## LED Tail Light Conversion Kit

55-2650

55-2651

Enjoy the benefits and the intensity of LED tail lights while retaining the original look of your Classic Truck. This LED high-tech conversion kit bolts right into the stock tail light housing and adds safety and brightness. Converts the tail, stop and turn signals into very bright and visible LEDs.

Features new technology Rapid Fire stoplights, three flashes and then constant, or choose normal operation. 100 degree viewing angle and cool operation with long life.

Kit includes: 2 LED arrays with 14 high-intensity LEDs per side, solderless connectors, LED-to-truck electrical harness, rubber insulator pads and installation instructions. White LED backup bulbs are included.

For maximum lighting intensity, replace your aged, weathered tail light lenses with tail light lens set 55-2651.

Holley Sniper 2 EFI is a self-tuning, easy-to-install, Electronic Fuel Injection conversion for common 4-barrel (4150 flange) style carburetors. Make your classic truck drive like a modern fuel-injected vehicle, including easy cold starts, smooth drivability, and improved fuel economy!

If you're looking for a high-performance fuel injection system that delivers power, efficiency, and ease of use, look no further than the Sniper 2 EFI.

- Replaces 4-barrel (4150 flange) carburetors.
- Available in black or polished finishes.
- 4 wiring connections required: Battery+, Battery-, Switched Ignition, and RPM.
- Variety of tuning and gauge display interfaces: from a 3.5-inch full color LCD Handheld, 5-inch Digital Dash, or the Bluetooth dongle, which allows you to connect either an iOS or Android based cell phone to the Sniper 2.
- Inputs and outputs consist of: 2x Ground Inputs, 2x Ground Outputs, 1x TPS Output (0-5v), and 1x Tach Output.
- Onboard contactless magnetic TPS sensor ensures an accurate TPS reading.
- The included genuine Bosch LSU 4.9 wideband oxygen sensor provides real-time fuel map learning.
- Redesigned throttle shaft and plate geometry for a smoother throttle feel.
- Supports up to 650hp naturally aspirated or 575hp on boost with four 100 lb/hr injectors.
- Next generation ECU features improved RF noise and interference resistance.
- "Hidden Harness" wiring harnesses exits from the rear of throttle body for a clean appearance.
- Redesigned injector connector for improved reliability.
- Main harness includes plug-and-play HyperSpark distributor support, for integrated timing control, making your ignition setup hassle free.
- Included clamp-on oxygen sensor kit ensures a leak free oxygen sensor installation.
- Integrated transmission kick down provisions for GM TH350/400, 200-4R/700R4 and Ford C4/C6 applications.
- Calibration wizard only requires that you answer a few simple questions about your engine to create a base map and begin self-tuning – No laptop required.

I have a picture in my office. It was an aerial photograph taken in the '60s of the farm we lived on in rural Iowa. To be exact, RR1, Anamosa, IA, before every address had a house number and a private line telephone. We had a party line phone with 8 people on it, well, that is a whole letter to itself along with the Sears and Roebuck catalog, that had everything from toys to a house you could buy and build.

It was a thing back then, and still is now, that a plane flies over, takes a picture and then sells it to you. We aren't going to get into the right or wrong of that idea right now. Instead I am going to say I am grateful that day they flew over and my parents somehow had the money to buy that picture.

It hangs in my office alongside the serenity prayer. It is there to remind me of who I am and where I come from. That my mom and dad somehow raised 5 kids in a 2-bedroom house until Uncle Dewayne converted the garage to a bedroom for them in the late '60s. That you can exist without a shower and only a bathtub, that you got three TV stations if the rabbit ears were just right and wrapped in aluminum foil, and the only thing you were allowed to watch were Gunsmoke, Rawhide, and Wild Kingdom. Oh, and can't forget The Andy Williams Show. That Sunday morning was church and then grandma's fried chicken and gravy. My grandmother was younger then than I am now. I hadn't really thought about that until I started typing out this letter.

The picture is before my grandfather put the orchard in for them and the feed lot went in. It had to be the early '60s that this picture was taken. Before mom let me put in my own flower beds and I went into the woods and dug up what I wanted to plant and tried to graft or cross-pollinate. Before my mom and I had our first and only big fight over Vietnam. I was a pacifist and plant-loving, earth-loving girl, even back then, who drove her dad's old truck long before I was old enough because the sheriff would just know I was Harold's daughter.

I have been nostalgic lately. I think it is because I turn 69 in January and have outlived my parents and two of my brothers. My parents died young. My dad was only 58, so when you are older than your parents were when they died, your brain can overthink things.

At every level I know I have a great life, with two daughters with beautiful families, and I have been truly blessed. But deep in my heart I am still that young pacifist, plant-loving, earth-loving girl who just wants to garden and drive the old truck. The shorter, colder days were always my time to slow down and think about my next chapter, until COVID, and then it was just hurry and scramble and work. This year I am taking time off work to reflect and make decisions about my last chapter. I want to go into the woods, find the plants that only grow there, and try them in my wildflower garden. I want to drive the '72 Cheyenne into "town" with my grandsons to get ice cream. I will never leave LMC or sell it, but it is time for me to enjoy and spend more time with my grandchildren and daughters. Maybe only work 50 hours a week!

## How to Read this Catalog

Throughout this catalog, the application line of the part number describes which model of Dodge that particular part will fit. The models this catalog covers are full-size Dodge Trucks and Dodge Ramcharger. Because not everyone can identify their truck by these model descriptions, here is an example of what each word and number that appears on the description line stands for:

		APPLICATION	REQD
		<b>DODGE</b>	<b>72-93 (1)</b>
DODGE	=	Full-Size Dodge Trucks	
		and Ramchargers	
PICKUP	=	Full-Size Dodge Trucks	
SUV	=	Dodge Ramcharger	
Part fits this year span			
Quantity required to complete one truck			

## Part Number Example

PART	ILL#	DESCRIPTION	APPLICATION	REQD	PRICE
56-9842-T	(1)	FRONT FENDER-LH	"A" DODGE	81-93 (1)	\$124.95

The application line states that this part, **#56-9842-T**, fits Dodge Truck and Ramcharger models from 1981-93. On the description line of part you see "A", this means there is a special note about this particular part. At the bottom of the page the part appears on you will find a shadow box that will describe to you what the special note for this part is. Example:

Note: "A" Without radio antenna hole.

This note is telling you that this part, **#56-9842-T**, does not have a hole for the radio antenna.

## 1972-93 Truck History

- 1972** Models incorporated more comfort, convenience and serviceability. Larger windshield and back window improved outward visibility. Curved door glass added four inches of shoulder room. Gauges were recessed to prevent glare. Fuse box and emergency flashers were located behind the glove box door for easy access. Two-wheel drive models featured coil link front suspension and four-wheel drive models featured leaf spring front suspension, heavy-duty chassis components and larger rear brakes. Available options included power front disc brakes, power steering and cruise control. In-cab fuel tank for standard cab models.
- 1973** Club Cab introduced, adding 18 more inches of cargo or passenger space. Electronic ignition now available on all engines as an option.
- 1974** New grille design and optional 440 cubic inch V8 replaced the 400 cubic inch V8. Fuel tank for standard cab trucks relocated inside the frame rail. Ramcharger SUV available only with four-wheel drive and either 318 or 440 cubic inch V8. Factory removable roof was optional.
- 1975** Revised instrument panel and side molding design. Four-wheel drive models received updated suspension geometry and components. Full-time four-wheel drive standard on all four-wheel drive models. Two-wheel drive Ramcharger model added as well as 225 cubic inch slant six cylinder engine.
- 1976** Bench seat back now hinged for easier access to storage behind the seat. Glide out spare tire carrier added.
- 1977** Warlock trim level introduced on standard cab shortbed Utlite pickup, featuring gold spoke wheels, gold pinstriping and real oak bed side boards. A new grille incorporated rectangular parking lights. New seat trim and door panels added.
- 1978** Macho Power Wagon and Macho Ramcharger introduced. Li'l Red Express Truck added with a heavy-duty 360 cubic inch V8 equipped with four-barrel carburetor backed by a 3.55:1 rear axle. The Midnite Express was available for the 1978 model year only. This truck was equipped much like the Li'l Red Express with exhaust stacks, wheels and gold pinstriping. The Midnite Express was painted black instead of red and featured a "Midnite Express Truck" decal on the door. Most Midnite Express trucks were powered by the 440 engine, instead of the 360 like the Li'l Red Express.
- 1979** New sheet metal, consisting of hood, cowl panel, grilles and headlights. Top trim levels equipped with four rectangular headlights. Lower trim levels were equipped with two round headlights. Li'l Red Express Truck dropped.
- 1980** Grille openings painted black. Four-wheel drive models changed to part-time four-wheel drive. D100 model was dropped.
- 1981** New hood, fender, grille and rectangular headlights created a more sculpted look. New instrument panel. Tailgate redesigned for easier use. Ramcharger updated with an integrated steel roof. Intermittent wipers. Models now referenced as Ram for two-wheel drive models and Power Ram for four-wheel drive models.
- 1982** Miser option package was offered. Featured 225 slant six engine, bright finish grille, bright wheel covers, ram's head hood ornament, gold body stripes (tape), deluxe pleated vinyl seat, wood-toned instrument panel and color-keyed carpeting.
- 1983** Auto-locking hubs available for four-wheel drive models.
- 1984** D100 returns as the entry level model.
- 1985** Four-wheel drive transfer cases could be shifted into and out of four-wheel drive at speeds up to 55 miles per hour.
- 1986** New grille style, featuring four large openings and new front bumper, gave the front end a cleaner look. Crew cab and Utlite bed options were dropped.
- 1987** Full length door panels added. Oil pressure gauge, temperature gauge and trip odometer standard on all trucks.
- 1988** 3.9L V6 introduced. Throttle body injection added to 3.9L and 5.2L engines. 5.2L engines gained a 20 percent increase in power.
- 1989** 5.9L direct injected Cummins turbo diesel engine added. 5.9L gasoline engine received throttle body fuel injection.
- 1990** Club Cab returns. New heavy-duty four-speed overdrive transmission was optional. Anti-lock rear brakes were standard for Ramcharger models.
- 1991** New grille design. Air charge intercooler added to diesel models, and modifications to cylinder heads and pistons further reduced emissions on diesel-equipped models. 150S replaces 100 as the entry level model.
- 1992** 3.9L V6 and 5.2L V8 engines were upgraded to sequential multi-port fuel injection and given the name Magnum. 3.9L V6 power increased 45 percent and 5.2L power increased 30 percent.
- 1993** 5.9L V8 engine is brought into the Magnum engine family, receiving multi-port fuel injection and an increase of 25 horsepower and 30 ft-lbs of torque.

## Low and High Hump Transmission Tunnel Cover Identification

Carpet Kits and MIP Mats are often defined as "Low Hump" or "High Hump" or "Small Transmission, Large Transmission." This refers to the size of the Transmission tunnel hump in the floor of the cab. Models originally equipped with 4 wheel drive or floor shift have a larger hump than 2 wheel drive, column shift models. The illustration on the right is a guide to help you verify the type of floor your truck is equipped with.

## Steel Body Panels and What to Expect

All sheet metal is inspected before it is shipped and careful steps are taken to package parts so there is no damage during shipping. Due to the nature of the product, sheet metal is easily damaged and scratches, dents, dings and other imperfections are normal and not considered damaged. These kinds of imperfections should be expected and can be easily fixed during installation and the paint preparation, sanding and priming stages of your restoration. It is recommended you inspect all sheet metal that is delivered before the delivery driver leaves. Test fitting of all panels before installation is recommended and the use of alignment shims and other adjustments during the install may be required.

-T after a part number means that part must be shipped Truck Freight. An additional \$150.00 will be charged to your order for delivery in the 48 contiguous United States. Orders outside of the 48 states will be quoted. Additional delivery time required.

PART	DESCRIPTION	PRICE
38-3203	TAILGATE SEALER	\$15.95

Tuff Truck Bag is heavy-duty to withstand the elements for all-season cargo protection yet lightweight and collapsible to allow for easy storage when not in use. Tuff Truck Bag can be set up and loaded into any truck bed within minutes, unlike the time required for a camper shell or tonneau cover installation.

- Made from weatherproof, waterproof, non-breathable PVC material with heat fusion epoxy sealed seams along all edges.
- Heavy-duty, commercial-grade zipper and waterproof PVC triple-fold flap that covers the zipper.
- Heavy-duty metal rings in all four bag corners (top and bottom) to retain the bag to the truck.
- Includes storage tote bag and four adjustable bungee cords.
- Provides 26 cubic feet (40"x50"x22") of waterproof storage for any truck bed.
- Can be used alone or in addition to existing storage boxes.

## POR-15 Restoration Products

**POR-15** is a high-performance rust preventative black paint designed to extend the life of new and rusted metal surfaces. It dries to a rock-hard, non-porous finish that will not rust, chip, crack or peel.

**Dry Time Accelerator** reduces the cure time of POR-15 by 30-50% without affecting the final physical properties of the paint. One 8 ounce bottle treats 64 pints or 32 quarts of POR-15.

Dries in 2 to 5 hours; body fillers and paint can be applied over POR-15. For maximum effectiveness, degrease metal surfaces with Cleaner Degreaser, then prime with Metal-Prep.

**Approximate product coverage:**  
1 pint = 48 sq. ft.; 1 quart = 96 sq. ft.

PART	DESCRIPTION	PRICE
37-8411	POR-15 SEMI-GLOSS-1 PINT	\$41.88
37-8412	POR-15 SEMI-GLOSS-1 QUART	\$63.89
37-8408	POR-15 GLOSS-1 PINT	\$41.88
37-8409	POR-15 GLOSS-1 QUART	\$63.89
37-8418	DRY TIME ACCELERATOR	\$34.05

**High Temp Paint** is an extreme temperature finish that maintains color without burning off or discoloring on manifolds and headers. Withstands high temperatures up to 1,200°F and resists cracking, chipping and peeling. It is weather-, salt- and moisture-resistant. Available in gray or aluminum color; can be brushed or sprayed on. Recommend sandblasting for optimal surface preparation.

PART	DESCRIPTION	PRICE
37-8484	HIGH TEMP PAINT-GRAY 8 OZ	\$25.51
37-8485	HIGH TEMP PAINT-ALUM 8 OZ	\$25.51

**Approximate coverage: 8 oz. covers a set of big block V8 headers with two coats.**

**Metal-Prep** provides adhesion for POR-15 on any metal surface. Gently etches metal, neutralizes rust and creates an ideal anchor for coatings such as POR-15, while leaving a zinc phosphate finish to ensure chemical bonding of paint and steel. Metal-Prep must be used on galvanized metal, aluminum, stainless steel and smooth, polished or new metal surfaces prior to applying POR-15. Metal-Prep is water-based so it is not caustic, corrosive, toxic or flammable.

PART	DESCRIPTION	PRICE
37-8415	METAL-PREP 1 QUART	\$22.14
37-8416	METAL-PREP 1 GALLON	\$44.74

**Cleaner Degreaser** cleans and degreases in one application without messy residues, noxious fumes or flammable solvents. Removes grease, oil, mildew, algae, musty odors, soap films and wax from canvas, vinyl, plastics, nylon, wood, fiberglass and all metal surfaces.

Cleaner Degreaser should be used as a surface prep prior to using Metal-Prep and POR-15.

PART	DESCRIPTION	PRICE
37-8413	CLEANER DEGREASER 1 QUART	\$14.67
37-8414	CLEANER DEGREASER 1 GALLON	\$29.61

**POR-15 Self Etch Primer** is a quick drying and easy-to-apply coating which enables a restorer to quickly topcoat POR-15 Rust Preventive Coating and other basecoats. You can even topcoat POR-15 that's been in place for months or years. This Self Etch Primer is NOT a high-build primer, it can be sprayed on almost any painted surface and can be top coated in 15 - 30 minutes. It bonds incredibly well to POR-15 Rust Preventive Coating, and all topcoats bond incredibly well to POR-15 Self Etch Primer. It can be sanded lightly, and, if desired, multiple coats may be applied.

PART	DESCRIPTION	PRICE
37-8401	SELF ETCH PRIMER-GRAY	\$39.15

**POR-15 Top Coat** can be applied directly to a clean prepped metal surface, but when used as a top coat over POR-15 Rust Preventive Coating it provides the toughest, most permanent protection against rust and corrosion. It has exceptional long-term gloss and color retention when exposed to sunlight and the elements, non-porous, extremely scratch and chip resistant, won't crack, peel or chip. Can be applied directly to metal substrates, with no need for a primer or undercoat, and is formulated to form a robust barrier that sheds moisture.

PART	DESCRIPTION	PRICE
37-8402	TOP COAT-CLEAR	\$28.39
37-8403	TOP COAT-GLOSS BLACK	\$28.39
37-8404	TOP COAT-CHASSIS BLACK	\$28.39

**Chassis Black** has a semi-gloss appearance. For maximum durability, Chassis Black should be clear coated.

**Bed Liner** is a water-based, rubberized coating ideal for protecting truck beds, and all other metal, aluminum, fiberglass and wood surfaces exposed to impacts and scuffs. It is UV stable and offers superior adhesion, impact resistance and flexibility. Features a textured semi-gloss black finish for good looks. Prior to application, surfaces should be degreased with Cleaner Degreaser and metal surfaces should be treated with Metal-Prep. Bed Liner can be applied over POR-15.

Shortbed trucks - 1 gallon for two coats on bed floor, sides and tailgate. Longbed trucks need an additional quart.

**Approximate product coverage:**  
1 quart = 25-30 sq. ft.; 1 gallon = 100-120 sq. ft.

PART	DESCRIPTION	PRICE
37-8480	BED LINER 1 QUART	\$37.94
37-8481	BED LINER 1 GALLON	\$142.96

**Fuel Tank Sealer** coats the inside of your tank to stop rust and seal pinholes and weld seams. It's a non-porous, flexible film that is resistant to all fuels, alcohols and fuel additives. This environmentally safe sealer does not contain the harmful chemical Methyl Ethyl Ketone (MEK) and is non-flammable. Cleaner Degreaser and Metal-Prep must be used to prep fuel tank prior to using fuel tank sealer.

**Approximate product coverage:**  
1 pint = to 12.5 gal tank; 1 quart = to 25 gal tank

PART	DESCRIPTION	PRICE
37-8488	FUEL TANK SEALER 1 PINT	\$31.44
37-8489	FUEL TANK SEALER 1 QUART	\$54.60

**POR-15 Stop Rust Kit** is designed to stop and/or prevent rust on metal surfaces and ensures the best results when applying POR-15 Rust Preventive Coating. The kit contains everything you need for the 3-step process; 8 ounce bottle of POR-15 Cleaner Degreaser, 8 ounce bottle of POR-15 Metal-Prep, 4 ounce can of POR-15 Gloss Black, two paint brushes, 1 pair of latex gloves, and detailed instructions and tips. The kit is ideal for small projects such as sub-frames, axle replacements, control arms, brake shields and much more! There is enough material in this kit to cover a 6 sq. ft. area with two coats.

## Windshield and Rear Window Installation Tips:

1. Fit your new window rubber to your cab first, then install the window glass.
2. Use a rubber friendly lubricant such as WD40 and the Windshield Stick (#38-0796) to ease installation and avoid damaging your window rubber.
3. Window rubber shrinks; your new window rubber may appear slightly larger than the original prior to installation.

**TINTED** Window has a full light green tint to glass.

**SHADED** Window has a full light green tint with a dark band at the top of glass.

## Permatex Windshield and Glass Sealant

Permatex Windshield and Glass Sealant is a silicone sealant for windshields, windows and other glass. Flows into leaks like water and dries to form a flexible, tough, clear seal that is resistant to extreme temperatures, vibration and most chemicals.

**STANDARD** = Standard Rubber Seals do not have a groove for trim.  
**CUSTOM** = Custom Rubber Seals do have a groove for trim.

## Retro Floor Mats

**DOJAMAT**

RETRO FLOOR MATS DONE RIGHT

Protect your truck's carpet with these Retro Rubber Floor Mats from Dojamat. Patterned after the very popular floor mats available in the '70s and '80s, they're the perfect final touch to your truck's interior.

They are made from 100% premium grade durable black rubber, top and bottom. Retro rubber floor mats feature several gripping areas for non-slip fit.

Each set comes with two floor mats.

## Carpeted Floor Mats

How to Identify Low Hump and High Hump See Page 7

56-7192-TN

Black Blue Green Tan

These mats protect your carpets from the everyday wear and tear as well as mud, sand, snow and the sun which cause your carpet to fade. Floor mats are made from 100% nylon, trimmed with color coordinated vinyl binding and feature a grip lock non-skid backing to help them stay in place.

## EVA Sound Deadener and Heat Shield Kits

Heat Shield Kit

**Installation Tip:** To reach the maximum level of sound dampening and insulation, use Multi-Purpose Insulation #38-2829 to cover any areas not protected by the EVA Sound Deadener and Heat Shield Kits. Use #38-0798 Spray Adhesive, #38-0759 Weatherstrip Adhesive and #38-0716 Aluminum Tape to install sound deadener, heat shield and insulation.

### EVA Sound Deadener Kit

The EVA Sound Deadener Kit is die cut for easy installation. Made from OE type, 1/16" thick Ethyl Vinyl Acetate (EVA) which is an asphalt based material used for sound dampening. Applies directly to the cab floor. Reduces road noise and cab harmonics to give you a quieter ride and also helps to insulate against heat and cold. To further insulate against heat and cold, use in combination with the Heat Shield Kit.

**Sound Control Mat** reduces noise, vibration and heat created from the engine, road and structure of your vehicle. Can be applied to any interior surface area; cover as little as 25% of an area for a noticeable reduction. Each 2mm thick sheet consists of butyl rubber with a top layer of heat resistant aluminum that is easy to cut and conform to contoured surfaces, just peel and stick. Available in silver and black, each sheet measures 21" x 29".

## 1/8" Thick Molded Industrial Polyvinyl (MIP) Floor Mats

Heavy-duty Molded Industrial Polyvinyl (MIP) Floor Mats are made of durable 1/8" thick industrial Polyvinyl and are resistant to moisture and temperature; therefore, they will not dry rot or crack and last longer than rubber. They are vacuum molded from the original floor pan to cover the entire floor, making installation easy.

Mats are easy to clean and protect your interior from water, snow, mud and most chemicals. The MIP Floor Mat includes pre-cut 36 ounce jute padding under the passenger areas to provide a higher level of insulation against heat, cold and road noise.

**Installation Tip:** Allow mats to lay unfolded for 48 hours at room temperature of 72° or more to help remove creases caused by packing. Test fit prior to making any permanent installations (some trimming may be necessary).

VHX Gauge Clusters have the look of the stock instrumentation but the features and capabilities of a late model. Every effort has been put forth to incorporate OEM design elements regarding the layout, face styling and indicators. A casual glance may dismiss these as original equipment, but once you hit the switch and the LED backlighting comes on, all doubts will be removed.

The dual LCD message centers can be fully configured to display just about any piece of information needed like mph, gear selection, and mileage, plus incorporate expandability to mesh with late model and diesel drivetrain conversions. Gauges include speedometer, tachometer, oil pressure, water temperature, volts and fuel level and each analog gauge sweep (except speedometer) contains a red LED indicator for quick notice of a warning condition and features fully lit needles and backlit faces. Additional features include the micro-controlled precision stepper motors and solid-state sensors for unparalleled accuracy. Detailed installation instructions and operation manual included.

These are a drop-in replacement for 1981-93 Dodge Pickups and Ramchargers and require the stock instrument bezel for installation (not included).

56-7457-LG

56-7456-LL

- Easy Installation
- No Special Tools
- Instructions Included

56-7458-LG

56-7457-LG

Rear headliner for Ramcharger is bonded to a durable, flat fiberboard backing and is not molded.

The original headliners are made of pressed foam board. Over time the headlining material separates from the foam board and falls down with the foam board usually deteriorated beyond repair. These ABS plastic backed headliners are a simple, cost-effective, long-term solution to this problem.

Headliners are vacuum-formed ABS plastic covered with foam-backed cloth materials in colors that fit and function as original.

For models originally equipped with cloth headliner.

## Highliner with Built-In Speakers ... For a Stereo System Above the Rest

56-7459-BL

Highliner uses four built-in, uniquely placed speakers which guarantee true stereo separation as well as less distortion and ensures clarity at lower volume levels by neutralizing the echo effect found in most pickups. Radio console is designed to accept optional aftermarket stereo cassette players, CD players or CB radios.

Highliner is manufactured from high-impact, leather-grained, black ABS plastic and can be painted to match the color of the interior. It installs easily and includes four 4" air suspension speakers with a 5.8 ounce magnet, which handles up to 10 watts of power. Features high-temperature resistant voice coils and comes with foam speaker baffle and suppression pads, antenna extension cable, bezel plate, installation hardware and instructions.

## Fuel Pump Control Module

Updating your truck to an electric fuel pump? Wiring the pump to an on-off switch or to a simple ignition switched source isn't the best idea. If an accident occurs, your pump would run as long as the switch is active. With the Fuel Pump Control Module, when the key is turned, the fuel pump turns on to prime the system in a three-second cycle, just like modern vehicles. Then the module uses the tach signal so the pump only runs when engine is running, giving you quicker start-ups and improved operating safety.

**Polyurethane Suspension Bushing Sets that Improve Handling**  
 See Below and Pages 51 and 50

Super-Duty Coil Springs provide additional stability and load capacity for trucks equipped with towing packages, campers and snow plows.

**How to Identify Lower Ball Joint**

**Threaded Ball Joint:** Base of ball joint has four flattened sides and is removed with a wrench.

**Press-In Ball Joint:** Base of ball joint is round and ball joint must be pressed out for removal.

**Coil Spring Compressor**

Remove and install coil springs with convenience and safety. Features safety U-bolt set, Acme threaded rods and ductile alloy cast hooks for safe and easy operation.

## 3" Body Lift Kit ... Makes Room for Larger Tires

**KYB**

Shock Absorbers  
See Page 51

A Body Lift spaces the body away from the frame to make room for larger tires without altering the suspension. Body Lift Kit includes reinforced nylon spacers, compression tested to 50,000 psi and plated grade 5 hardware. Since the stock suspension is not affected, and larger tires are normally part of the plan, new shocks are recommended.

**Read This:** Installation of a body lift will change the center of gravity and the handling characteristics of the vehicle. Because of the higher center of gravity and larger tires, the vehicle will handle and react differently both on and off road. You must drive it safely! Extreme care must be taken to prevent vehicle rollover or loss of control, which could result in serious injury or death. Avoid sudden sharp turns or abrupt maneuvers and always make sure all vehicle occupants have their seat belts fastened.

## KYB Shock Absorbers ... Driving Control, Even Ride and Performance Handling

**Gas-A-Just Shock Absorbers:** Features higher gas pressure to provide unsurpassed control on even the most demanding roads. Eliminates the age old problem of performance fade by eliminating aeration and foaming, a problem with other shocks that use two-tube construction that allows air to mix with fluid.

**Excel-G (XLG) Gas Shock Absorbers:** Features lower pressure for riding comfort with improved handling and response only gas shocks can provide at an economical price. The economical way to step up from hydraulic shocks to the quality ride and control of gas.

## Performance Sway Bars Give You Bolt-On Handling and Control ... Drive Faster Through Turns with Improved Traction

56-0251

Improve the handling ability and cornering traction of your vehicle with a Performance Sway Bar. Too much weight transfer in a corner destroys a vehicle's road-holding ability, causing the wheels to "drift" or "creep" sideways in the turn, resulting in poor handling and excessive tire wear. Sway bars give your vehicle the balance and stability it needs in curves, passing situations and uneven surfaces.

Performance Sway Bars are fully forged from hardened, high carbon steel and powder coated black for durability. Sway bars come with urethane end link and frame bushings. Brackets included for end link style attachment.

## Steering Controls - 2WD

A Steering Stabilizer Kit is basically a horizontal shock absorber that helps to stabilize the steering system. The kit not only helps to stabilize the steering, but can also help in the prevention of "Bump Steer", when the steering wheel jerks suddenly as a result of hitting a pothole or object in your path. These kits will also help to reduce normal wear on vital suspension pieces, and make tires last longer. This kit is especially helpful for trucks whose original equipment tires have been replaced by larger or wider ones.

## 4WD Transfer Case Components

Transfer case chains can stretch due to heavy use or high mileage and cause damage to the transfer case housing increasing the chance of expensive repairs.

Transfer case shift fork pads allow smooth shifting between 2WD and 4WD modes by engaging the shift collars inside the transfer case. Pad failure can prevent shifting between drive modes, possibly damaging the gears inside the transfer case.

## Differential Lock Kit

1985-93 Dodge Truck  
1985-93 Dodge Ramcharger

Differential Lock Kit is a permanent replacement for the original, vacuum-actuated central axle disconnect system (CAD). It permanently engages the CAD and couples both front axles. Axles automatically engage as soon as the transfer case is shifted into four wheel drive, ensuring proper function of the four wheel drive system with less risk of failure. Complete illustrated instructions and hardware included.

## Switch-Ball™ Set

37-7433

**Switch-Ball™ Set** - Constructed from premium grade steel with nickel-chrome plating, the Switch-Ball™ Set has an exclusive 'J' Groove design that ensures that the ball is installed on the shank and engaged by a coupler, making the hitching system safe and secure. Weight bearing capacity rests on shank to relieve stress away from the ball, thus freeing the coupler from friction and binding for a smoother and safer towing.

Change between three different trailer hitch ball sizes quickly and easily. No attachment pin to remove or tools required to switch ball sizes. Weight ratings for each hitch ball size are: 1-7/8" = 3,500 lbs., 2" = 6,000 lbs. and 2-5/16" = 8,000 lbs.

## Exhaust Headers ... Bolt On up to 20% Horsepower Increase

Hedman Headers offer excellent exhaust flow, reduced back pressure and improved performance. Includes hardware, 3" collector to 2-1/2" exhaust reducer, gaskets and instructions needed for installation. Headers are painted black. Tests have shown a 1.1 second improvement in 0 to 60 second times. Expect up to a 20% increase in horsepower and up to a 10% increase in gas mileage. Call or go online and order yours today!

*Increases in fuel efficiency and horsepower are based on a truck operating at factory specifications. Increases may vary according to the condition of your truck and driving habits.*

**Will not fit models with smog injection or injection heads. Will not fit late model vehicles with hi-torque starter.**

"B" Not legal in California for use on emission controlled vehicles. 1966 and newer U.S. manufactured California Certified vehicles are considered emission controlled vehicles.

Limited Lifetime Warranty

## Header Wrap

Increase performance by keeping hot exhaust gasses inside the headers for maximum velocity, improved exhaust scavenging and protecting sensitive engine components from high temperatures.

Header Wrap is able to withstand temperatures up to 1,200°F and is made from vermiculite-coated, textured fiberglass yarn woven into a strong, flexible wrap that can easily be cut with scissors.

Available in 25 or 50-foot rolls of 1" or 2" widths. Two 50-foot rolls of 2" wide are generally enough to wrap standard V8 headers. Stainless steel locking cable ties keep the wrap securely in place. *Header Wrap can void warranty of some headers. Check header manufacturer's warranty before installing.*

Headers with tight bends should use 1" wide wrap for coverage. Overlap wrap 1/4" for optimum heat dissipation.

## Thermal Spark Plug Boot Sleeve Set

Thermal Spark Plug Boot Sleeves provide thermal protection against hot exhaust headers. Double-layer gray fiberglass sleeves are non-conductive and can directly contact hot surfaces without harmful effects. Chemically-resistant 3/4" diameter braided sleeves easily slip over any spark plug wire and boot configuration to protect from temperatures up to 1,200°F. Call or go online and order yours today!

## Front Differential Cable Lock Kit ... Cures Slow to No-engagement Blues !

Works like hubs with full control from inside the cab without stopping, in any temperature. Will not disengage when ignition is turned off or if differential is submerged in mud, water or snow. Two-wheel drive low range benefits from bind-free steering AND high rear axle torque. This feature is not available with factory systems and is beneficial when maneuvering trailers. Reduces front differential wear and right axle breakage.

Differential Lock Kit is compatible with manually (lever) or electrically (push button) engaged transfer cases. Easily installed in one to two hours with basic hand tools. No internal axle or differential work required.

## Complete High Performance Bolt-On Exhaust Systems Connect without Welding

**Bolt On  
Up To  
18% MORE  
Horsepower**

56-0192

With 2-1/4" tailpipes, these Dual Exhaust Systems reduce exhaust restriction and back pressure for increased horsepower and better fuel economy. Complete with bolt-on connectors that adapt to your stock manifold ... no welding necessary! All parts and hardware for standard installation are included. The standard stock exhaust system of a truck with a 318 engine is a single 2-1/2" pipe. This means that you will be getting an 80% increase in exhaust flow, increasing horsepower by up to 18%, improving fuel efficiency and low-end torque at the same time. Increases in fuel efficiency and horsepower are based on a truck operating at factory specs.

**Only on Models Not  
Equipped with Factory  
Catalytic Converter**

\* Or \*\* after the sell price means your order will incur an Oversize Part Charge for each oversized part. \* Means extra charge will be \$20. \*\* Means extra charge will be \$50. These are longbed systems; front extension pipes will need to be cut to fit shortbed models. #36-5489 Tail Pipe Extension Set is required on all Crew Cab models. Exhaust systems are designed to route the exhaust pipes outside the frame.

Increases may vary according to the condition of your truck and driving habits. Manufactured from 16-gauge aluminized steel. Lasts up to twice as long as conventional plain steel systems. Made with modern tube benders utilizing mandrel bends, ensuring each bend is smooth flowing, increasing exhaust flow by up to 20% over stock systems. Call or go online and order yours today!

## Performance Diesel Single Exhaust System

With 4" pipe and a high flow muffler, this Performance Diesel Exhaust System reduces back pressure and lowers exhaust gas temperatures for increased horsepower and better fuel economy.

This Turbo-Back system is made with modern mandrel tube benders ensuring each bend is smooth and free flowing thus increasing exhaust flow by up to 20% over stock systems. Exhaust exits in stock location. Available in Aluminized Steel.

Easy bolt-on installation; no welding required. Hangers, fasteners, clamps and instructions are included.

This is designed to fit long wheelbase models. Front extension pipe may need to be cut, depending on the wheelbase of the truck.

## Performance Powr-Flo Throttle Body Spacers

Powr-Flo Throttle Body Spacers are CNC-machined from billet aluminum and feature a bore engineered to increase velocity of airflow into intake manifold. This allows more air to reach combustion chamber for denser air charge and increase in fuel efficiency. The result is improved throttle response and power gains in mid-range and upper rpm operating ranges. Includes gaskets, hardware and instructions for a simple, bolt-on installation with no other vehicle modifications required.

## NEW Holley Sniper 2 Electronic Fuel Injection System

Holley Sniper 2 EFI is a self-tuning, easy-to-install Electronic Fuel Injection conversion for common 4-barrel (4150 flange) style carburetors. Make your classic truck drive like a modern fuel-injected vehicle, including easy cold starts, smooth drivability, and improved fuel economy!

If you're looking for a high-performance fuel injection system that delivers power, efficiency, and ease of use, look no further than the Sniper 2 EFI.

- Replaces 4-barrel (4150 flange) carburetors.
- Available in black or polished finishes.
- 4 wiring connections required: Battery+, Battery-, Switched Ignition, and RPM.
- Variety of tuning and gauge display interfaces: from a 3.5-inch full color LCD Handheld, 5-inch Digital Dash, or the Bluetooth dongle, which allows you to connect either an iOS or Android based cell phone to the Sniper 2.
- Inputs and outputs consist of: 2x Ground Inputs, 2x Ground Outputs, 1x TPS Output (0-5v), and 1x Tach Output.
- Onboard contactless magnetic TPS sensor ensures an accurate TPS reading.
- The included genuine Bosch LSU 4.9 wideband oxygen sensor provides real-time fuel map learning.
- Redesigned throttle shaft and plate geometry for a smoother throttle feel.
- Supports up to 650hp naturally aspirated or 575hp on boost with four 100 lb/hr injectors.
- Next generation ECU features improved RF noise and interference resistance.
- "Hidden Harness" wiring harnesses exits from the rear of throttle body for a clean appearance.
- Redesigned injector connector for improved reliability.
- Main harness includes plug-and-play HyperSpark distributor support, for integrated timing control, making your ignition setup hassle free.
- Included clamp-on oxygen sensor kit ensures a leak free oxygen sensor installation.
- Integrated transmission kick down provisions for GM TH350/400, 200-4R/700R4 and Ford C4/C6 applications.
- Calibration wizard only requires that you answer a few simple questions about your engine to create a base map and begin self-tuning – No laptop required.

## LED Tailgate Running Light Kit ... For Added Visibility

LED Tailgate Running Lights provide added visibility to following vehicles and have a distinctive styling popular for big Dually tailgates. A good alternative location for these lights is above the rear window. Lights are a two-piece design with the lens snapping to a chrome-plated plastic body. Concealed mount screws and neoprene gasket ensure a clean, easy installation. Five light kit comes complete with wire harness and mounting hardware.

## LED Bulbs

LED bulbs have no filament, making them less sensitive to vibrations, and illuminate 140 times faster while lasting up to 20,000 hours, much longer than conventional incandescent bulbs. They emit less heat and use only 15% of the energy required by incandescent bulbs, reducing the load placed on a vehicle's electrical system. LED bulbs appear clear when unlit and emit a pure color when lit.

## Superwhite Bulb Set Produces 30% More Light

Superwhite headlight bulbs produce 30% more light while retaining the street legal wattage. Superwhite bulbs use a proprietary mixture of premium gases that includes Xenon, which cools the light filament, improving the efficiency and light output of the bulb, unlike standard halogen bulbs which use less efficient argon gas.

Superwhite bulbs operate in the Kelvin color temperature range of 4000-4200K, producing a brighter, white light. Traditional halogen bulbs operate at 2600-3000K, emitting a more yellowish appearance. Sold in sets of two. Call or go online and order yours today!

## Driving Light Set

## 38-1274

Driving lights provide a longer, more focused beam pattern for improved long-range vision. Features include reinforced steel housing with black finish and adjustable chrome mounting bracket with 10mm mounting stud; and state-of-the-art reflector which gives maximum light output from a 4-1/2" diameter light. Lights are complete with illuminated push button switch, 12-volt relay, all necessary wiring, mounting hardware, protective lens covers and high efficiency halogen 12V 55W replaceable bulbs.

For added style, replace the white halogen bulb with a halogen blue-coated bulb. The blue-coated bulb creates an intense white light which gives the cool look of HID (high intensity discharge) lighting without the high price.

## LED Tail Light Set - Stepside

1972-85 Dodge Truck

New technology previously only on high-end luxury cars is now available for trucks! These tail lights quickly alert other drivers of your intentions with LED bulbs that illuminate 140 times faster than conventional incandescent bulbs, which translates to a gain of 20+ feet of reaction distance.

Replacement style tail lights require cutting and splicing wiring for installation.

### Additional LED benefits:

LED lights have no filament, which means they are less sensitive to vibrations, and they can last up to 20,000 hours. They use only 15% of the energy required by incandescent bulbs, reducing the load on the truck's charging system, and less heat is emitted. An Electronic Flasher is recommended when upgrading to LED bulbs or light assemblies. Due to the lower current draw of LED lighting, the factory flasher may cause inconsistent flash rates, no flash or indicate that a bulb is out.

## Underhood Lamp

Underhood Lamp adapts to any 12 volt truck and helps illuminate the engine bay. No need for wiring into a switch, bulb socket base is gravity activated; lamp comes on when hood is raised and goes out when hood is lowered. Mount underneath hood and connect lamp wire to any constant 12 volt source. Moisture proof in-line fuse is integrated into the wire for protection.

Installation Tip: Since all hoods and mounting locations are different, a slight adjustment to mounting bracket may be needed to assure light goes out when hood is closed. After mounting bracket and wires have been installed, apply pressure to the mounting bracket to change the angle as needed for proper operation.

### What You Need to Know Before Ordering:

We are excited that you've decided to make us a part of your journey! Whether you are rebuilding from the ground up or just adding some distinctive touches to your vehicle, we are proud to give you a hand.

In addition, we'd love to see what you've been up to with your projects, so please log on to [lmctrucklife.com](http://lmctrucklife.com) and share your stories and pictures.

Understand that we are not trained automotive technicians. We want you to consult with mechanics regarding technical advice. Technical information is also included in the workshop manuals shown in this catalog. Please take the time to consult these resources if you feel you need to.

On those occasions that we've run out of a part on your order, chances are that it's already on its way to us. These items are listed as backordered on your invoice and will be sent your way as soon as possible. If you're not interested in waiting for your backordered product, just call our customer service line at (800) 222-5664, and we will cancel it and refund any money that has been paid.

You can also write "No Backorders" on your order form before you send it to us, and we'll make sure only to ship the products we currently have in stock.

Some parts have extra charges. Please consult below to make sure you understand these charges and so you aren't surprised later.

#### Part Number Definitions

- T -** After a part number means that part must be shipped Truck Freight. An additional \$150.00 will be charged to your order for delivery in the 48 contiguous United States. Orders outside of the 48 states will be quoted. Additional delivery time required..
- \* -** After the sell price means Oversize Part Charge. Your order will incur a charge of \$20.00 for each oversized part. Due to packing and/or transportation requirements, please allow additional time for delivery. Oversized Parts are not available for air delivery.
- \*\* -** After the sell price means Oversize Part Charge. Your order will incur a charge of \$50.00 for each oversized part. Due to packing and/or transportation requirements, please allow additional time for delivery. Oversized Parts are not available for air delivery
- R -** After a part number means Remanufactured Part. No core charge.

And one more thing, the part our lawyers make us say: We reserve the right to refuse service or shipment to anyone. We reserve the right to collect a service charge of \$20 for a returned check and to hold any shipments until the fee is collected.

Thank you for your support. Best of luck with all your projects!

### What You Need to Know Before Returning:

If only we lived in a perfect world! Unfortunately, we don't, and things can go wrong. When that happens, we do our best to try to make things right again. But we need your help as well.

All returns must be in like new condition and in the original packaging. Please include a copy of your invoice, as that will make the process quick and easy.

We refund your payment the same way you paid. Refunds of less than \$1 will not be made except by customer request.

We can't be responsible for damages, so please package your returned items carefully.

If you can ship the item back to us ground or USPS within the 48 contiguous United States, you don't need to call for authorization. Just send it to us at:

**15450 W. 108th St. Lenexa, KS 66219**

If we shipped you the wrong item, send it back, and we'll send the right item and reimburse you the ground rate for your return.

We can't accept anything that has been installed (unsuccessful attempts do count), disassembled, drilled, welded, cut, painted, or modified in any way, so please make sure to check and doublecheck the fit before starting any work.

If you are returning a kit, it needs to contain all the parts you received. No partial kits may be returned.

Electronic media (CDs, DVDs) cannot be refunded once they are opened. However, if it is not working properly, it can be exchanged for the same part number.

Please call our customer service line for a return authorization if your part was delivered outside of the 48 contiguous United States.

If you want to return something you bought over a year ago, please call our customer service line for return authorization.

You must call Customer Service when returning a Truck Freight item.

**Customer Service Line: (800) 222-5664**

**¿Habla Español? (855) 456-2288**

A 20% non-refundable restocking fee will be added to anything that's over a year old (unless the extended manufacturer warranty is still in effect, of course) as well as to any unauthorized Truck Freight returns.

And the legal part again: We have the right to refuse any return we deem unfit for resale. We also have the right to refuse any shipments where the shipping charges, duties, customs, etc., are not prepaid.

This chart shows shipping charges on orders up to \$500. Parts must be 108 inches or less and weigh 70 pounds or less to qualify. If any part does not meet these qualifications, your order will be delivered by ground for additional charges.

All orders will ship complete. Any additional delivery charges will be added to your total as needed, including Oversize Part charges or overweight charges.

We will need a daytime phone number with your order. If there is a problem with your order, we will attempt to contact you three times. If we are unsuccessful, your order will be cancelled 5 days after that third failed attempt.

### What You Need to Know When Shipping Problems Occur

Please open your package(s) as soon as possible and make certain that everything is accounted for and nothing was damaged in shipment. Damaged shipments are the responsibility of the carrier and must be reported to the carrier within 15 days of receipt.

If the package looks damaged when it arrives, open it with the delivery person present, so that they can make an immediate report of damages and discrepancies. If the damage is not obvious at the time of delivery, or if the package was left for you by the shipping company, contact their customer service as soon as possible to make your claim.

On Truck Freight shipments, it is your responsibility to check your order and have the driver note any damage on the freight bill before you sign for your item(s).

Please keep all packing, packaging and contents until your claim has been settled with the shipping company.

### What You Need to Know About Shipping Internationally

All international orders ship complete. Shipping charges must be prepaid in U.S. funds. Brokerage, duties, taxes, and fees associated with the order are paid by the customer. We do not accept personal checks on international orders.

## My Summer Fun Partner for 5 Years

*Laurent Deneux and His 1980 Dodge D150*

For me, who comes from France and who lives in Canada, it was my American dream to own an antique truck with huge dimensions for a European. This 1980 Dodge Adventurer has been my summer fun partner for 5 years now. I gave it a new identity with its vinyl wood panels, a lot of new parts, and a lot of TLC since its acquisition.

My son Enzo told me, "Dad, never sell it. I want it as an inheritance!" I will be very happy to entrust him with this superb time machine!

Thanks, LMC Truck.

## Dakota Digital VHX Gauge Clusters

1981-93 Dodge Truck  
1981-93 Dodge Ramcharger

56-8960

PART	DESCRIPTION	APPLICATION	REQD	PRICE
56-8960	GAUGE CLUSTER-VHX-BLACK	DODGE 81-93	(1)	\$850.25

56-8961

PART	DESCRIPTION	APPLICATION	REQD	PRICE
56-8961	GAUGE CLUSTER-VHX-SILVER	DODGE 81-93	(1)	\$850.25

VHX Gauge Clusters have the look of the stock instrumentation but the features and capabilities of a late model. Every effort has been put forth to incorporate OEM design elements regarding the layout, face styling and indicators. A casual glance may dismiss these as original equipment, but once you hit the switch and the LED backlighting comes on, all doubts will be removed.

The dual LCD message centers can be fully configured to display just about any piece of information needed like mph, gear selection, and mileage, plus incorporate expandability to mesh with late model and diesel drivetrain conversions. Gauges include speedometer, tachometer, oil pressure, water temperature, volts and fuel level and each analog gauge sweep (except speedometer) contains a red LED indicator for quick notice of a warning condition and features fully lit needles and backlit faces. Additional features include the micro-controlled precision stepper motors and solid-state sensors for unparalleled accuracy. Detailed installation instructions and operation manual included.

These are a drop-in replacement for 1981-93 Dodge Pickups and Ramchargers and require the stock instrument bezel for installation (not included).
