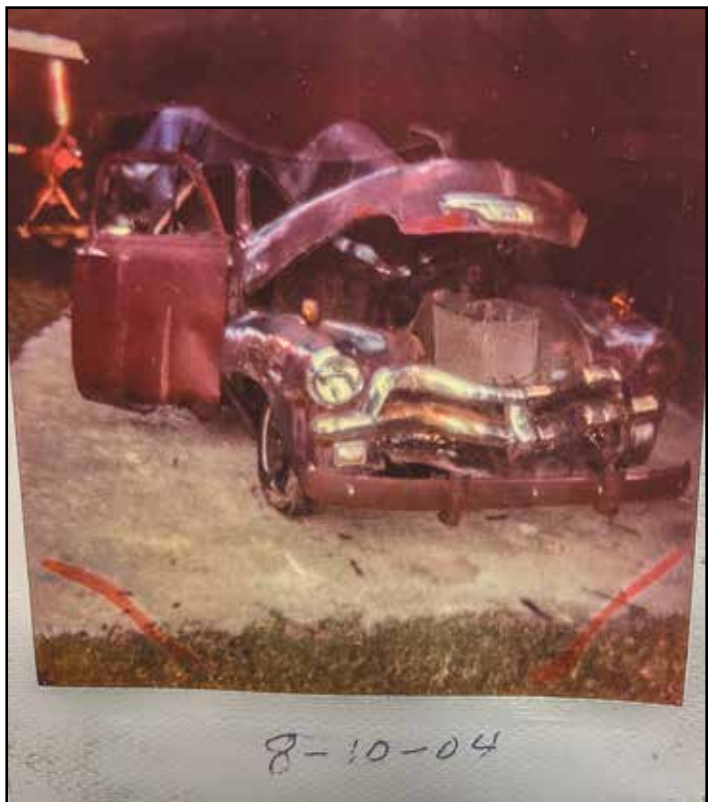

After a tedious process (one that lasted almost ten years), the truck was finally finished. We started taking it to shows and parades in 2004. It has been a mainstay at a Cruise-in in High Point, NC, on Thursdays throughout the summer months.

Sadly, in March of 2020, my father-in-law passed away. Now my wife and I own it, and it is a part of the family. People that see it ask me if that was Red Charles's truck. I tell them that it still is his truck, I'm just taking care of it for him!
