

## Battery Disconnect Switches

Battery Disconnect Switches are easy to install and stop battery drain and reduce the risk of fire while your vehicle is parked. With key or knob style disconnects, the key or knob can be totally removed as an additional deterrent against vehicle theft. A 15-amp Bypass Fuse is available to maintain memory on your radio, clock, etc., while your battery is disconnected.

## Cut to Fit Battery Cables

Chevy & GMC

Tired of having to use pre-made lengths of battery cables, having way too much left over or just plain too tight after it's installed? Then try these new cut to fit battery cables that you can route as you see fit for a cleaner look, rather than an "it is what it is" look. Simply cut the outer sheath back, solder which terminal you need for your truck (solder pellet and terminals included) and finish the cable off with the shrink tube provided.

These cables are not OEM replacements, they are made for gas applications only and provide one cable with a top mount battery end.
