Holley Sniper 2 EFI is a self-tuning, easy-to-install Electronic Fuel Injection conversion for common 4-barrel (4150 flange) style carburetors. Make your classic truck drive like a modern fuel-injected vehicle, including easy cold starts, smooth drivability, and improved fuel economy!

If you're looking for a high-performance fuel injection system that delivers power, efficiency, and ease of use, look no further than the Sniper 2 EFI.

- Replaces 4-barrel (4150 flange) carburetors.
- Available in black or polished finishes.
- 4 wiring connections required: Battery+, Battery-, Switched Ignition, and RPM.
- Variety of tuning and gauge display interfaces: from a 3.5-inch full color LCD Handheld, 5-inch Digital Dash, or the Bluetooth dongle, which allows you to connect either an iOS or Android based cell phone to the Sniper 2.
- Inputs and outputs consist of: 2x Ground Inputs, 2x Ground Outputs, 1x TPS Output (0-5v), and 1x Tach Output.
- Onboard contactless magnetic TPS sensor ensures an accurate TPS reading.
- The included genuine Bosch LSU 4.9 wideband oxygen sensor provides real-time fuel map learning.
- Redesigned throttle shaft and plate geometry for a smoother throttle feel.
- Supports up to 650hp naturally aspirated or 575hp on boost with four 100 lb/hr injectors.
- Next generation ECU features improved RF noise and interference resistance.
- "Hidden Harness" wiring harnesses exits from the rear of throttle body for a clean appearance.
- Redesigned injector connector for improved reliability.
- Main harness includes plug-and-play HyperSpark distributor support, for integrated timing control, making your ignition setup hassle free.
- Included clamp-on oxygen sensor kit ensures a leak free oxygen sensor installation.
- Integrated transmission kick down provisions for GM TH350/400, 200-4R/700R4 and Ford C4/C6 applications.
- Calibration wizard only requires that you answer a few simple questions about your engine to create a base map and begin self-tuning – No laptop required.

I have a picture in my office. It was an aerial photograph taken in the '60s of the farm we lived on in rural Iowa. To be exact, RR1, Anamosa, IA, before every address had a house number and a private line telephone. We had a party line phone with 8 people on it, well, that is a whole letter to itself along with the Sears and Roebuck catalog, that had everything from toys to a house you could buy and build.

It was a thing back then, and still is now, that a plane flies over, takes a picture and then sells it to you. We aren't going to get into the right or wrong of that idea right now. Instead I am going to say I am grateful that day they flew over and my parents somehow had the money to buy that picture.

It hangs in my office alongside the serenity prayer. It is there to remind me of who I am and where I come from. That my mom and dad somehow raised 5 kids in a 2-bedroom house until Uncle Dewayne converted the garage to a bedroom for them in the late '60s. That you can exist without a shower and only a bathtub, that you got three TV stations if the rabbit ears were just right and wrapped in aluminum foil, and the only thing you were allowed to watch were Gunsmoke, Rawhide, and Wild Kingdom. Oh, and can't forget The Andy Williams Show. That Sunday morning was church and then grandma's fried chicken and gravy. My grandmother was younger then than I am now. I hadn't really thought about that until I started typing out this letter.

The picture is before my grandfather put the orchard in for them and the feed lot went in. It had to be the early '60s that this picture was taken. Before mom let me put in my own flower beds and I went into the woods and dug up what I wanted to plant and tried to graft or cross-pollinate. Before my mom and I had our first and only big fight over Vietnam. I was a pacifist and plant-loving, earth-loving girl, even back then, who drove her dad's old truck long before I was old enough because the sheriff would just know I was Harold's daughter.

I have been nostalgic lately. I think it is because I turn 69 in January and have outlived my parents and two of my brothers. My parents died young. My dad was only 58, so when you are older than your parents were when they died, your brain can overthink things.

At every level I know I have a great life, with two daughters with beautiful families, and I have been truly blessed. But deep in my heart I am still that young pacifist, plant-loving, earth-loving girl who just wants to garden and drive the old truck. The shorter, colder days were always my time to slow down and think about my next chapter, until COVID, and then it was just hurry and scramble and work. This year I am taking time off work to reflect and make decisions about my last chapter. I want to go into the woods, find the plants that only grow there, and try them in my wildflower garden. I want to drive the '72 Cheyenne into "town" with my grandsons to get ice cream. I will never leave LMC or sell it, but it is time for me to enjoy and spend more time with my grandchildren and daughters. Maybe only work 50 hours a week!

## If You Can't Find the Part You Need in this Catalog, Here's What You Should Do:

- Check local SALVAGE YARDS. Even if they do not have a truck like yours on hand, most salvage yards have access to a communication network which connects them to other salvage yards in your region of the country. Don't hesitate to ask them if you may use it.
- Check local BODY SHOPS and GARAGES for parts accumulations they may have built up over the years. You might get lucky!
- Check local WELDING and MACHINE SHOPS to see if they might be able to MAKE the part you need.

## Key Information 1980-96

- 1980:** Rather than softening the squarish styling of 1979 and earlier models, Ford's 1980 and newer full-sized Trucks and Broncos have an even crisper look, seen most prominently in the angled corner at the rear of the cab on the truck as well as a similarly angled opening at the rear of the doors. Taller side windows that dip below the base of the windshield as well as a taller windshield that now blends with the forward edge of the cab roof mark the remaining, most visible changes for Trucks and Broncos. The grille was revised and the parking lights were now recessed directly beneath the headlights. New wrap-around tail lights were used. Also new was twin beam independent front suspension, replacing the former rigid axle.
- 1981:** There were no exterior styling changes made on the 1981 Truck and Bronco. A premium sound system was introduced. Standard features included: vinyl sun visors, padded instrument panel, armrests and inside hood release.
- 1982:** The most noticeable styling change for the 1982 Truck and Bronco was the removal of the Ford name from the face of the hood. It was replaced by the Ford oval in the center of the revised, rectangular slots theme grille. Also new were lubed-for-life ball joints and adjustable camber.
- 1983:** Styling was carried over from the previous year. As a means of saving horsepower and fuel, F-Series trucks came with a viscous type fan clutch. It engaged the fan only as needed. Standard features for truck included chrome front bumpers and bright door mounted mirrors. In 1983, Ford regained its traditional first spot in sales from Chevrolet. Sales of the F-Series Pickups gave that model the number one sales rank among all cars sold in the U.S. Ford's F-Series models were simply America's most popular vehicle of any type. Bronco styling was carried over from the previous year.
- 1984:** The F150 was now Ford's base light-duty truck. Styling was carried over from last year. Among standard features were key-in-ignition warning buzzer and a parking brake engaged warning light. Standard Bronco features included: black front and rear bumpers; bright hubcaps and black scuff plates. Options included an underhood tool box.
- 1985:** Basic styling for Truck and Bronco was unchanged for 1985 although optional body side moldings now started below the front sidemarker lights. Standard features included Twin I-Beam independent front suspension (4x4s had Twin Traction-Beam independent front suspension). A new Bronco option included white styled steel wheels.
- 1986:** The F250 was only offered with the 8 foot Styleside box. Truck and Bronco convenience options included carpeted lower door panels with map pockets and a soft-wrapped steering wheel with wood-tone insert. The Eddie Bauer Bronco included two-tone paint, dual bodyside paint stripes, privacy glass, all-terrain raised white-letter tires and Eddie Bauer garment and equipment bags.
- 1987:** Ford introduced smoother more aerodynamic body styling. New aerodynamic impact resistant headlights with easy to install halogen bulbs replaced the old inset sealed beam style. The interior was also redesigned to a more streamlined appearance. Standard equipment now included rear wheel antilock braking system, power steering and power brakes. The 4.9L and 5.0L Engines now had Electronic Fuel Injection and serpentine drive belts. The F250 was given heavier duty front and rear suspension, and now included 16 inch 8 lug wheels for an increased GVW rating. The Eddie Bauer Trim package was offered for Bronco and a 4,000 lb chrome step bumper became standard.
- 1988:** Electronic Fuel Injection and serpentine drive belts became standard for all gas engines. The Flareside bed was dropped. Manual transmissions were now five speed and the heavy-duty 5 speed is now standard on the F250.
- 1989:** Basic styling was unchanged for 1989. The four speed manual transmission was brought back as an option.
- 1990:** An all new heavy-duty E4OD electronically controlled 4-speed automatic transmission was offered with the 5.8L engine and was later available with the 4.9L and 5.0L.

- 1991:** Basic styling was unchanged for 1991. An all black Night model was also offered for the F150 and Bronco with aluminum deep dish wheels and a handling package. In commemoration of 25 years of Ford sports utilities a Bronco silver anniversary model was offered.
- 1992:** A 75th anniversary F150 was offered. The Flareside was brought back on the short chassis only. The front and cab of the Truck and Bronco were restyled, most noticeably the grille. The grille was redesigned with park and turn signal lamps now fully under the headlights and wrapping around the side. Two vertical bars on the grille replaced the three bar style used since 1982.
- 1993:** The F150 Lightning was introduced mid year with a 240hp 5.8L engine. The Truck custom trim packages were dropped as the base model and replaced by the XL. For Bronco four wheel ABS became standard equipment, the Night model and the 4.9L engine were no longer available and the transfer case became the New Process 200.
- 1994:** Drivers side airbag on Truck and Bronco and side door guard beams on Truck were added as standard equipment. Stainless steel exhaust also became standard equipment. The XLT Bronco sport package was introduced with bright red exterior paint and body colored cab steps.
- 1995:** A new Eddie Bauer trim level was added to the F150. This was also the last year for the F150 Lightning series. Bronco changes were minimal.
- 1996:** No significant changes were made for the F-Series this year as Ford began tooling for the redesigned 1997 models. The last year of Bronco production offered no significant changes besides the new signal mirrors offered with the XLT and Eddie Bauer series.
- 1997:** Introduction of the 10th generation F-series truck. Ford began a three-year phasing out of the 9th generation by rebranding the F250 as the F250 Heavy Duty. This short-lived 1997-1999 F150-bodied F250 was essentially a light-duty F250 which used unique 7-hubs and shared its body with the new F150. It was a 'stop-gap' solution since the new Super Duty trucks, which used a more robust frame than the F150, wouldn't be ready for production until 1999. Ford sold this F250 version in 1997 and 1998, and then alongside the new Super Duty-bodied F250 in 1999. The F350 skipped the 1998 model year altogether.

### Steel Body Panels and What to Expect

All sheet metal is inspected before it is shipped and careful steps are taken to package parts so there is no damage during shipping. Due to the nature of the product, sheet metal is easily damaged and scratches, dents, dings and other imperfections are normal and not considered damaged. These kinds of imperfections should be expected and can be easily fixed during installation and the paint preparation, sanding and priming stages of your restoration. It is recommended you inspect all sheet metal that is delivered before the delivery driver leaves. Test fitting of all panels before installation is recommended and the use of alignment shims and other adjustments during the install may be required.

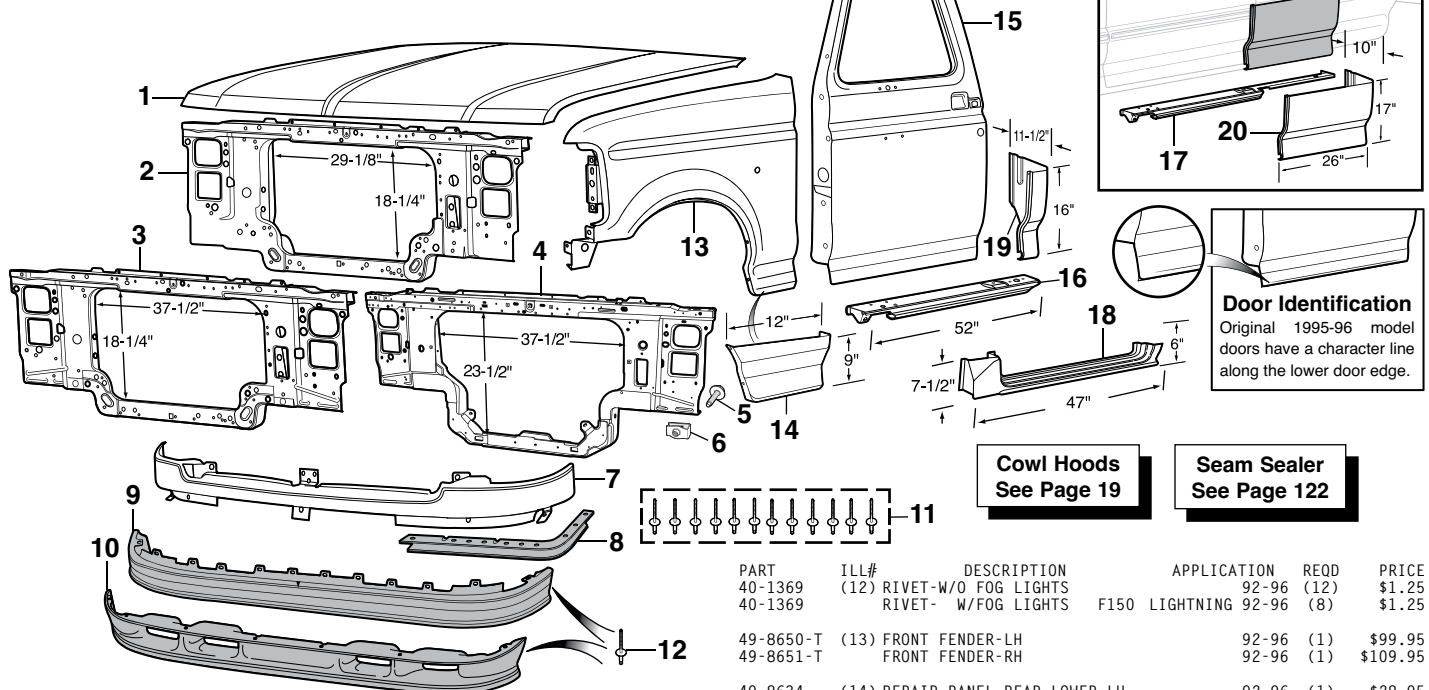

\* Or \*\* after the sell price means your order will incur an Oversize Part Charge for each oversized part. \* Means extra charge will be \$20. \*\* Means extra charge will be \$50. Due to packing and/or transportation requirements, please allow additional time for delivery. Oversized Parts are not available for air delivery.

## 7.3L Diesel Radiator Core Support

1992-96 F250 F350  
1997-98 F250 Heavy Duty  
1997-98 F350

**Diesel Core Support will also fit 1997-98 F250 over 8500 Lbs. GVW and 1992-98 F350 models.**

Now there is a replacement radiator core support for the 1992-96 Ford 7.3L diesel powered trucks.

This Core support was developed with an improved design and is made with new tooling to address the issues found with the factory core support:

- Thicker steel is used with additional recessed areas on upper section for added strength and durability.
- Fully welded lower seams prevent moisture and road sediment build up that can cause rust.
- Finished with an Electro Deposit Primer (EDP) coating to help protect from corrosion.
- All holes, weld-nuts and threaded studs are in place to allow installation of original parts. Includes pre-attached metal clips.

## POR-15 Restoration Products

**POR-15** is a high-performance rust preventative black paint designed to extend the life of new and rusted metal surfaces. It dries to a rock-hard, non-porous finish that will not rust, chip, crack or peel.

Dries in 2 to 5 hours; body fillers and paint can be applied over POR-15. For maximum effectiveness, degrease metal surfaces with Cleaner Degreaser, then prime with Metal-Prep.

Approximate product coverage:

1 pint = 48 sq. ft.; 1 quart = 96 sq. ft.

**Dry Time Accelerator** reduces the cure time of POR-15 by 30-50% without affecting the final physical properties of the paint. One 8 ounce bottle treats 64 pints or 32 quarts of POR-15.

PART	DESCRIPTION	PRICE
37-8411-F	POR-15 SEMI-GLOSS-1 PINT	\$43.95
37-8412-F	POR-15 SEMI-GLOSS-1 QUART	\$66.95
37-8408-F	POR-15 GLOSS-1 PINT	\$41.88
37-8409-F	POR-15 GLOSS-1 QUART	\$63.89
37-8418-F	DRY TIME ACCELERATOR	\$34.05

**High Temp Paint** is an extreme temperature finish that maintains color without burning off or discoloring on manifolds and headers. Withstands high temperatures up to 1,200°F and resists cracking, chipping and peeling. It is weather-, salt- and moisture-resistant. Available in gray or aluminum color; can be brushed or sprayed on. Recommend sandblasting for optimal surface preparation.

Approximate coverage: 8 oz. covers a set of big block V8 headers with two coats.

PART	DESCRIPTION	PRICE
37-8484-F	HIGH TEMP PAINT-GRAY 8 OZ	\$25.51
37-8485-F	HIGH TEMP PAINT-ALUM 8 OZ	\$25.51

**Metal-Prep** provides adhesion for POR-15 on any metal surface. Gently etches metal, neutralizes rust and creates an ideal anchor for coatings such as POR-15, while leaving a zinc phosphate finish to ensure chemical bonding of paint and steel. Metal-Prep must be used on galvanized metal, aluminum, stainless steel and smooth, polished or new metal surfaces prior to applying POR-15. Metal-Prep is water-based so it is not caustic, corrosive, toxic or flammable.

PART	DESCRIPTION	PRICE
37-8415-F	METAL-PREP 1 QUART	\$22.14
37-8416-F	METAL-PREP 1 GALLON	\$44.74

**Cleaner Degreaser** cleans and degreases in one application without messy residues, noxious fumes or flammable solvents. Removes grease, oil, mildew, algae, musty odors, soap films and wax from canvas, vinyl, plastics, nylon, wood, fiberglass and all metal surfaces.

Cleaner Degreaser should be used as a surface prep prior to using Metal-Prep and POR-15.

PART	DESCRIPTION	PRICE
37-8413-F	CLEANER DEGREASER 1 QUART	\$14.67
37-8414-F	CLEANER DEGREASER 1 GALLON	\$29.95

**POR-15 Self Etch Primer** is a quick drying and easy-to-apply coating which enables a restorer to quickly topcoat POR-15 Rust Preventive Coating and other basecoats. You can even topcoat POR-15 that's been in place for months or years. This Self Etch Primer is NOT a high-build primer, it can be sprayed on almost any painted surface and can be top coated in 15 - 30 minutes. It bonds incredibly well to POR-15 Rust Preventive Coating, and all topcoats bond incredibly well to POR-15 Self Etch Primer. It can be sanded lightly, and, if desired, multiple coats may be applied.

**POR-15 Top Coat** can be applied directly to a clean prepped metal surface, but when used as a top coat over POR-15 Rust Preventive Coating it provides the toughest, most permanent protection against rust and corrosion. It has exceptional long-term gloss and color retention when exposed to sunlight and the elements, non-porous, extremely scratch and chip resistant, won't crack, peel or chip. Can be applied directly to metal substrates, with no need for a primer or undercoat, and is formulated to form a robust barrier that sheds moisture.

**Chassis Black** has a semi-gloss appearance. For maximum durability Chassis Black should be clear coated.

**Bed Liner** is a water-based, rubberized coating ideal for protecting truck beds, and all other metal, aluminum, fiberglass and wood surfaces exposed to impacts and scuffs. It is UV stable and

offers superior adhesion, impact resistance and flexibility. Features a textured semi-gloss black finish for good looks. Prior to application, surfaces should be degreased with Cleaner Degreaser and metal surfaces should be treated with Metal-Prep. Bed Liner can be applied over POR-15.

Shortbed trucks - 1 gallon for two coats on bed floor, sides and tailgate. Longbed trucks need an additional quart.

Approximate product coverage:

1 quart = 25-30 sq. ft.; 1 gallon = 100-120 sq. ft.

PART	DESCRIPTION	PRICE
37-8480-F	BED LINER 1 QUART	\$37.94
37-8481-F	BED LINER 1 GALLON	\$142.96

**Fuel Tank Sealer** coats the inside of your tank to stop rust and seal pinholes and weld seams. It's a non-porous, flexible film that is resistant to all fuels, alcohols and fuel additives. This environmentally safe sealer does not contain the harmful chemical Methyl Ethyl Ketone (MEK) and is non-flammable. Cleaner Degreaser and Metal-Prep must be used to prep fuel tank prior to using fuel tank sealer.

Approximate product coverage:

1 pint = to 12.5 gal tank; 1 quart = to 25 gal tank

PART	DESCRIPTION	PRICE
37-8488-F	FUEL TANK SEALER 1 PINT	\$31.44
37-8489-F	FUEL TANK SEALER 1 QUART	\$54.60

**POR-15 Stop Rust Kit** is designed to stop and/or prevent rust on metal surfaces and ensures the best results when applying POR-15 Rust Preventive Coating. The kit contains everything you need for the 3-step process, 8 ounce bottle of POR-15 Cleaner Degreaser, 8 ounce bottle of POR-15 Metal-Prep, 4 ounce can of POR-15 Gloss Black, two paint brushes, 1 pair of latex gloves, and detailed instructions and tips. The kit is ideal for small projects such as sub-frames, axle replacements, control arms, brake shields and much more! There is enough material in this kit to cover a 6 sq. ft. area with two coats.

37-8405-F	STOP RUST KIT	\$27.84

## Steel Body Panels and What to Expect

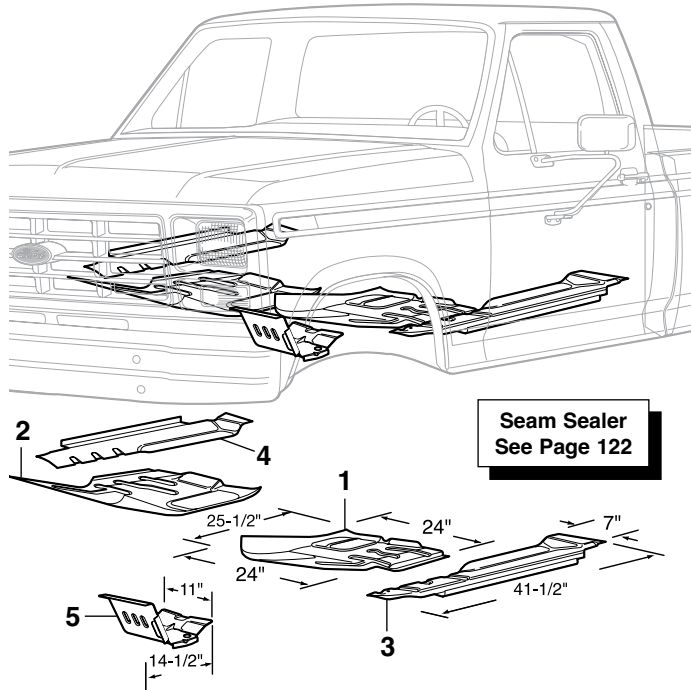

All sheet metal is inspected before it is shipped and careful steps are taken to package parts so there is no damage during shipping. Due to the nature of the product, sheet metal is easily damaged and scratches, dents, dings and other imperfections are normal and not considered damaged. These kinds of imperfections should be expected and can be easily fixed during installation and the paint preparation, sanding and priming stages of your restoration. It is recommended you inspect all sheet metal that is delivered before the delivery driver leaves. Test fitting of all panels before installation is recommended and the use of alignment shims and other adjustments during the install may be required.

\* Or \*\* after the sell price means your order will incur an Oversize Part Charge for each oversized part. \* Means extra charge will be \$20. \*\* Means extra charge will be \$50. Due to packing and/or transportation requirements, please allow additional time for delivery. Oversized Parts are not available for air delivery.

## Hood Lift System

1992-97 F150 F250 F350 Bronco

**Hood Lift System** replaces those unsightly hood springs or prop-rods with modern gas struts made specifically for your truck. Each system features black e-coated struts and black powder-coated hardware. They are backed by a 4-year warranty.

**Elite Hood Lift System** features all the above but uses 316L Stainless Steel gas struts and comes with a 5-year warranty.

All necessary brackets, hardware and full-color installation instructions are included.

## ABS Hood Insulation Kits

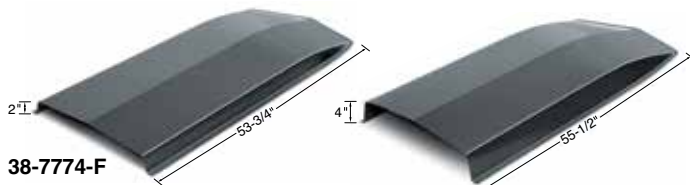

Heat-resistant textured ABS Hood Insulation Kit covers up the underside of your hood. Each kit includes pre-cut foil-backed insulation material, 14 oz. spray adhesive, 1 roll of aluminum tape, center punch, drill sleeve, mounting hardware and illustrated instructions. Drilling may be required on models not originally equipped with hood insulation.

## Cowl Induction Steel Hoods ... Give Your Truck a High Performance Look

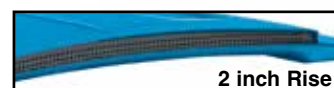

Cowl Induction Steel Hood helps cool the engine for increased airflow and increased performance. The outside cold fresh air carries a denser air/fuel mixture to an engine's combustion chambers than the warm underhood air.

Hoods are made from primed high-quality steel with full inner frame that reuses original factory latch and hinges for an easy bolt-on application and must be painted.

## Steel Body Panels and What to Expect

All sheet metal is inspected before it is shipped and careful steps are taken to package parts so there is no damage during shipping. Due to the nature of the product, sheet metal is easily damaged and scratches, dents, dings and other imperfections are normal and not considered damaged. These kinds of imperfections should be expected and can be easily fixed during installation and the paint preparation, sanding and priming stages of your restoration. It is recommended you inspect all sheet metal that is delivered before the delivery driver leaves. Test fitting of all panels before installation is recommended and the use of alignment shims and other adjustments during the install may be required.

\* Or \*\* after the sell price means your order will incur an Oversize Part Charge for each oversized part. \* Means extra charge will be \$20. \*\* Means extra charge will be \$50. Due to packing and/or transportation requirements, please allow additional time for delivery. Oversized Parts are not available for air delivery.

## LMC Truck Cover ... Who Knew Protecting Your Vehicle's Finish Could Be So Inexpensive!

LMC universal fit truck covers provide protection from the elements and are not affected by temperature extremes. In summer a cover keeps the interior cooler and helps protect from the sun's damaging rays, which can cause fading and deterioration. In winter it can keep the snow and ice off your glass and finish.

Fabric will not stretch, shrink, rot or mildew. Elastic is sewn in front and rear hems to ensure snug fit. Call or go online and order your truck cover today.

Antenna must be removed or an antenna grommet attached to your cover before use. See below for more information on antenna grommet.

## Windshield and Rear Window Installation Tips:

1. Fit your new window rubber to your cab first, then install the window glass.
2. Use a rubber friendly lubricant such as WD40 and the Windshield Stick (#38-0796-F) to ease installation and avoid damaging your window rubber.
3. Window rubber shrinks; your new window rubber may appear slightly larger than the original prior to installation.

**TINTED** Window has a full light green tint to glass.

**SHADED** Window has a full light green tint with a dark band at the top of glass.

**Windshield Stick** A glass installer's most useful tool! Can be used to install or remove windows or window rubber. This plastic tool measures 8" in length for an easy grip.

**38-0796-F**

**Windshield and Glass Sealant** is silicone and seals windshields, windows, sunroofs and more. Flows into leaks like water but dries to form a flexible, tough, clear seal resistant to extreme temperatures, vibration, shock and most chemicals.

## Off Road Light

38-1272-F

Off Road Light has a four layer nickel chrome finish and features a spot beam pattern using a powerful 100 watt halogen bulb to provide extra light. The light measures 6.3" in diameter, 4.9" deep and has a 7/16" mounting stud with rubber mounting bracket and reinforced steel housing. Light is sold each.

Order #38-1275-F Wiring Harness for a quick and easy installation.

PART	DESCRIPTION	PRICE
38-1272-F	LIGHT-CHROME 100W	\$24.95
36-0287-F	HALOGEN BULB-100W	\$4.45
38-1275-F	WIRING HARNESS	\$25.95

## Driving Light Set

38-1274-F

Driving lights provide a longer, more focused beam pattern for improved long-range vision. Features include reinforced steel housing with black finish and adjustable chrome mounting bracket with 10mm mounting stud; and state-of-the-art reflector which gives maximum light output from a 4-1/2" diameter light. Lights are complete with illuminated push button switch, 12-volt relay, all necessary wiring, mounting hardware, protective lens covers and high efficiency halogen 12V 55W replaceable bulbs.

For added style, replace the white halogen bulb with a halogen blue-coated bulb. The blue-coated bulb creates an intense white light which gives the cool look of HID (high intensity discharge) lighting without the high price.

Chrome Rear Step Bumpers give your truck the ability to tow up to 800 pounds tongue weight and 8,000 pounds trailer weight. These bumpers offer the ease of bolt-on installation, the convenience of a step and come complete with rear license plate lamps.

Do not exceed truck manufacturer's recommended towing capacity. Bumper Mounting Kit #30-2098-F or #40-2052 is required when installing these rear bumpers.

**Chrome Rear Step Bumper - Diamond Tread**

This traditional utility bumper features a classic embossed steel top plate on a stylish and reliable step bumper.

**Chrome Rear Step Bumper - Polymer Pad**

Classic style rear step bumper features a step pad made from molded polymer to protect the bumper from scratches. The grid pattern adds an excellent anti-skid surface for sure footing while loading and unloading.

**Replacement Backup Light**

Lights can be easily spliced into the existing backup light wires so they will come on each time you shift into reverse. The additional light is excellent for hooking up trailers or boats in the dark since they are located closer to the hitch area.

36-4416-F

However, in some cases factory wiring may not transfer enough power to properly illuminate the lights. For full illumination install a Backup Light Wiring Kit (sold separately #36-0735-F).

## Flexy-Flares™ ... To Cover Those Wide Tires

Flexy-Flares™ provide protection from mud, dirt, gravel and salt and are a necessity in many states where wide tires must be covered by a fender. Constructed from EDPM synthetic rubber, they won't crack, peel or droop in extreme temperatures. These heavy-duty flares use a wire insert on outer edge for extra strength and added rigidity, and the built-in curvature allows the flare to fit the fenderwell without wrinkles or buckling. Flexy-Flares™ extend your fenders 3" and come with hardware packs for easy installation. **Set of 4**

## Aluminum Running Boards Give You a Step Up

Extruded Aluminum Running Boards feature rugged extruded aluminum finished with a brite-dip anodized coating for durability. Rough tape runs the entire length of the boards for secure stepping all year round.

Diamond Tread Running Boards are constructed of thick gauge aluminum for strength and the diamond tread provides traction for secure stepping in all kinds of weather.

Full-size stone guards protect the Diamond Tread and Extruded Running Boards from road debris. Mounting brackets are made from heavy-duty steel for added strength.

## Door Panel Sets

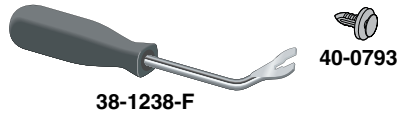

1980-86 F100 F150 F250 F350

1980-86 Bronco

You can reuse your existing armrest or purchase new ones, see page 57.

Replacement Door Panel Sets are plastic injection formed as original and made from new tooling for a precise fit. Door Panels feature a precut hole for the manual window crank handle that can be enlarged using the pre-marked template on the back of the door panel for a power window switch. Door panels are also marked for door lock control and trim locations so you can customize the panel to match your truck's original options.

Door panels are painted with an ultraviolet inhibitor to help prevent damage from exposure to sunlight. Door Panel Sets include pre-attached window weatherstrips and all necessary mounting hardware.

49-5952  
Complete Floor Mat Set

**Installation Tip:** Allow mats to lay unfolded for 48 hours at room temperature of 72° or more to help remove creases caused by packing. Test fit prior to making any permanent installations (some trimming may be necessary).

Heavy-duty Molded Industrial Polyvinyl (MIP) Floor Mats are made of 1/8" thick industrial Polyvinyl and are resistant to moisture and temperature; therefore, they will not dry rot or crack and last longer than rubber. They are vacuum molded from the original floor pan to cover the entire floor, making installation easy.

Mats are easy to clean and protect your interior from water, snow, mud and most chemicals. The MIP Floor Mat includes pre-cut 36 ounce jute padding under the front passenger area to provide a higher level of insulation against heat, cold and road noise.

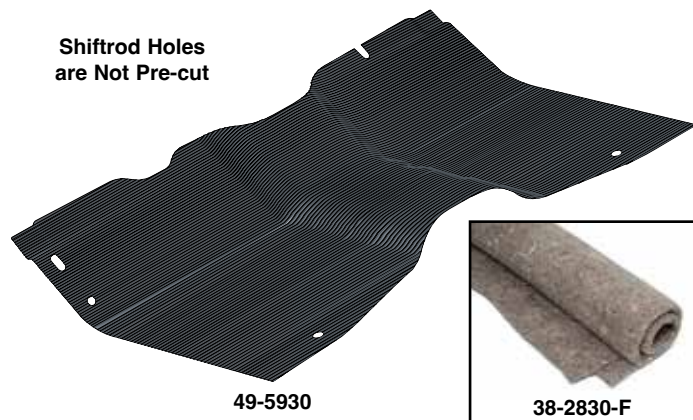

Complete set includes MIP floor mat for the passenger area, cargo area and two wheel wells. Passenger area MIP floor mat covers the floor from the firewall to just behind the rear of the front seat. Cargo area includes MIP floor mat for rear cargo area and two wheel wells.

## EVA Sound Deadener and Heat Shield Kits

**Installation Tip:** To reach the maximum level of sound dampening and insulation, use Multi-Purpose Insulation #38-2829-F to cover any areas not protected by the EVA Sound Deadener and Heat Shield Kits. Use #38-0798-F Spray Adhesive, #42-0759 Weatherstrip Adhesive and #38-0716-F Aluminum Tape to install sound deadener, heat shield and insulation.

### EVA Sound Deadener Kit 49-2962

The EVA Sound Deadener Kit is die cut for easy installation. Made from OE type, 1/16" thick Ethyl Vinyl Acetate (EVA) which is asphalt based material for sound dampening. Applies directly to the cab floor. Reduces road noise and cab harmonics to give you a quieter ride and also helps to insulate against heat and cold. To further insulate against heat and cold, use in combination with the Heat Shield Kits.

## Sound Control Mat

**Sound Control Mat** reduces noise, vibration and heat created from the engine, road and structure of your vehicle. Can be applied to any interior surface area; cover as little as 25% of an area for a noticeable reduction. Each 2mm thick sheet consists of butyl rubber with a top layer of heat resistant aluminum that is easy to cut and conform to contoured surfaces, just peel and stick. Available in silver and black, each sheet measures 21" x 29".

**3-in-1 Sound Control Mat** combines the vibration absorption and heat resistant capabilities of the 2mm thick Sound Control Mat with an additional 5mm thick layer of foam for more efficient sound deadening. This makes it our most effective product for eliminating road noise and vibrations in your truck. Each sheet is 7mm thick and measures 19" x 31".

## Pre-Cut Insulation Kit

1980-96 F100 F150 F250 F350

1980-86 Bronco

Reduce noise and heat transfer inside your truck with a Pre-Cut Insulation Kit. Each panel has been cut to fit a specific location and a self-adhesive backing allows for fast and easy installation. Lightweight panels are foil over foam that vary between 2mm and 5mm thick. Pre-cut kits include thermal acoustic panels for the floor, doors, roof, cab wall (Trucks) and cargo area (Broncos). A 2" wide roller, sold separately, helps ensure full adhesion.

## Molded Carpet ... Fits and Looks Like Original

1980-96 F100 F150 F250 F350

Cut pile carpet is a pre-molded shape that fits and looks like original. It's made from 100% nylon. The heavy 36 ounce jute padding under the front passenger area helps insulate against heat and reduces road noise.

Color coordinated original style heel pad is attached and an easy-to-install dimmer switch grommet is also included. The color coordinated vinyl binding helps prevent fraying and adds the finishing touch.

**IMPORTANT:** Before choosing a floor covering, check the floor pan configuration of your vehicle. Was your vehicle originally equipped with an Automatic (Low Hump) or Manual (High Hump) transmission? Selecting the correct floor pan configuration is an important part of ensuring that your floor covering fits properly.

## Now You Can Be Sure All Your Interior Colors Match

ColorBond permanently changes the color of your interior. Sprays on and dries to the touch in 45 seconds, forming a complete bond in 10 minutes. Original grain pattern is never altered or hidden, no matter how many times ColorBond is applied. Will not crack, flake, peel or rub off from solid or flexible materials because the color becomes part of the surface.

**\$20.95**  
each

### ColorBond can be used on:

- Vinyl
- Leather
- ABS Plastic
- PVC
- Polyurethane
- Polycarbonate
- Lexan
- Acrylic
- Recycled Plastics
- Carpet
- Cloth Upholstery

ColorBond is a semi-gloss finish that is OEM approved, UV stable and colorfast. Each 12 ounce can will cover 7 square feet. ColorBond Prep/Cleaner should be used prior to applying ColorBond.

**37-8396-F** ColorBond Satin Clear Coat provides a protective finish 12 oz Can \$20.95 that won't wash off. Protects against fading, cracking and heat deterioration.

**37-8395-F** ColorBond Adhesion Promoter is required for the 12 oz Can \$20.95 use of ColorBond on materials such as Polypropylene, Thermoplastic Elastomer, Polyolefin, Fiberglass and metal.

## Black Underhood Paint

Before

After

**37-8367-F**  
Black  
\$19.95

**Black Underhood Paint's** specially formulated acrylic lacquer restores the finish of brackets, core supports, heater boxes and all underhood components. Withstands temperatures up to 250°F but is not designed to be applied to engine, manifolds or headers. 12 ounce can covers 6 square feet. Call or go online and order yours today!

## Prep/Cleaner

**37-8399-F**  
12 oz Can  
\$13.95

**ColorBond Prep/Cleaner** is a fast drying, non-solvent, multi-surface cleaner. It cleans and prepares the surface for use of ColorBond.

## Exterior Trim Paint

**37-8361-F**  
Satin Black  
\$21.45

**37-8362-F**  
Silver  
\$21.45

**ColorBond Exterior Trim Paint** has all the innovative features of ColorBond Interior Paint but is specially formulated to provide a stronger, more durable bond for exterior trim use. Exterior Trim Paint delivers a superior finish to exterior trim plastics and painted metal trim including: bumpers, mirrors, fender flares, wiper arms and window trim. ## Spitshine Tire Black and Silver Rally Wheel Paint ... Bring Back the Shine

**37-8370-F**  
Colorbond  
Spitshine  
Tire Black  
\$21.45

**ColorBond Spitshine Tire Black** is a specially formulated paint, not a clear silicone dressing, designed to restore a military shine to faded and scuffed tires for a minimum of two months. Spitshine is not greasy or tacky, so it won't attract unsightly dirt and dust. Each 12 ounce can is easy to apply; first, clean tires of any existing dressings, silicones and dirt with ColorBond Prep/Cleaner. Mask the wheel or rim and apply in light coats. Reapply Spitshine Tire Black if tires become scuffed.

*Not for use on tires with white lettering or sidewalls.*

**37-8365-F**  
Rally Wheel  
Paint-Silver  
\$19.95

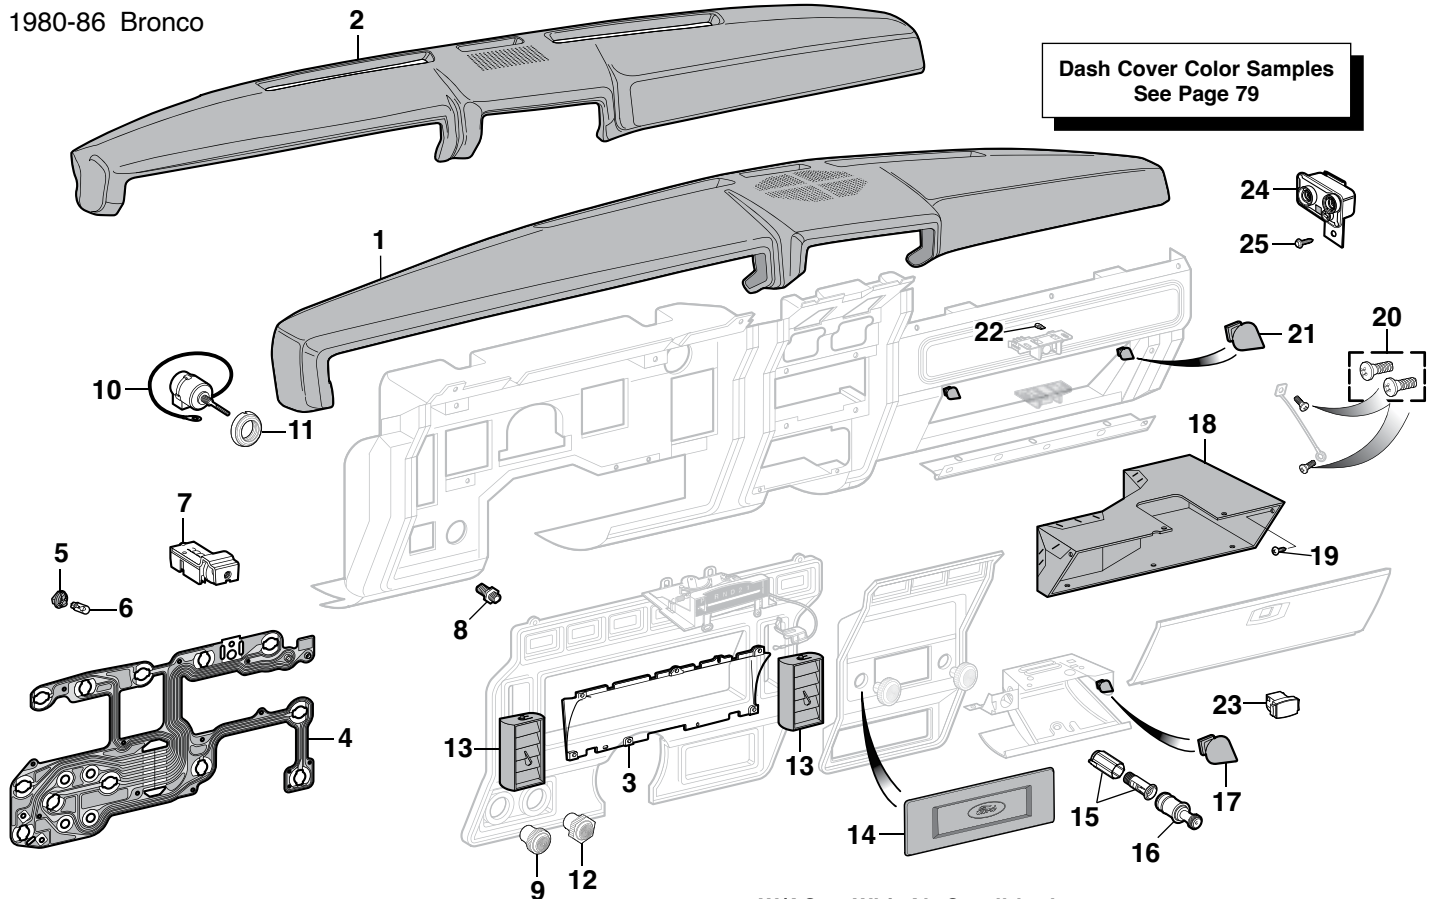

**ColorBond Rally Wheel Paint** is a specially formulated acrylic lacquer that provides a brilliant silver finish to the original rally wheels and withstands temperatures up to 250°F. Each 12 ounce can covers 6 square feet. ColorBond Prep/Cleaner should be used prior to applying ColorBond.

## NEW Odometer Worm Gear

1985-96 F150 F250 F350

If your truck's speedometer still works but the odometer has quit, it can usually be traced to a worn or broken Odometer Worm Gear. Save the expense of replacing the entire speedometer head when you only need the odometer gear. This replacement odometer worm gear is designed to match the fit and function of the original gear to give you years of dependable service.

## Dakota Digital VHX Gauge Clusters

VHX Gauge Clusters have the look of the stock instrumentation but the features and capabilities of a late model. Every effort has been put forth to incorporate OEM design elements regarding the layout, face styling and indicators. A casual glance may dismiss these as original equipment, but once you hit the switch and the LED backlighting comes on, all doubts will be removed.

The dual LCD message centers can be fully configured to display just about any piece of information needed like mph, gear selection, and mileage, plus incorporate expandability to mesh with late model and diesel drivetrain conversions. Gauges include speedometer, tachometer, oil pressure, water temperature, volts and fuel level and each analog gauge sweep (except speedometer) contains a red LED indicator for quick notice of a warning condition and features fully-lit needles and backlit faces. Additional features include the

micro-controlled precision stepper motors and solid-state sensors for unparalleled accuracy. Detailed installation instructions and operation manual included.

These are a drop in replacement for 1980-91 Ford pickups and Broncos and require the stock instrument bezel for installation (not included).

The upper indicator strip featured on the 1980-86 clusters has been updated with LEDs as well.

## Gauge Clusters - New Vintage USA

Period-styled and themed gauges for your truck. New Vintage USA gauge clusters easily interface with original engines as well as high-tech late-model engines, ignition systems, PCMs and speed sensors including GPS. High-tech mini-OLED displays give additional information with easy to read menus, set-up and programming features. Gauges have built-in performance timers, speed warnings and shift alert. Accepts additional auxiliary inputs without requiring separate modules. All parts are direct fit designs that fit the stock gauge mounting locations without any cutting or modification required. Made in Detroit, Michigan and backed by a 5-year warranty.

### Each gauge cluster contains:

- Programmable speedometer (0-140 mph) with trip meter, hour meter and standard odometer.
- Tachometer (0-8,000 rpm for gas and 0-4,000 rpm for diesel), fuel level, oil pressure, and coolant temperature.
- Voltmeter gauge for '80-'86 and '87-'91 gauge clusters. (The voltmeter functions for the '92-'96 instrument clusters are displayed on one of the two OLED displays.)
- Sending units for oil pressure and coolant temperature.
- LED indicators for turn signals, check engine, high beam and a warning lamp. Glow plug indicator included on diesel tachometers.
- Easy-to-follow, detailed installation instructions are included.

Highliner uses four built-in, uniquely placed speakers which guarantee true stereo separation as well as less distortion and ensures clarity at lower volume levels by neutralizing the echo effect found in most pickups. Radio console is designed to accept optional aftermarket stereo cassette players, CD players or CB radios.

Highliner is manufactured from high-impact, leather-grained, black ABS plastic and can be painted to match the color of the interior. It installs easily and includes four 4" air suspension speakers with a 5.8 ounce magnet, which handles up to 10 watts of power. Features high-temperature resistant voice coils and comes with foam speaker baffle and suppression pads, antenna extension cable, bezel plate, installation hardware and instructions.

## ABS Plastic Headliners ... The Long-Term Solution to Sagging Headliners

1987-96 F150 F250 F350

1980-96 Bronco

The original headliners are made of pressed foam board. Over time the headlining material separates from the foam board and falls down with the foam board usually deteriorated beyond repair. These ABS plastic-backed headliners are a simple, cost-effective, long-term solution to this problem.

## RetroSound Radios ... Original Looks with Modern Features

1985-86 F150 F250 F350

1985-86 Bronco

Dallas Radio Face

Ford Official Licensed Product is purchased from an authorized Ford Licensee.

The RetroSound® Dallas Radios are an officially-licensed Ford Radio Face designed to replicate the original factory radio in your 1985-86 Ford Truck or Bronco. Dallas's subtle and straightforward design features replica black plastic knobs, rounded push-buttons, and a thin seek bar, finished in matte black with the official Ford logo for added authenticity.

The Dallas Radio mounts directly into the factory opening in your 1985-86 Ford F-Series Truck with the included mounting kit and vehicle-specific wiring harness for an easy installation and OEM appearance. The Dallas's retro appearance looks period-correct in your dash and adds all the modern technology you'd expect in a modern car stereo.

The Dallas is available with your choice of 3 different feature sets.

## NotchHead Line Clamps

30-1736-F

30-1731-F

NotchHead Line Clamps organize both hard and soft lines and clamp them in place to keep from being chafed on sharp edges or crushed under moving components. Easily secure lines without marring paint. Can also be used as separators for running hoses in parallel by bolting two line clamps together. Flexible lines easily snap in for quick installation and mock-ups. Mounting hardware included in each kit.

## Fuel Pump Control Module

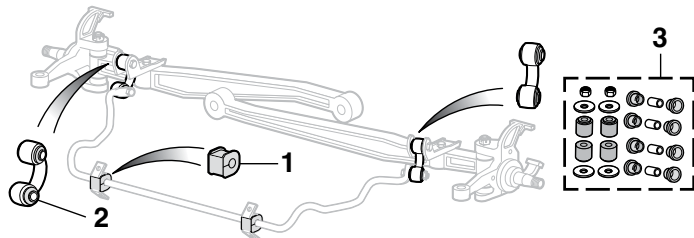

Updating your truck to an electric fuel pump? Wiring the pump to an on-off switch or to a simple ignition switched source isn't the best idea. If an accident occurs, your pump would run as long as the switch is active. With the Fuel Pump Control Module, when the key is turned, the fuel pump turns on to prime the system in a three-second cycle, just like modern vehicles. Then the module uses the tach signal so the pump only runs when engine is running, giving you quicker start-ups and improved operating safety.

## Rear Suspension - 2 Wheel Drive

## GR-2 Gas Shock Absorbers

The KYB GR-2 Shock Absorbers give you a satin ride at an economical price. They feature lower pressure for riding comfort, along with improved handling and response only gas shocks can provide. The GR-2 Gas Shock Absorber is the economical way to step up from hydraulic shocks to the quality ride and control of gas.

## Gas-A-Just Shock Absorbers

You can depend on Gas-A-Just for unsurpassed control. KYB Gas-A-Just Shocks are America's best selling monotube gas shocks. They feature higher gas pressure to keep your truck's tires glued to the road surface. They provide unsurpassed control on even the most demanding roads. Monotube design and high pressure eliminate the age old problem of performance fade by eliminating aeration and foaming, a problem with other shocks that use two-tube construction that allows air to mix with fluid.

## Rear Suspension - 2 Wheel Drive

## Performance Polyurethane Bushing Set - 4 Wheel Drive

1980-96 F150

Performance Polyurethane Bushing Sets include the following:

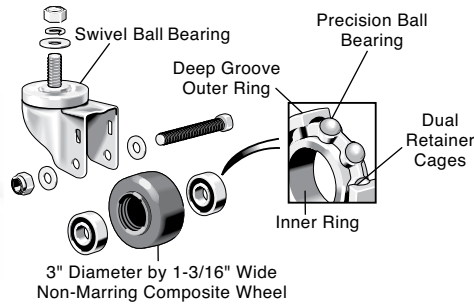

- Radius Arm Bushings allow your suspension to travel throughout its full range without binding, yet are firm enough to maintain proper alignment.
- The combination of heavy-duty Leaf Springs and Polyurethane Spring Bushings allows the rest of your suspension to function properly and give you that positive feeling on take off, cornering, braking and bumps.
- Cab Mounts are soft, yet rugged with a steel ring molded into the end for durability.

The F150 1980-96 Polyurethane Bushing Set includes ...

Radius Arm Bushings, Axle Pivot Bushings, Rear Spring and Shackle Bushings, Body Mounts and Tie Rod End Boots.

PART	DESCRIPTION	APPLICATION	REQD	PRICE
49-4586	3" BODY LIFT KIT "A"	F-SERIES 80-86	(1)	\$170.00
49-4587	3" BODY LIFT KIT "B"C"	F-SERIES 87-91	(1)	\$170.00
49-4588	3" BODY LIFT KIT "B"C"D"E"	F-SERIES 92-96	(1)	\$181.00

Note: "A" Will not fit 2 wheel drive models with steering box behind axle (close to firewall).  
 "B" Body mount bushings must be drilled out to accept larger bolts.  
 "C" Will not fit trucks with 6 cylinder or diesel engine.  
 "D" Front bumper brackets are included; requires frame modification.  
 "E" Includes steering shaft extension.

A Body Lift spaces the body away from the frame to make room for larger tires without altering the suspension. Body Lift Kit includes reinforced nylon spacers, compression tested to 50,000 psi and plated grade 5 hardware. Since the stock suspension is not affected, and larger tires are normally part of the plan, new shocks are recommended.

PART	DESCRIPTION	APPLICATION	REQD	PRICE
49-4613	3" BODY LIFT KIT	BRONCO 80-86	(1)	\$152.00
49-4615	3" BODY LIFT KIT "B"C"D"E"	BRONCO 92-96	(1)	\$192.00

**Read This:** Installation of a body lift will change the center of gravity and the handling characteristics of the vehicle. Because of the higher center of gravity and larger tires, the vehicle will handle and react differently both on and off road. You must drive it safely! Extreme care must be taken to prevent vehicle rollover or loss of control, which could result in serious injury or death. Avoid sudden sharp turns or abrupt maneuvers and always make sure all vehicle occupants have their seat belts fastened.

## Performance Sway Bars Give You Bolt-On Handling and Control ... Drive Faster Through Turns with Improved Traction

48-2223

% Increase in Resistance

Sway Bar	1"	319%	171%
Stock Bar	3/4"	7/8"	

Improve the handling ability and cornering traction of your vehicle with a Performance Sway Bar. Too much weight transfer in a corner destroys a vehicle's road-holding ability, causing the wheels to "drift" or "creep" sideways in the turn, resulting in poor handling and excessive tire wear. Sway bars give your vehicle the balance and stability it needs in curves, passing situations and uneven surfaces.

Performance Sway Bars are fully forged from hardened, high carbon steel and powder coated black for durability. Sway bars come with urethane end link and frame bushings. Brackets included for end link style attachment.

## Front Leveling Kit ... For Better Looks and Larger Tires

Front Leveling Kit lifts the front of a truck to match the rear for an improved level height and look. Adding a Front Leveling Kit is inexpensive and gives the extra space needed to accommodate larger tires on a truck. A modest front lift still maintains the factory ride quality and won't affect steering or suspension. Quick and easy bolt-on installation; the kit is designed to work with the original suspension with no need to change other components. Allows installation of up to 33" tires.

## Drop Beam Set

Drop Beam Set has a unique tubular beam design which makes it the easiest and most accurate available to lower a truck. Beams are made from 1/4" minimum thickness heat-treated steel with a powder coated finish. Beams include performance urethane suspension bushings. Installation is simple; just remove factory beams and replace with the Drop Beam Set. New ball joints should be installed with Drop Beams, see page 93.

## Shackle Set

Use just the Rear Spring Shackle Set to lower the rear of your truck. This is the simplest way to lower the rear and can be used by itself if all you want to do is make your truck look more level. The Rear Hanger and Shackle Set includes spring hangers to drop the rear of your truck even lower.

## Axle Flip Kit

The Axle Flip Kit repositions the rear leaf spring below the axle to lower your truck. The Axle Flip Kit includes an exclusive adjustable axle bracket to set the pinion at the correct angle. Extended cab trucks with 2 piece driveshaft should also buy the Carrier Bearing Shim Kit to prevent driveshaft vibration at highway speeds.

## Drop Shocks

These shocks are engineered to work with the lowering components listed. They feature high pressure nitrogen gas and include a lifetime warranty. If you are lowering the front of your truck more than 2" then Front Drop Shocks are required. If you are lowering the rear of your truck more than 2" then Rear Drop Shocks are required.

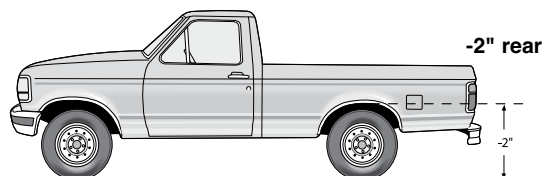

PART	DESCRIPTION	APPLICATION	REQD	PRICE
45-2680	DROP SHOCK-FRONT	2WD F150	83-96 (2)	\$69.95

## How to Lower Your Truck

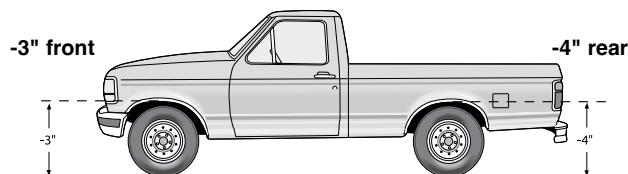

Factory Truck Stance

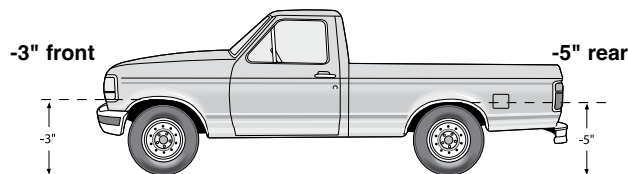

Drop is based on original factory ride height as measured from the top of the wheel arch to the ground. Original ride height is approximately 2" higher in the rear. The stance (difference in height between the front and the rear) is not affected when you lower the front and rear an equal amount. To make your truck look level you need to lower the rear approximately 2" more than the front.

Use a Rear Shackle Set to lower the rear of your truck 2" and make your truck look more level. Drop Shocks are not required.

Use Drop Beams to lower the front and Hangers and Shackles in the rear for a cool 3/4" drop. Drop Shocks are required.

Use Drop Beams to lower the front and a Flip Kit in the rear for a more even looking 3/5" drop. Drop Shocks are required.

## Heavy-Duty Steering Column Bearing and Retainer

1980-91 F100 F150 F250 F350  
1980-91 Bronco

Replace the broken or worn-out plastic bushing in your steering column with this high-quality aluminum housing and press-fit sealed bearing.

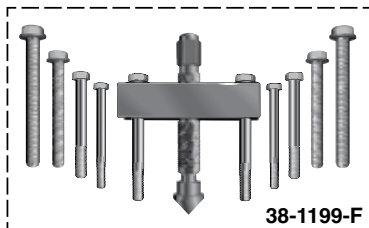

Machined from a block of aluminum, this will help restore smooth steering and eliminate most steering wheel vibrations on your truck. Includes 1/4"-20 stainless mounting hardware for a finished look. Easy to install.

## Heavy-Duty Steering Shaft Assemblies

1980-96 F100 F150 F250 F350  
1980-96 Bronco

Heavy-Duty Steering Shaft Assemblies are made from chrome moly steel billets and incorporate needle bearings for precise road handling. The universal joint uses sealed, permanently lubricated needle bearings making it maintenance free. This Assembly adds a measure of safety to the steering system with needle bearing U-joints and a telescoping shaft. If there is play in the steering system, your truck will have loose and vague steering. You may feel a looseness when you hit a bump or truck may wander in crosswinds. Order yours today!

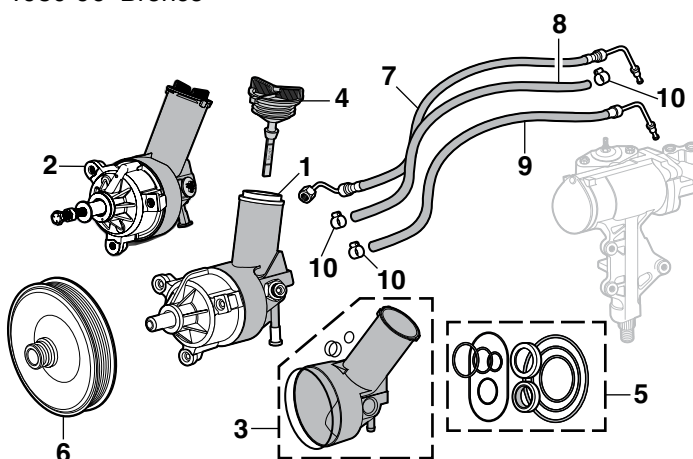

Proudly made in the USA and carries a Five-Year/50,000 Mile Warranty (whichever comes first) against defects in materials and workmanship.

## Steering Stabilizer Kit

1980-96 F100 F150 F250 F350 Bronco

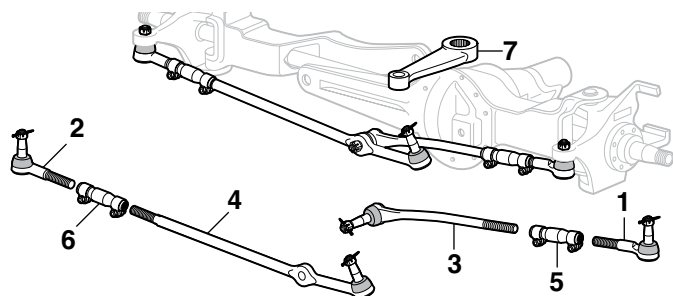

A Steering Stabilizer Kit is basically a horizontal shock absorber that helps to stabilize the steering system. The kit not only helps to stabilize the steering, but can also help in the prevention of "Bump Steer", when the steering wheel jerks suddenly as a result of hitting a pothole or object in your path. These kits will also help to reduce normal wear on vital suspension pieces and make tires last longer. This kit is especially helpful for trucks whose original equipment tires have been replaced by larger or wider ones.

See Page 103

These 14" diameter, 3 spoke steering wheels have a half-wrap design featuring a billet back with a wood or leather grained vinyl front. Facing ring is available in hand-rubbed wood or black leather grained vinyl.

Each steering wheel requires a horn button and an installation kit; sold separately below. Horn buttons are available in black or polished finish. Installation kits are available in matte black steel (3-3/8" dish) or highly polished aluminum (4-3/8" dish).

Wood Steering Wheel has been stained to a rich mahogany color and urethane-coated for better heat resistance and long life. Leather Grained Vinyl Steering Wheels are available in matte black powder coat or high-polished finish. The one-piece billet backing ring has contoured finger notches.

## Ford 9" Rear Disc Brake Conversion Kit

1980-86 F100 F150 Bronco

Rear Disc Brake Conversion Kit converts rear drums to 11-5/8" rotors with single piston calipers equipped with integrated emergency brake. Simply reuse your existing emergency brake cables. Rear disc brakes improve your truck's braking system and provide reliable, all-weather performance. Kits are available with either standard or cross drilled/slotted rotors for better performance, longer life and cooler braking temperatures.

Fits models with Ford 9" rear end only. Rear Disc Brake Conversion Kit will work with 15" or larger wheels. Disc Brake Combination Valve #37-8546-F is required. Requires fabrication of new rear brake lines.

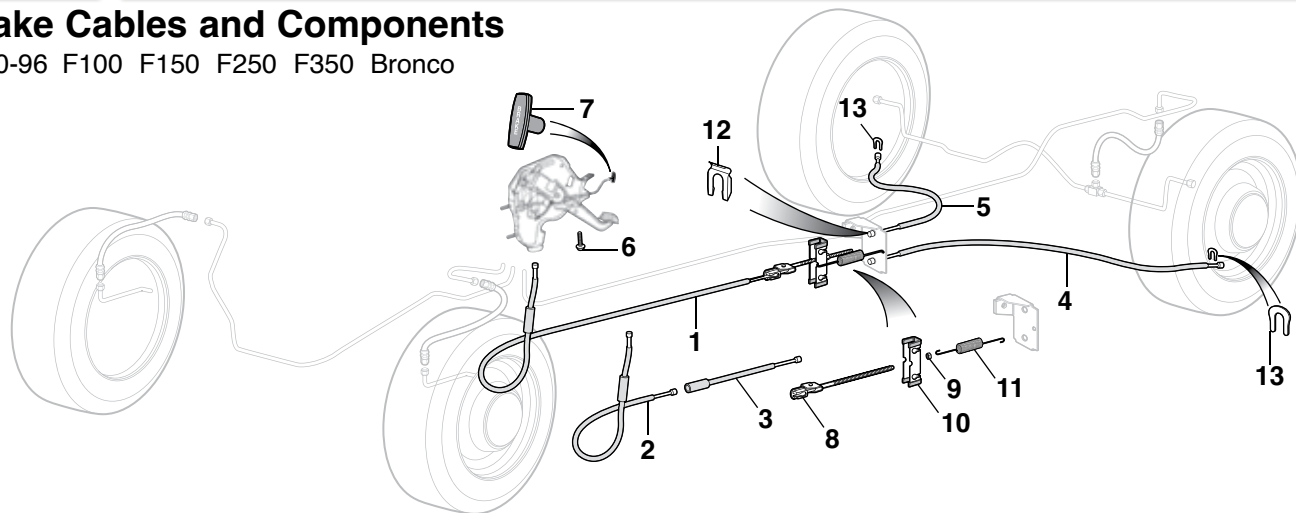

Kit contains 11-5/8" standard or performance cross drilled/slotted rotors, single piston calipers with semi-metallic brake pads, brake hoses, mounting brackets and hardware, and detailed instructions.

Does not fit models with removable rear differential cover.

## Mile Marker Hub

1980-96 F100 F150 F250 F350 Bronco

Marker Hubs have superior quality and are built to exacting standards with improvements over the latest patents to give years of trouble-free service. Limited Lifetime Warranty on Street Master and Supreme Locking Hubs; 1 year warranty on Auto to Manual Hub Conversion Kit.

**Street Master Hub** - Features a contrasting look of chrome with a virtually unbreakable black nylon reinforced fiberglass dial.

**Supreme Stainless Hub** - Features a "full metal jacket" cap with stainless steel exposed to the elements. Made using a new process of die-casting aluminum into a pre-made stainless jacket, it provides strength, is lightweight and corrosion-resistant.

## Wheel Bearing Grease Packer

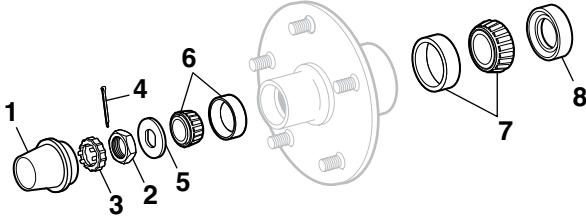

Wheel Bearing Grease Packer quickly flushes out old grease and repacks the bearings with less the mess. The Wheel Bearing Grease Packer works on bearings up to 3 1/2" outer diameter. The grease stays in the tool cavity, not on your hands. To pack a bearing, simply place the bearing on the piston, press down on the cap until the old grease is forced out and the new grease shows on top of the bearing.

### Switch-Ball™ Set

37-7433-F

**Switch-Ball™ Set** - Constructed from premium grade steel with nickel-chrome plating, the Switch-Ball™ Set has an exclusive 'J' Groove design that ensures that the ball is installed on the shank and engaged by a coupler, making the hitching system safe and secure. Weight bearing capacity rests on shank to relieve stress away from the ball, thus freeing the coupler from friction and binding for a smoother and safer towing.

Change between three different trailer hitch ball sizes quickly and easily. No attachment pin to remove or tools required to switch ball sizes. Weight ratings for each hitch ball size are: 1-7/8" = 3,500 lbs., 2" = 6,000 lbs. and 2-5/16" = 8,000 lbs.

### Harmonic Balancer Puller

Removes harmonic balancer from engine without risk of damage. Four-slot, heavy-duty yoke handles any pulling job. Extra-long center screw is machined for use with included adaptor tip that centers puller on crankshaft for quick and damage-free removal. Includes five sets of hardened, flange-head bolts in standard and metric thread sizes for most engines. Order today!

## EZ Oil Drain Valve

EZ Oil Drain Valve allows quick oil changes with little to no mess. Compact design has no lever to catch on obstacles. Adaptors are not required and easily installs with socket or wrench. Aluminum crush washer (included) ensures tight, leak-free seal.

Simple operation; push in cap, twist to the right and drain. Once drained, push in and twist to left to close. Spring-tensioned, double o-ring seal guarantees a long, leak-free life.

## Accessory Drive Systems

S-Drive Pulley Systems are the most compact and easiest to install serpentine kits on the market. Change the appearance and performance of your engine with pulleys and brackets CNC-machined from high quality billet aluminum. Fits 260, 289, 302, and 351 Windsor engines. Includes billet timing cover for easy installation. The cover does not have a provision for a mechanical fuel pump (must use electric pump). Kits are designed to be used with factory 4 bolt balancers with a maximum diameter of 6.40" and a measurement from the face (pulley mounting surface) to the block of 4.70". These serpentine drives do not allow the use of push-in style front timing cover mounted dipsticks.

### Drive Systems include:

- Powermaster 170 amp alternator
- Aluminum water pump
- Sanden AC compressor
- Gates tensioner and serpentine belt
- GM Type II power steering pump
- All necessary CNC billet aluminum brackets and pulleys
- Stainless steel hardware

Power steering reservoir and hoses are not included and must be purchased separately.

## Rubber Vacuum Caps

These Rubber Vacuum Caps are great for blocking off unused vacuum ports and lines, to prevent leaks and poor engine performance. Excellent for capping lines and hoses while testing carburetors, emission control systems, vacuum lines and more.

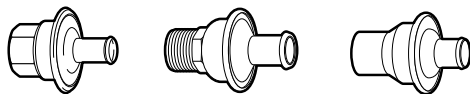

Caps are made from durable heat-resistant black rubber. Assortment contains one each of the following sizes: 5/32", 7/32", 5/16", 3/8" and two each of 3/16" and 1/4".

## Ported Vacuum Switches

1980-96 F100 F150 F250 F350  
1980-96 Bronco

Ported Vacuum Switches (PVS) are heat sensitive devices that turn vacuum pressure on or off to vacuum related components such as EGR valves or distributor advance mechanisms. Can be found on intake manifold, water outlets or engine block. A damaged 47-1312 47-1317 47-1313 or malfunctioning PVS can affect engine performance such as horsepower, fuel efficiency and emissions.

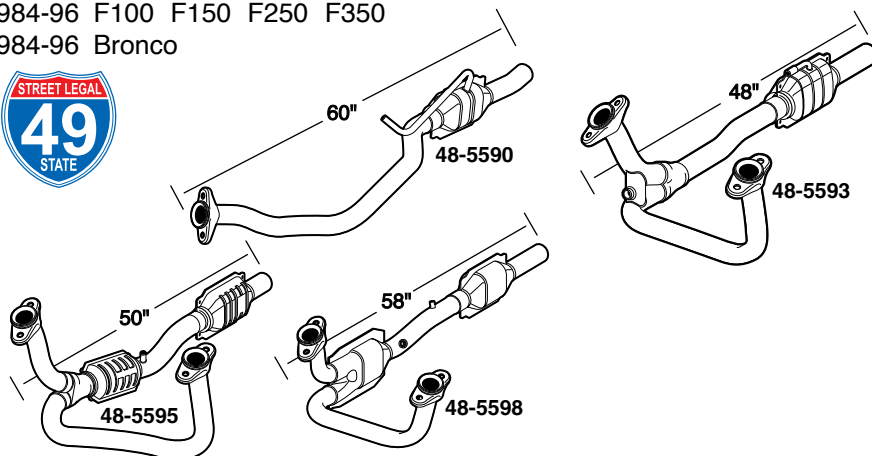

Switches are identified by color, number of ports and OE number. Color of the PVS will be a solid color or painted on top. OE number will be stamped or embossed on the side.

1984-96 Bronco

### Limited Manufacturer's Warranty

In August 1986 the U.S. Environmental Protection Agency issued strict new guidelines regulating aftermarket Catalytic Converters. Our Replacement Catalytic Converters are designed and manufactured to meet EPA emission requirements proven and tested to be legal for road use in 49 states and Canada and are reasonably priced. Replacement converters are not legal for sale or use in California.

## Header Wrap

Increase performance by keeping hot exhaust gasses inside the headers for maximum velocity, improved exhaust scavenging and protecting sensitive engine components from high temperatures.

Header Wrap is able to withstand temperatures up to 1,200°F and is made from vermiculite-coated, textured fiberglass yarn woven into a strong, flexible wrap that can easily be cut with scissors.

Available in 25 or 50-foot rolls of 1" or 2" widths. Two 50-foot rolls of 2" wide are generally enough to wrap standard V8 headers. Stainless steel locking cable ties keep the wrap securely in place. *Header Wrap can void warranty of some headers. Check header manufacturer's warranty before installing.*

Headers with tight bends should use 1" wide wrap for coverage. Overlap wrap 1/4" for optimum heat dissipation.

## Cat-Back Performance Dual Exhaust System with Resonator Tips

**Exceptional Sound  
With Increased  
Horsepower**

Cat-Back Exhaust Systems have a straight-through design that reduces back pressure for more low-end torque, increased horsepower and better fuel economy. Replaces the stock exhaust system from the catalytic converter back. Manufactured from 16-gauge, mandrel bent aluminized steel, increasing flow up to 20% more than stock. Exhaust systems have 3-1/2" diameter resonator tips that replace the original muffler. Easy bolt-on installation, no welding required. Hangers, fasteners and steel clamps are included. Exhaust exits the rear of truck.

Cat-Back Systems do not fit models equipped with two catalytic converters or single catalytic systems equipped with a catalytic converter that has a 3" diameter exit.

## Turbo Mufflers...Reduce Noise without Restricting Power

Turbo Mufflers are specially designed to reduce and control noise without excessively restricting power. They are made from the finest quality materials and can be used as OE replacements as well as on custom exhaust systems.

36-6030-F

**Turbo Mufflers** have a galvanized, double wrapped muffler casing for maximum rust protection. Louvered baffles eliminate vibration and spun end caps provide a gas tight seal. Reverse flow design allows muffler to be inverted.

## Manual Choke Conversion Kit

Replace the broken or malfunctioning choke assembly on your truck with this universal Manual Choke Conversion Kit, designed to convert your carburetor choke to manual operation. Kit is constructed of high-quality materials for long-lasting service and contains a 5'-long pull cable, covers, and the mounting hardware needed to make the conversion. Will fit most carburetor-equipped vehicles.

## JET Performance Powr-Flo Throttle Body Spacers

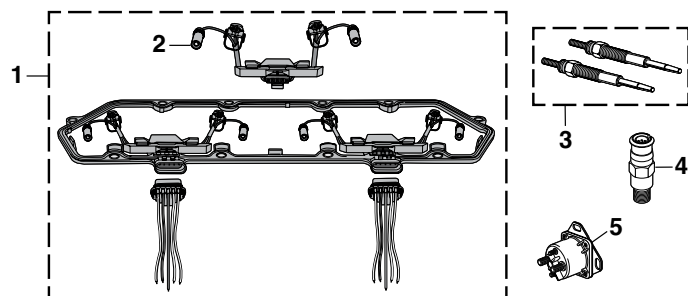

Powr-Flo Throttle Body Spacers are CNC-machined from billet aluminum and feature a bore engineered to increase velocity of airflow into intake manifold. This allows more air to reach combustion chamber for denser air charge and increase in fuel efficiency. The result is improved throttle response and power gains in mid-range and upper rpm operating ranges. Includes gaskets, hardware and instructions for a simple, bolt-on installation with no other vehicle modifications required.

## NEW **Holley** Sniper 2 Electronic Fuel Injection System

Holley Sniper 2 EFI is a self-tuning, easy-to-install Electronic Fuel Injection conversion for common 4-barrel (4150 flange) style carburetors. Make your classic truck drive like a modern fuel-injected vehicle, including easy cold starts, smooth drivability, and improved fuel economy!

If you're looking for a high-performance fuel injection system that delivers power, efficiency, and ease of use, look no further than the Sniper 2 EFI.

- Replaces 4-barrel (4150 flange) carburetors.
- Available in black or polished finishes.
- 4 wiring connections required: Battery+, Battery-, Switched Ignition, and RPM.
- Variety of tuning and gauge display interfaces: from a 3.5-inch full color LCD Handheld, 5-inch Digital Dash, or the Bluetooth dongle, which allows you to connect either an iOS or Android based cell phone to the Sniper 2.
- Inputs and outputs consist of: 2x Ground Inputs, 2x Ground Outputs, 1x TPS Output (0-5v), and 1x Tach Output.
- Onboard contactless magnetic TPS sensor ensures an accurate TPS reading.
- The included genuine Bosch LSU 4.9 wideband oxygen sensor provides real-time fuel map learning.
- Redesigned throttle shaft and plate geometry for a smoother throttle feel.
- Supports up to 650hp naturally aspirated or 575hp on boost with four 100 lb/hr injectors.
- Next generation ECU features improved RF noise and interference resistance.
- "Hidden Harness" wiring harnesses exits from the rear of throttle body for a clean appearance.
- Redesigned injector connector for improved reliability.
- Main harness includes plug-and-play HyperSpark distributor support, for integrated timing control, making your ignition setup hassle free.
- Included clamp-on oxygen sensor kit ensures a leak free oxygen sensor installation.
- Integrated transmission kick down provisions for GM TH350/400, 200-4R/700R4 and Ford C4/C6 applications.
- Calibration wizard only requires that you answer a few simple questions about your engine to create a base map and begin self-tuning – No laptop required.

## Holley In-Tank Retrofit Fuel Modules

With over 100 years of expertise in fuel systems, Holley is unrivaled in the industry. Holley In-Tank Retrofit Fuel Modules allow you to easily convert your truck's original fuel tank into a fuel-injection compatible tank with basic tools and no complexity. The universal, return-style systems fit fuel tanks up to 12" deep, and Holley's brilliant HydraMat (included) virtually eliminates any chance of fuel starvation or poor running conditions due to air entering the fuel system. The innovative billet bracket system ensures a corrosion-free life in a low-profile design that can be rotated to fit in any position needed for your application. Available with either a 255 or 450 lph (liters per hour) fuel pump.

## HVAC Vacuum Motors

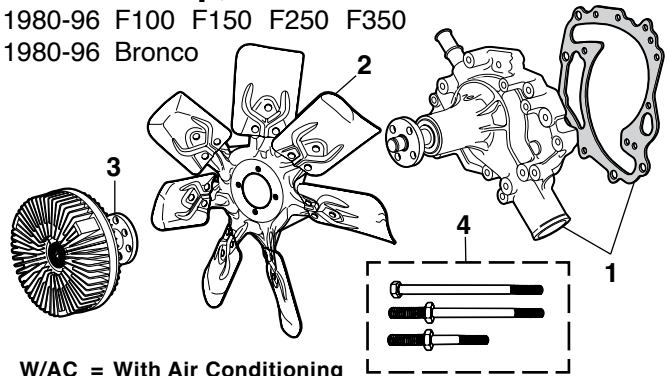

1988-96 F150 F250

There's nothing more annoying than not having your truck's heater and/or A/C blend doors respond when you try to open/close them. These exact-replacement vacuum door motors will fix that problem and restore HVAC operation and driving comfort.

Since many trucks have several different air door motors, be sure to compare your motor to the ones shown to make sure you get the one you need. If you don't know which one needs replaced, please consult a qualified service technician.

**Transmission Oil Coolers:** Trucks with automatic transmissions require radiators equipped with a transmission oil cooler. Radiators with oil coolers are also used on manual transmission trucks, the oil cooler portion of the radiator is simply not used.

**Rows:** The number of rows refers to the number of parallel rows of tubes in the core.

**W/AC = With Air Conditioning**  
**AT = Automatic Transmission**  
**MT = Manual Transmission**

## Dual Electric Cooling Fan Assembly ... For Improved Cooling, Fuel Economy and Power

IMPROVES

GAS MILEAGE

Part #	Size	Motor	CFM	Amp Draw
38-4889-F	26"W X 15"H X 3.23"D	2 X 130 watt	2310	14.4
38-4890-F	26"W X 15"H X 3.62"D	2 X 160 watt	2600	24.8

Dual Electric Cooling Fan Assembly provides increased horsepower and improved MPG. Electric fans provide increased cooling at idle when needed most and eliminate the draw of a mechanical engine-driven fan. Increased airflow across A/C condenser gives cooler, more consistent A/C temperatures at low engine speeds.

Dual Electric Fan Assemblies have a quiet S-blade design and include a wiring harness, relay, adjustable fan temperature switch, mounting brackets and installation instructions.

A/C Cooling Fan Harness activates the electric cooling fan when the A/C compressor clutch is engaged. Kit includes heavy-gauge wire harness, relay, 30 amp fuse, electrical connections and installation instructions.

38-4892-F	16-7/8"W X 15-7/8"H X 3.87"D	160 watt	1950	13.1

Electric Cooling Fan and high-performance motor give maximum air delivery while working off the electrical system. Fan blade and shroud are constructed of glass-filled nylon for strength and durability; includes mounting hardware as well as easy-to-follow instructions.

Fan Mounting Bracket Kit is recommended for optimum mounting strength and performance on all electric cooling fans.

#38-4894-F Adjustable Thermostat, sold separately, operates fan only when needed. Adjustable Thermostat is adjustable from 150°-240°F.

Quick Re-Installation Kit contains everything needed to reinstall cooling fan if removed.

## High Amp Alternators

1980-86 F100 F150 F250 F350

1980-86 Bronco

More amperage is needed to run today's modern accessories. High amp 1-wire alternators are a bolt-on upgrade for original alternator and will give your truck the charging power it needs.

Features include high output with excellent idle performance; hand-wound, custom-designed stators; gold-plated battery post for better electrical connections; and "Proof of Performance" tag.

These WeatherPak Wire Extractor Tools will save you time and hassle when servicing your vehicle's wiring system. Tools are engineered to easily release and remove OEM terminals from their WeatherPak housings, as well as releasing the lock tab on Packard 56 and Pak-Con terminals. This 3-piece set comes with a narrow pick (.05" wide), wide pick (.09") and tubular-shaped extraction tool. Handles are color-coded for easy identification.

PART	DESCRIPTION	REQD	PRICE
42-1398	WEATHERPAK WIRE EXTRACTOR TOOLS	(1)	\$9.95

## Wire Terminal Extractor Tools

This Wire Terminal Tool Kit is designed to release and extract wires from terminals without damage. The single blades have a bevel ground onto the end for working on small terminals found on newer vehicles. Red is specially designed for Pak-Con and WeatherPak terminals. Silver has prongs to depress the 'barbs' on conventional terminals. The handle slips over the probes to protect your hand as well as provide extra leverage. This complete kit comes in a sturdy blow-molded case for protection and long life and is a must-have for any do-it-yourselfer's toolbox.

42-1399	WIRE TERMINAL TOOL KIT	\$53.95

## Split Braid Flex Loom and Wire Loom Installation Tool

36-2600-F

Unique black flexible braided construction features a 25% edge overlap that will allow for the sharpest of bends without distorting or splitting open. Lateral split design of the flex loom allows for easy installation of multiple wires. Self-wrapping feature ensures the flex loom will return to its original size and shape without the need to use fasteners or tape. Protect your vehicle's wiring, cables, hoses and tubing from unnecessary wear while adding a clean look. Available in three sizes: 1/4", 1/2" or 3/4" diameter.

## Ground Straps

Many electrical problems can be traced to poor engine and body ground. Protect yourself from these problems by installing a ground strap between the engine and frame of your truck, this will ensure you have a proper ground for your coil, spark plugs and computer control module. For complete protection, add a ground strap from the frame to the body. Straps are made of tin coated stranded copper braid for durability and are simple to install.

## Universal Wiring Harness ... Finish the Job Right the First Time

**PAINLESS**  
PERFORMANCE PRODUCTS

Universal Wiring Harness from Painless Wiring is a comprehensive approach to rewiring your truck's electrical system. Factory assembled harness features a prewired fuse block with modern blade-type fuses and built-in additional circuits. Wiring Harnesses are available in 21 circuit and 28 circuit assemblies.

High quality terminals and color coded and labeled GXL/XLPE wire (cross-linked polyethylene, -60°F to 275°F abrasion resistant) are used. Includes conventional and 1-wire alternator leads. Terminals are provided to make adapting to any aftermarket steering column easier. Standard features include starter wiring, tachometer lead, single headlight plugs, third brake light, horn relay, turn signal and 4-way hazard flashers, fuses, terminal ends and wire ties. Easy-to-follow instructions and schematics are included.

**21 Circuit Wiring Harness** includes air conditioning/heat, brake lights, cooling fan, courtesy lights, gauges/instruments, hazard, headlights, horn, ignition coil, radio, turn signal and wiper.

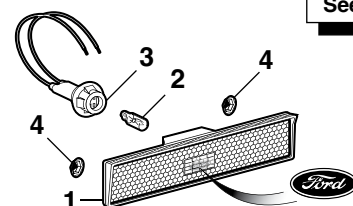

**28 Circuit Wiring Harness** includes all of the features of the 21 Circuit Harness plus backup lights/cruise, cigarette lighter, fuel pump, power antenna, power locks, and power windows.

## Custom Light Bulbs

**Halogen Bulb Tech Tip:** Always handle halogen bulbs by the plastic base to prevent contaminants on the glass from shortening the life of the bulb.

### Halogen Blue-Coated Headlight Bulbs

36-0291-F

Replace the white halogen bulbs with a halogen blue-coated bulb. Blue-coated bulb creates an intense white light, giving the cool look of HID (high intensity discharge) lighting without the high price; call or go online and order yours today!

### Superwhite Bulb Set Produces 30% More Light

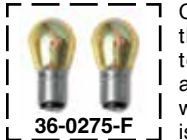

Superwhite headlight bulbs produce 30% more light while retaining the street legal wattage. Superwhite bulbs use a proprietary mixture of premium gases that includes Xenon, which cools the light filament, improving the efficiency and light output of the bulb, unlike standard halogen bulbs which use less efficient argon gas.

Superwhite bulbs operate in the Kelvin color temperature range of 4000-4200K, producing a brighter, white light. Traditional halogen bulbs operate at 2600-3000K, emitting a more yellowish appearance. Sold in sets of two. Call or go online and order yours today!

## LED Bulbs

47-0377

36-0371-F

36-0368-F

LED bulbs have no filament, making them less sensitive to vibrations, and illuminate 140 times faster while lasting up to 20,000 hours, much longer than conventional incandescent bulbs. They emit less heat and use only 15% of the energy required by incandescent bulbs, reducing the load placed on a vehicle's electrical system.

## Underhood Lamp

Underhood Lamp adapts to any 12 volt truck and helps illuminate the engine bay. No need for wiring into a switch, bulb socket base is gravity activated; lamp comes on when hood is raised and goes out when hood is lowered. Mount underneath hood and connect lamp wire to any constant 12 volt source. Moisture proof in-line fuse is integrated into the wire for protection.

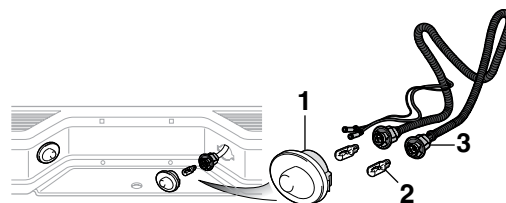

**Installation Tip:** Since all hoods and mounting locations are different, a slight adjustment to mounting bracket may be needed to assure light goes out when hood is closed. After mounting bracket and wires have been installed, apply pressure to the mounting bracket to change the angle as needed for proper operation.

## Custom Headlight

36-0282-F

These OE-quality headlights feature an aluminum die-cast housing with a protective finish coating, making the housing corrosion free. Maximum light output is produced by bright light focused on the road for a greater distance.

The strong, semi-hardened, crystal clear glass lens does not diffuse the light like traditional headlight lenses. A high-efficiency white halogen 12V 60/55 watt replaceable bulb is included. DOT and SAE approved.

If adding brighter bulbs or upgrading to high power halogen lights, use a Heavy-Duty Headlight Harness. For more information, see below.

New technology previously only on high-end luxury cars is now available for trucks! These tail lights quickly alert other drivers of your intentions with LED bulbs that illuminate 140 times faster than conventional incandescent bulbs, which translates to a gain of 20+ feet of reaction distance.

**Additional LED benefits:**

LEDs have no filament, which means they are less sensitive to vibrations, and they can last up to 20,000 hours. They use only 15% of the energy required by incandescent bulbs, reducing the load placed on the truck's charging system and less heat is emitted.

Tail light lenses are a direct replacement for stock tail lights and are made to fit factory specifications. No modifications to fit required. They feature LEDs for brake lights, parking lights, turn signals, backup lights and license plate light.

## Retail Delivery Fee Notice

*Some states are starting to pass legislation requiring us to collect a Retail Delivery Fee on shipments. Check with your state's department of revenue for more information.*

*For those customers living in states that require this, the extra fee will be added to each purchase that is taxable under the state code.*

### What You Need to Know Before Ordering:

We are excited that you've decided to make us a part of your journey! Whether you are rebuilding from the ground up or just adding some distinctive touches to your vehicle, we are proud to give you a hand.

In addition, we'd love to see what you've been up to with your projects, so please log on to [lmctrucklife.com](http://lmctrucklife.com) and share your stories and pictures.

Understand that we are not trained automotive technicians. We want you to consult with mechanics regarding technical advice. Technical information is also included in the workshop manuals shown in this catalog. Please take the time to consult these resources if you feel you need to.

On those occasions that we've run out of a part on your order, chances are that it's already on its way to us. These items are listed as backordered on your invoice and will be sent your way as soon as possible. If you're not interested in waiting for your backordered product, just call our customer service line at (800) 222-5664, and we will cancel it and refund any money that has been paid.

You can also write "No Backorders" on your order form before you send it to us, and we'll make sure only to ship the products we currently have in stock.

Some parts have extra charges. Please consult below to make sure you understand these charges and so you aren't surprised later.

#### Part Number Definitions

- T - After a part number means that part must be shipped Truck Freight. An additional \$150.00 will be charged to your order for delivery in the 48 contiguous United States. Orders outside of the 48 states will be quoted. Additional delivery time required.
- \* - After the sell price means Oversize Part Charge. Your order will incur a charge of \$20.00 for each oversized part. Due to packing and/or transportation requirements, please allow additional time for delivery. Oversized Parts are not available for air delivery.
- \*\* - After the sell price means Oversize Part Charge. Your order will incur a charge of \$50.00 for each oversized part. Due to packing and/or transportation requirements, please allow additional time for delivery. Oversized Parts are not available for air delivery.
- R - After a part number means Remanufactured Part. No core charge.

And one more thing, the part our lawyers make us say: We reserve the right to refuse service or shipment to anyone. We reserve the right to collect a service charge of \$20 for a returned check and to hold any shipments until the fee is collected.

Thank you for your support. Best of luck with all your projects!

### What You Need to Know Before Returning:

If only we lived in a perfect world! Unfortunately, we don't, and things can go wrong. When that happens, we do our best to try to make things right again. But we need your help as well.

All returns must be in like new condition and in the original packaging. Please include a copy of your invoice, as that will make the process quick and easy.

We refund your payment the same way you paid. Refunds of less than \$1 will not be made except by customer request.

We can't be responsible for damages, so please package your returned items carefully.

If you can ship the item back to us ground or USPS within the 48 contiguous United States, you don't need to call for authorization. Just send it to us at:

**17301 W. 113th St, Lenexa, KS 66219**

If we shipped you the wrong item, send it back, and we'll send the right item and reimburse you the ground rate for your return.

We can't accept anything that has been installed (unsuccessful attempts do count), disassembled, drilled, welded, cut, painted, or modified in any way, so please make sure to check and doublecheck the fit before starting any work.

If you are returning a kit, it needs to contain all the parts you received. No partial kits may be returned.

Electronic media (CDs, DVDs) cannot be refunded once they are opened. However, if it is not working properly, it can be exchanged for the same part number.

Please call our customer service line for a return authorization if your part was delivered outside of the 48 contiguous United States.

If you want to return something you bought over a year ago, please call our customer service line for return authorization.

You must call Customer Service when returning a Truck Freight item.

**Customer Service Line: (800) 222-5664**

**¿Habla Español? (855) 456-2288**

A 20% non-refundable restocking fee will be added to anything that's over a year old (unless the extended manufacturer warranty is still in effect, of course) as well as to any unauthorized Truck Freight returns.

And the legal part again: We have the right to refuse any return we deem unfit for resale. We also have the right to refuse any shipments where the shipping charges, duties, customs, etc., are not prepaid.

This chart shows shipping charges on orders up to \$500. Parts must be 108 inches or less and weigh 70 pounds or less to qualify. If any part does not meet these qualifications, your order will be delivered by ground for additional charges.

All orders will ship complete. Any additional delivery charges will be added to your total as needed, including Oversize Part charges or overweight charges.

We will need a daytime phone number with your order. If there is a problem with your order, we will attempt to contact you three times. If we are unsuccessful, your order will be cancelled 5 days after that third failed attempt.

### What You Need to Know When Shipping Problems Occur

Please open your package(s) as soon as possible and make certain that everything is accounted for and nothing was damaged in shipment. Damaged shipments are the responsibility of the carrier and must be reported to the carrier within 15 days of receipt.

If the package looks damaged when it arrives, open it with the delivery person present, so that they can make an immediate report of damages and discrepancies. If the damage is not obvious at the time of delivery, or if the package was left for you by the shipping company, contact their customer service as soon as possible to make your claim.

On Truck Freight shipments, it is your responsibility to check your order and have the driver note any damage on the freight bill before you sign for your item(s).

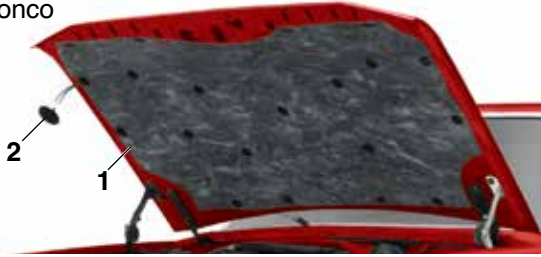

Please keep all packing, packaging and contents until your claim has been settled with the shipping company.

### What You Need to Know About Shipping Internationally

All international orders ship complete. Shipping charges must be prepaid in U.S. funds. Brokerage, duties, taxes, and fees associated with the order are paid by the customer. We do not accept personal checks on international orders.

## **NEW** Dakota Digital VHX Gauge Clusters

1987-91 F150 F250 F350

1987-91 Bronco

**Black**  
**47-1829**

**Silver**  
**47-1830**

VHX Gauge Clusters have the look of the stock instrumentation but the features and capabilities of a late model. Every effort has been put forth to incorporate OEM design elements regarding the layout, face styling and indicators. A casual glance may dismiss these as original equipment, but once you hit the switch and the LED backlighting comes on, all doubts will be removed.

The dual LCD message centers can be fully configured to display just about any piece of information needed like mph, gear selection, and mileage, plus incorporate expandability to mesh with late model and diesel drivetrain

conversions. Gauges include speedometer, tachometer, oil pressure, water temperature, volts and fuel level and each analog gauge sweep (except speedometer) contains a red LED indicator for quick notice of a warning condition and features fully-lit needles and backlit faces. Additional features include the micro-controlled precision stepper motors and solid-state sensors for unparalleled accuracy. Detailed installation instructions and operation manual included.

These are a drop-in replacement for 1987-91 Ford pickups and Broncos and require the stock instrument bezel for installation (not included).

## Remained in the Family

*Ronnie Lowery and His 1994 Ford F150 XLT*

My dad bought this truck new on January 1st, 1994, and it has remained in the family the entire time. My dad always referred to the truck as his grandson's truck. My son was three when his grandfather bought the truck, and after my dad passed away, ownership

was transferred to him. My son is currently serving in the military, so I've kept the truck in my garage and drive it frequently. The truck has 43K original miles and is a true survivor.
