I have a picture in my office. It was an aerial photograph taken in the '60s of the farm we lived on in rural Iowa. To be exact, RR1, Anamosa, IA, before every address had a house number and a private line telephone. We had a party line phone with 8 people on it, well, that is a whole letter to itself along with the Sears and Roebuck catalog, that had everything from toys to a house you could buy and build.

It was a thing back then, and still is now, that a plane flies over, takes a picture and then sells it to you. We aren't going to get into the right or wrong of that idea right now. Instead I am going to say I am grateful that day they flew over and my parents somehow had the money to buy that picture.

It hangs in my office alongside the serenity prayer.

It is there to remind me of who I am and where I come from. That my mom and dad somehow raised 5 kids in a 2-bedroom house until Uncle Dewayne converted the garage to a bedroom for them in the late '60s. That you can exist without a shower and only a bathtub, that you got three TV stations if the rabbit ears were just right and wrapped in aluminum foil, and the only thing you were allowed to watch were Gunsmoke, Rawhide, and Wild Kingdom. Oh, and can't forget The Andy Williams Show. That Sunday morning was church and then grandma's fried chicken and gravy. My grandmother was younger then than I am now. I hadn't really thought about that until I started typing out this letter.

The picture is before my grandfather put the orchard in for them and the feed lot went in. It had to be the early '60s that this picture was taken. Before mom let me put in my own flower beds and I went into the woods and dug up what I wanted to plant and tried to graft or cross-pollinate. Before my mom and I had our first and only big fight over Vietnam. I was a pacifist and plant-loving, earth-loving girl, even back then, who drove her dad's old truck long before I was old enough because the sheriff would just know I was Harold's daughter.

I have been nostalgic lately. I think it is because I turn 69 in January and have outlived my parents and two of my brothers. My parents died young. My dad was only 58, so when you are older than your parents were when they died, your brain can overthink things.

At every level I know I have a great life, with two daughters with beautiful families, and I have been truly blessed. But deep in my heart I am still that young pacifist, plant-loving, earth-loving girl who just wants to garden and drive the old truck. The shorter, colder days were always my time to slow down and think about my next chapter, until COVID, and then it was just hurry and scramble and work. This year I am taking time off work to reflect and make decisions about my last chapter. I want to go into the woods, find the plants that only grow there, and try them in my wildflower garden. I want to drive the '72 Cheyenne into "town" with my grandsons to get ice cream. I will never leave LMC or sell it, but it is time for me to enjoy and spend more time with my grandchildren and daughters. Maybe only work 50 hours a week!

## If You Can't Find the Part You Need in this Catalog, Here's What You Should Do:

- Check local SALVAGE YARDS. Even if they do not have a truck like yours on hand, most salvage yards have access to a communication network which connects them to other salvage yards in your region of the country. Don't hesitate to ask them if you may use it.
- Check local BODY SHOPS and GARAGES for parts accumulations they may have built up over the years. You might get lucky!
- Check local WELDING and MACHINE SHOPS to see if they might be able to MAKE the part you need.

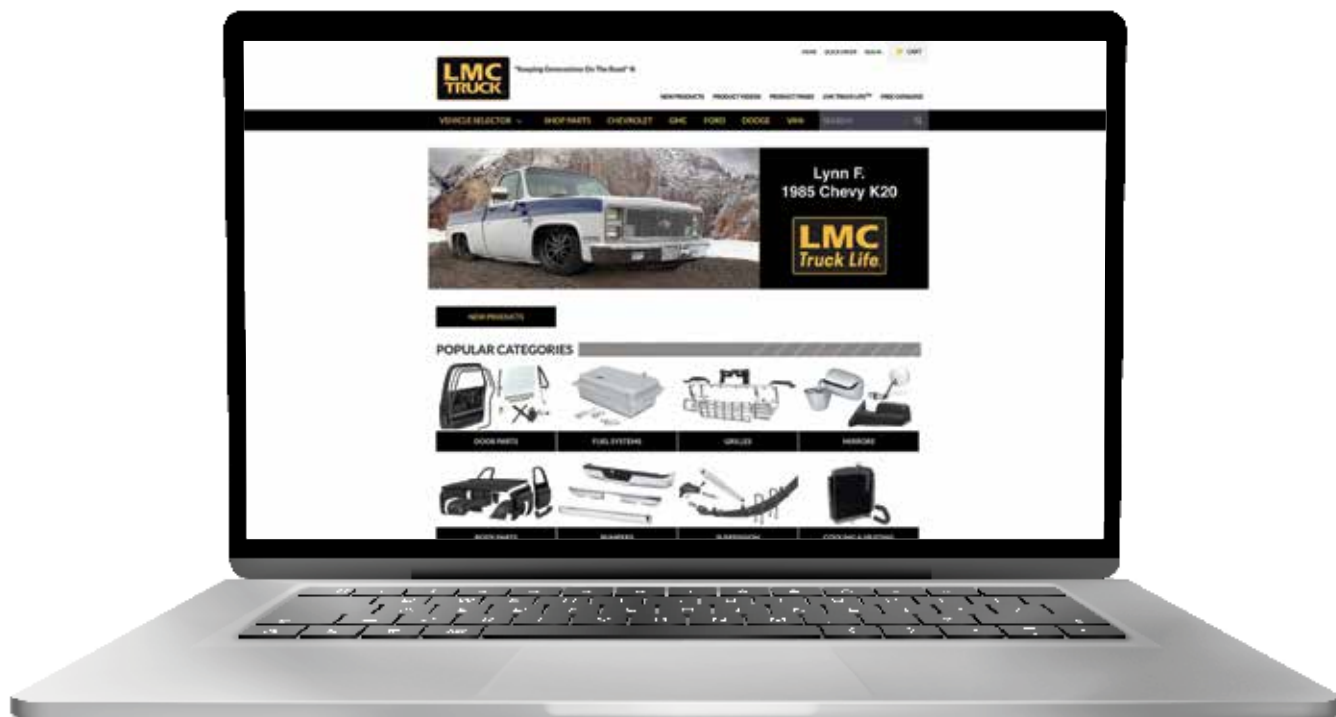

**LMC TRUCK** is in no way affiliated with the Ford Motor Company nor do we intend to imply that. The name Ford is used for reference only.

*Applications listed in this catalog are based on original factory information. However, variances will occur due to non-documented substitutions, and changes made during the vehicle's production.*

## How to Read this Catalog

Throughout this catalog, the application line of the part number describes which model of Ford Truck that particular part will fit. The models this catalog covers are Ford F150 and F250. Here is an example of what each word and number that appears on the description line stands for:

Although all New F150 trucks were introduced in 2004, the previous generation trucks were still available; known as the "Heritage" models. The photos below illustrate the visual difference between the two models.

## Hood Components - Without Raptor Package

2004-14 F150

Always replace lift struts in pairs to prevent twisting caused by uneven loads.

Signs of strut failure are: hood will not stay in the full open position, especially in cold weather, and difficulty in lifting the hood.

## Cowl Induction Steel Hoods ... Give Your Truck a High Performance Look

Cowl Induction Steel Hood helps cool the engine for increased airflow and increased performance. The outside cold fresh air carries a denser air/fuel mixture to an engine's combustion chambers than the warm underhood air. Hoods are made from primed high-quality steel with full inner frame that reuses original factory latch and hinges for an easy bolt-on application and must be painted.

## LMC Truck Cover ... Who Knew Protecting Your Vehicle's Finish Could Be So Inexpensive!

LMC universal fit truck covers provide protection from the elements and are not affected by temperature extremes. In summer a cover keeps the interior cooler and helps protect from the sun's damaging rays, which can cause fading and deterioration. In winter it can keep the snow and ice off your glass and finish.

Fabric will not stretch, shrink, rot or mildew. Elastic is sewn in front

and rear hems to ensure snug fit. **Call or go online and order your truck cover today.**

*Antenna must be removed or an antenna grommet attached to your cover before use. See below for more information on antenna grommet.*

### **LMC 1000** **\$59.95** **GOOD** each

#### **For Moderate Weather Conditions**

Durable synthetic fabric has the look and feel of more expensive covers. Water resistant, yet breathable and features double-stitched seams for maximum strength.

## Side Window Deflectors ... Keep Your Window Open and the Weather Out

48-0682

**Side Window Deflectors ...** The perfect addition to any truck. Keep your window open while still keeping out the wind and rain. Choose from traditional flared design or a sleek low profile design that is contoured to fit flush with the body.

Made from durable ABS plastic which will bend but not break, absorbs road vibrations without fracturing. Will not discolor, fade or become brittle due to UV rays. Will not scratch or peel because it is not a laminate or painted on, but is infused into the plastic to give a hard, smooth finish.

Withstands exposure to rough conditions and extreme temperatures. Installs using 3M™ tape, included with set.

## Now You Can Be Sure All Your Interior Colors Match

These colors are formulated to closely match the original dash pad for the corresponding year. Dashes on some year ranges are two tone and both colors are listed in the chart for the corresponding year. Black is listed first in each chart and color codes are not listed since multiple interior color codes were used.

Interior Color Code

The interior color code can be found on the label affixed to either the driver's side door or driver's side door latch pillar. The two character INT TR code is the third code listed located at the bottom of the label. The first character represents the seat style and material and the second character is the interior color code. First determine your interior color code; then find the code and corresponding year range on the chart listed below to order your ColorBond.

## 1/8" Thick Molded Industrial Polyvinyl (MIP) Floor Mats

All MIP Mats are only available in black.

**Installation Tip:** Allow mats to lay unfolded for 48 hours at room temperature of 72° or more to help remove creases caused by packing. Test fit prior to making any permanent installations (some trimming may be necessary).

Heavy-duty Molded Industrial Polyvinyl (MIP) Floor Mats are made of durable 1/8" thick industrial Polyvinyl and are resistant to moisture and temperature; therefore, they will not dry rot or crack and last longer than rubber. They are vacuum molded from the original floor pan to cover the entire floor, making installation easy.

Mats are easy to clean and protect your interior from water, snow, mud and most chemicals. The MIP Floor Mat includes pre-cut 36 ounce jute padding under the passenger areas to provide a higher level of insulation against heat, cold and road noise.

## Fuse Relocation Kit

2009-14 F150

Ford TSB 15-0137 dated 9/2/15 addresses the problem of the fuel pump fuse/socket overheating and melting the fuse socket by recommending the fuel pump fuse be relocated. Kit includes factory-style terminals, fuse, wiring, and step-by-step instructions to complete the repair effectively

Save yourself the expense of a stalling or no-start situation resulting in having to get a tow or the harrowing experience of having the engine die at highway speeds. This fix can be achieved in about 45 minutes by the average do-it-yourselfer. However, if you do not have a service manual or lack the skill to install this part, it is recommended that you seek the services of a qualified technician.

## Front Leveling Kit ... For Better Looks and Larger Tires

Front Leveling Kit lifts the front of a truck to match the rear for an improved level height and look. Adding a Front Leveling Kit is inexpensive and gives the extra space needed to accommodate larger tires on a truck. A modest front lift still maintains the factory ride quality and won't affect steering or suspension. Quick and easy bolt-on installation; the kit is designed to work with the original suspension with no need to change other components. Allows installation of up to 33" tires.

Don't forget! Shocks are an often overlooked and very important part on your ride. Are you experiencing that embarrassing bounce when you hit a dip or bump? Do you experience annoying brake dive or acceleration squat? Limit that unsafe roll or sway when cornering! Regain control of spring and suspension movement.

## Gas-A-Just Shock Absorbers

You can depend on Gas-A-Just for unsurpassed road control. KYB Gas-A-Just shocks are America's best selling monotube gas shocks. They feature higher gas pressure to keep your truck's tires glued to the road surface. They provide unsurpassed control on even the most demanding roads. Monotube design and high pressure gas eliminate the age old problem of performance fade by eliminating aeration and foaming, a problem with other shocks that use two-tube construction that allows air to mix with fluid.

## GR-2 Gas Shock Absorbers

The KYB GR-2 Shock Absorbers give you a satin ride at an economical price. They feature lower pressure for riding comfort, along with improved handling and response only gas shocks can provide. The GR-2 gas shock absorber is the economical way to step up from hydraulic shocks to the quality ride and control of gas.

**Note:** GR-2 and Excel-G (XLG) shock absorbers are identical except for the product name and paint color.

## Heavy-Duty Gas-Charged Shocks

Heavy-Duty (HD) Gas-Charged Shocks limit unsafe roll or sway when cornering and regain control of spring and suspension movement.

## Heavy-Duty Steering Shaft Assembly

1997-03 F150 2004 Heritage  
1997-99 F250

This Heavy-Duty Steering Shaft Assembly is made from chrome moly steel billets and incorporates needle bearings for precise road handling. The universal joints use sealed, permanently lubricated needle bearings making it maintenance free for the life of your truck. This Assembly adds a measure of safety to the steering system with needle bearing U-joints and a telescoping shaft. Telescopic shaft will work on body lifts up to 4 inches. If there is any play in the steering system, your truck will have loose and vague steering. You may feel a looseness when you hit a bump or truck may wander in crosswinds. If you have oversize tires, these effects will be exaggerated.

Proudly made in the USA and carries a Five-Year/50,000 Mile Warranty (whichever comes first) against defects in materials and workmanship.

## Front Differential Cable Lock Kit ... Cures Slow to No-engagement Blues

1997-03 F150 2004 Heritage  
1997-99 F250

Works like hubs with full control from inside the cab without stopping, in any temperature. Will not disengage when ignition is turned off or if differential is submerged in mud, water or snow. Two-wheel drive low range benefits from bind-free steering AND high rear axle torque. This feature is not available with factory

systems and is beneficial when maneuvering trailers. Reduces front differential wear and right axle breakage.

Differential Lock Kit is compatible with manually (lever) or electrically (push button) engaged transfer cases. Easily installed in one to two hours with basic hand tools. No internal axle or differential work required.

## Switch-Ball™ Set

37-7433-F

**Switch-Ball™ Set** - Constructed from premium grade steel with nickel-chrome plating, the Switch-Ball™ Set has an exclusive 'J' Groove design that ensures that the ball is installed on the shank and engaged by a coupler, making the hitching system safe and secure. Weight bearing capacity rests on shank to relieve stress away from the ball, thus freeing the coupler from friction and binding for a smoother and safer towing.

Change between three different trailer hitch ball sizes quickly and easily. No attachment pin to remove or tools required to switch ball sizes. Weight ratings for each hitch ball size are: 1-7/8" = 3,500 lbs., 2" = 6,000 lbs. and 2-5/16" = 8,000 lbs.

## Cat-Back Performance Dual Exhaust Systems with Resonator Tips

Performance Dual Exhaust System allows increased performance and maintains the catalytic converter. Straight-through design reduces back pressure for increased horsepower, more low-end torque and better fuel economy. Resonator Tips serve as the muffler in these systems.

Systems are made with modern tube benders utilizing mandrel bends, ensuring each bend is smooth flowing, increasing exhaust flow by up to 20% over stock systems.

Manufactured from 16-gauge aluminized steel that lasts longer than conventional plain steel systems. Easy bolt-on installation; no welding required. Hangers, fasteners and steel clamps are included. Exhaust exits the rear of truck.

Exceptional Sound  
with Increased  
Horsepower

## JET Performance Powr-Flo Throttle Body Spacers

Powr-Flo Throttle Body Spacers are CNC-machined from billet aluminum and feature a bore engineered to increase velocity of airflow into intake manifold. This allows more air to reach combustion chamber for denser air charge and increase in fuel efficiency.

The result is improved throttle response and power gains in mid-range and upper rpm operating ranges. Includes gaskets, hardware and instructions for a simple, bolt-on installation with no other vehicle modifications required.

## Shop Manual CD-ROM

1998-02 F150  
1998 F250

Replace your paper shop manual with a shop manual on CD. CDs are fully scanned original shop manuals, complete with illustrations. Search for a category you need and print necessary pages for each project, as many times as you want. Files are in a PDF format for use on either Windows or Macintosh operating systems.

42-0330-CD

If the tamper-proof seal on the CD case is broken, it may be returned for an exchange for the same part number only.

## Repair Manuals on USB

1998-03 F150  
1998 F250

These USB flash drives are electronic versions of the original shop manuals used by the Ford dealership mechanics to guide them through repairs and maintenance. Explains step-by-step repair/service procedures and can be used as a ready reference. Each flash drive is a complete manual that includes all volumes in a set.

The PDF manual is on a USB flash drive for total portability and is compatible with Windows, MAC iOS, and Android operating systems. (Adobe Acrobat Reader or similar required to view.) Each PDF is bookmarked and searchable, allowing you to search the entire manual in seconds and print only the pages you need.

Superwhite Bulb Set  
Produces 30% More Light

Superwhite headlight bulbs produce 30% more light while retaining the street legal wattage. Superwhite bulbs use a proprietary mixture of premium gases that includes Xenon, which cools the light filament, improving the efficiency and light output of the bulb, unlike standard halogen bulbs which use less efficient argon gas.

Superwhite bulbs operate in the Kelvin color temperature range of 4000-4200K, producing a brighter, white light. Traditional halogen bulbs operate at 2600-3000K, emitting a more yellowish appearance. Sold in sets of two. Call or go online and order yours today!

## Halogen Blue-Coated Bulbs

**Halogen Bulb Tech Tip:** Always handle halogen bulbs by the plastic base to prevent contaminants on the glass from shortening the life of the bulb.

36-0294-F

Replace the white halogen bulbs with a halogen blue-coated bulb. Blue-coated bulb creates an intense white light, giving the cool look of HID (high intensity discharge) lighting without the high price; call or go online and order yours today!

## LED Tail Light Set ... The Future of Automotive Lighting

2009-14 F150

42-1654-BL

42-1641

New technology previously only on high-end luxury cars is now available for your truck! These tail lights quickly alert other drivers of your intentions with LED bulbs that illuminate 140 times faster than conventional incandescent bulbs which translates to a gain of 20+ feet of reaction distance!

### Additional LED benefits:

LEDs have no filament, which means they are less sensitive to vibrations, and they can last up to 20,000 hours. They use only 15% of the energy required by incandescent bulbs, reducing the load placed on your truck's charging system and less heat is emitted. Tail lights are a direct replacement for stock tail lights and are made to factory specifications. No modifications to fit required. They feature LEDs for brake lights, parking lights and turn signals. Use original bulbs, sold separately, for the backup lights.

Fog lights provide a low, wide beam pattern for improved short-range vision in fog, rain or snow. Driving lights provide a longer, more focused beam pattern for improved long-range vision at highway speeds.

Fog Lights and Driving Lights are OE quality and have an aluminum die-cast housing and three-tier protective finish coating, which makes the housing corrosion-free. State-of-the-art reflector, in combination with a strong semi-hardened crystal glass lens, gives maximum light output. Lights use a high efficiency halogen 12V 55W replaceable bulb and are OE quality, DOT and SAE approved and are legal for on road use.

For added style, replace the white halogen bulbs with halogen blue-coated bulbs. The blue-coated bulb creates an intense white light which is popular in today's new cars and trucks. Get the cool look of HID (high intensity discharge) without the high price. Call or go online and order yours today!

## Tuff Truck Bag

Tuff Truck Bag is heavy-duty to withstand the elements for all-season cargo protection yet lightweight and collapsible to allow for easy storage when not in use. Tuff Truck Bag can be set up and loaded into any truck bed within minutes, unlike the time required for a camper shell or tonneau cover installation.

- Made from weatherproof, waterproof, non-breathable PVC material with heat fusion epoxy sealed seams along all edges.
- Heavy-duty, commercial-grade zipper and waterproof PVC triple-fold flap that covers the zipper.
- Heavy-duty metal rings in all four bag corners (top and bottom) to retain the bag to the truck.
- Includes storage tote bag and four adjustable bungee cords.
- Provides 26 cubic feet (40"x50"x22") of waterproof storage for any truck bed.
- Can be used alone or in addition to existing storage boxes.

## POR-15 Restoration Products

**POR-15** is a high-performance rust preventative black paint designed to extend the life of new and rusted metal surfaces. It dries to a rock-hard, non-porous finish that will not rust, chip, crack or peel.

Dries in 2 to 5 hours; body fillers and paint can be applied over POR-15. For maximum effectiveness, degrease metal surfaces with Cleaner Degreaser, then prime with Metal-Prep.

**Approximate product coverage:**

1 pint = 48 sq. ft.; 1 quart = 96 sq. ft.

**Dry Time Accelerator** reduces the cure time of POR-15 by 30-50% without affecting the final physical properties of the paint. One 8 ounce bottle treats 64 pints or 32 quarts of POR-15.

PART	DESCRIPTION	PRICE
37-8411-F	POR-15 SEMI-GLOSS-1 PINT	\$43.95
37-8412-F	POR-15 SEMI-GLOSS-1 QUART	\$66.95
37-8408-F	POR-15 GLOSS-1 PINT	\$41.88
37-8409-F	POR-15 GLOSS-1 QUART	\$63.89
37-8418-F	DRY TIME ACCELERATOR	\$34.05

**High Temp Paint** is an extreme temperature finish that maintains color without burning off or discoloring on manifolds and headers. Withstands high temperatures up to 1,200°F and resists cracking, chipping and peeling. It is weather-, salt- and moisture-resistant. Available in gray or aluminum color; can be brushed or sprayed on. Recommend sandblasting for optimal surface preparation.

**Approximate coverage:** 8 oz. covers a set of big block V8 headers with two coats.

PART	DESCRIPTION	PRICE
37-8484-F	HIGH TEMP PAINT-GRAY 8 OZ	\$25.51
37-8485-F	HIGH TEMP PAINT-ALUM 8 OZ	\$25.51

**Metal-Prep** provides adhesion for POR-15 on any metal surface. Gently etches metal, neutralizes rust and creates an ideal anchor for coatings such as POR-15, while leaving a zinc phosphate finish to ensure chemical bonding of paint and steel. Metal-Prep must be used on galvanized metal, aluminum, stainless steel and smooth, polished or new metal surfaces prior to applying POR-15. Metal-Prep is water-based so it is not caustic, corrosive, toxic or flammable.

PART	DESCRIPTION	PRICE
37-8415-F	METAL-PREP 1 QUART	\$22.14
37-8416-F	METAL-PREP 1 GALLON	\$44.74

**Cleaner Degreaser** cleans and degreases in one application without messy residues, noxious fumes or flammable solvents. Removes grease, oil, mildew, algae, musty odors, soap films and wax from canvas, vinyl, plastics, nylon, wood, fiberglass and all metal surfaces.

Cleaner Degreaser should be used as a surface prep prior to using Metal-Prep and POR-15.

PART	DESCRIPTION	PRICE
37-8413-F	CLEANER DEGREASER 1 QUART	\$14.67
37-8414-F	CLEANER DEGREASER 1 GALLON	\$29.95

**POR-15 Self Etch Primer** is a quick drying and easy-to-apply coating which enables a restorer to quickly topcoat POR-15 Rust Preventive Coating and other basecoats. You can even topcoat POR-15 that's been in place for months or years. This Self Etch Primer is NOT a high-build primer, it can be sprayed on almost any painted surface and can be top coated in 15 - 30 minutes. It bonds incredibly well to POR-15 Rust Preventive Coating, and all topcoats bond incredibly well to POR-15 Self Etch Primer. It can be sanded lightly, and, if desired, multiple coats may be applied.

PART	DESCRIPTION	PRICE
37-8401-F	SELF ETCH PRIMER-GRAY	\$39.15

37-8403-F	TOP COAT-GLOSS BLACK	\$28.39
37-8404-F	TOP COAT-CHASSIS BLACK	\$28.39

**POR-15 Top Coat** can be applied directly to a clean prepped metal surface, but when used as a top coat over POR-15 Rust Preventive Coating it provides the toughest, most permanent protection against rust and corrosion. It has exceptional long-term gloss and color retention when exposed to sunlight and the elements, non-porous, extremely scratch and chip resistant, won't crack, peel or chip. Can be applied directly to metal substrates, with no need for a primer or undercoat, and is formulated to form a robust barrier that sheds moisture.

**Chassis Black** has a semi-gloss appearance. For maximum durability Chassis Black should be clear coated.

**Bed Liner** is a water-based, rubberized coating ideal for protecting truck beds, and all other metal, aluminum, fiberglass and wood surfaces exposed to impacts and scuffs. It is UV stable and offers superior adhesion, impact resistance and flexibility.

Features a textured semi-gloss black finish for good looks. Prior to application, surfaces should be degreased with Cleaner Degreaser and metal surfaces should be treated with Metal-Prep. Bed Liner can be applied over POR-15.

Shortbed trucks - 1 gallon for two coats on bed floor, sides and tailgate. Longbed trucks need an additional quart.

**Approximate product coverage:**

1 quart = 25-30 sq. ft.; 1 gallon = 100-120 sq. ft.

PART	DESCRIPTION	PRICE
37-8480-F	BED LINER 1 QUART	\$37.94
37-8481-F	BED LINER 1 GALLON	\$142.96

**Fuel Tank Sealer** coats the inside of your tank to stop rust and seal pinholes and weld seams. It's a non-porous, flexible film that is resistant to all fuels, alcohols and fuel additives. This environmentally safe sealer does not contain the harmful chemical Methyl Ethyl Ketone (MEK) and is non-flammable. Cleaner Degreaser and Metal-Prep must be used to prep fuel tank prior to using fuel tank sealer.

**Approximate product coverage:**

1 pint = to 12.5 gal tank; 1 quart = to 25 gal tank

PART	DESCRIPTION	PRICE
37-8488-F	FUEL TANK SEALER 1 PINT	\$31.44
37-8489-F	FUEL TANK SEALER 1 QUART	\$54.60

**POR-15 Stop Rust Kit** is designed to stop and/or prevent rust on metal surfaces and ensures the best results when applying POR-15 Rust Preventive Coating. The kit contains everything you need for the 3-step process, 8 ounce bottle of POR-15 Cleaner Degreaser, 8 ounce bottle of POR-15 Metal-Prep, 4 ounce can of POR-15 Gloss Black, two paint brushes, 1 pair of latex gloves, and detailed instructions and tips. The kit is ideal for small projects such as sub-frames, axle replacements, control arms, brake shields and much more! There is enough material in this kit to cover a 6 sq. ft. area with two coats.

PART	DESCRIPTION	PRICE
37-8405-F	STOP RUST KIT	\$27.84

## Sound Control Mat

Black

Silver

**Sound Control Mat** reduces noise, vibration and heat created from the engine, road and structure of your vehicle. Can be applied to any interior surface area; cover as little as 25% of an area for a noticeable reduction. Each 2mm thick sheet consists of butyl rubber with a top layer of heat resistant aluminum that is easy to cut and conform to contoured surfaces, just peel and stick. Available in silver and black, each sheet measures 21" x 29".

**3-in-1 Sound Control Mat** combines the vibration absorption and heat resistant capabilities of the 2mm thick Sound Control Mat with an additional 5mm thick layer of foam for more efficient sound deadening. This makes it our most effective product for eliminating road noise and vibrations in your truck. Each sheet is 7mm thick and measures 19" x 31".

## Header Wrap

Increase performance by keeping hot exhaust gasses inside the headers for maximum velocity, improved exhaust scavenging and protecting sensitive engine components from high temperatures.

Header Wrap is able to withstand temperatures up to 1,200°F and is made from vermiculite-coated, textured fiberglass yarn woven into a strong, flexible wrap that can easily be cut with scissors.

Available in 25 or 50-foot rolls of 1" or 2" widths. Two 50-foot rolls of 2" wide are generally enough to wrap standard V8

headers. Stainless steel locking cable ties keep the wrap securely in place. *Header Wrap can void warranty of some headers. Check header manufacturer's warranty before installing.*

Headers with tight bends should use 1" wide wrap for coverage. Overlap wrap 1/4" for optimum heat dissipation.

Underhood Lamp adapts to any 12 volt truck and helps illuminate the engine bay. No need for wiring into a switch, bulb socket base is gravity activated; lamp comes on when hood is raised and goes out when hood is lowered. Mount underneath hood and connect lamp wire to any constant 12 volt source. Moisture proof in-line fuse is integrated into the wire for protection.

**Installation Tip:** Since all hoods and mounting locations are different, a slight adjustment to mounting bracket may be needed to assure light goes out when hood is closed. After mounting bracket and wires have been installed, apply pressure to the mounting bracket to change the angle as needed for proper operation.

## LED Cab Roof Light Kit

PART	DESCRIPTION	APPLICATION	REQD	PRICE
49-3704	LED CAB ROOF 5 LIGHT KIT	CLEAR W/AMBER LEDS	(1)	\$64.95

LED lights have no filament, which means they are less sensitive to vibrations, and they can last up to 20,000 hours. They use only 15% of the energy required by incandescent bulbs, reducing the load on the truck's charging system, and less heat is emitted.

## Cab Roof Light Kits ... Add Visibility and Big Rig Style

38-1075-F

38-1074-F

49-3701-F

Cab Roof Light Kits are available in amber or clear. Kits meet SAE specifications when used with included bulbs. The two outside lights (clearance lights) and three inner ones (marker lights) give oncoming traffic a visual fix on the truck for additional safety. All kits come complete with lights, bulbs, wire harness, quick splice connectors and a dash mount panel with toggle switch plus indicator light which allows the Cab Roof Lights to be operated independently of the headlights.

## Switch-Ball™ Set

37-7433-F

**Switch-Ball™ Set** - Constructed from premium grade steel with nickel-chrome plating, the Switch-Ball™ Set has an exclusive 'J' Groove design that ensures that the ball is installed on the shank and engaged by a coupler, making the hitching system safe and secure. Weight bearing capacity rests on shank to relieve stress away from the ball, thus freeing the coupler from friction and binding for a smoother and safer towing.

Change between three different trailer hitch ball sizes quickly and easily. No attachment pin to remove or tools required to switch ball sizes. Weight ratings for each hitch ball size are: 1-7/8" = 3,500 lbs., 2" = 6,000 lbs. and 2-5/16" = 8,000 lbs.
