Radiator Cap with Safety Lever

93

I have a picture in my office. It was an aerial photograph taken in the '60s of the farm we lived on in rural Iowa. To be exact, RR1, Anamosa, IA, before every address had a house number and a private line telephone. We had a party line phone with 8 people on it, well, that is a whole letter to itself along with the Sears and Roebuck catalog, that had everything from toys to a house you could buy and build.

It was a thing back then, and still is now, that a plane flies over, takes a picture and then sells it to you. We aren't going to get into the right or wrong of that idea right now. Instead I am going to say I am grateful that day they flew over and my parents somehow had the money to buy that picture.

It hangs in my office alongside the serenity prayer. It is there to remind me of who I am and where I come from. That my mom and dad somehow raised 5 kids in a 2-bedroom house until Uncle Dewayne converted the garage to a bedroom for them in the late '60s. That you can exist without a shower and only a bathtub, that you got three TV stations if the rabbit ears were just right and wrapped in aluminum foil, and the only thing you were allowed to watch were Gunsmoke, Rawhide, and Wild Kingdom. Oh, and can't forget The Andy Williams Show. That Sunday morning was church and then grandma's fried chicken and gravy. My grandmother was younger then than I am now. I hadn't really thought about that until I started typing out this letter.

The picture is before my grandfather put the orchard in for them and the feed lot went in. It had to be the early '60s that this picture was taken. Before mom let me put in my own flower beds and I went into the woods and dug up what I wanted to plant and tried to graft or cross-pollinate. Before my mom and I had our first and only big fight over Vietnam. I was a pacifist and plant-loving, earth-loving girl, even back then, who drove her dad's old truck long before I was old enough because the sheriff would just know I was Harold's daughter.

I have been nostalgic lately. I think it is because I turn 69 in January and have outlived my parents and two of my brothers. My parents died young. My dad was only 58, so when you are older than your parents were when they died, your brain can overthink things.

At every level I know I have a great life, with two daughters with beautiful families, and I have been truly blessed. But deep in my heart I am still that young pacifist, plant-loving, earth-loving girl who just wants to garden and drive the old truck. The shorter, colder days were always my time to slow down and think about my next chapter, until COVID, and then it was just hurry and scramble and work. This year I am taking time off work to reflect and make decisions about my last chapter. I want to go into the woods, find the plants that only grow there, and try them in my wildflower garden. I want to drive the '72 Cheyenne into "town" with my grandsons to get ice cream. I will never leave LMC or sell it, but it is time for me to enjoy and spend more time with my grandchildren and daughters. Maybe only work 50 hours a week!

Becky

How to Use this Catalog

Example: Wiper Blades

PART	ILL#	DESCRIPTION	APPLICATION	REQD	PRICE
47-3998	(1)	WIPER BLADE	RGR BRUI 83-94	(2)	\$8.95

Please Note: Product drawings are only representations. Products supplied may vary from illustrations in this catalog.

ALL ITEMS ARE PRICED EACH IN THIS CATALOG.

Kit means the components that are required to do a replacement for one part, check required column. Set means a number of parts that complete one truck.

Explanation of policies is on pages 121 and 122.

Listing Explanation:

PART: The part number you order, i.e. **#47-3998**.

ILL #: Illustration reference number, i.e. (1) is the Wiper Blade.

DESCRIPTION: Name of part, i.e. Wiper Blade.

APPLICATION: Model and year partfits, i.e. Ranger and Bronco II 1983-94.

REQD: Quantity of the part required for one truck, i.e. two
(2) Wiper Blades are required for one truck.

PRICE: The low price you pay for one part, i.e. Wiper Blade is \$8.95, making your total net cost \$17.90 + Delivery & Handling for two Wiper Blades required for one truck.

Part Number Definitions

-T after a part number means that part must be shipped Truck Freight. An additional \$150.00 will be charged to your order for delivery in the 48 contiguous United States. Orders outside of the 48 states will be quoted. Additional delivery time required.

-R Remanufactured Part - No core charge.

* Or ** after the sell price means your order will incur an Oversize Part Charge for each oversized part. * Means extra charge will be \$20. ** Means extra charge will be \$50. Due to packing and/or transportation requirements, please allow additional time for delivery. Oversized Parts are not available for air delivery.

Numerical Sequence of Assembly

Constant A until sequence number of 99,999 is reached, then changes to constant B and so on.

1983-2011 Ranger Key Information

1983: Introduced in March 1982 as a 1983 model, built at the Louisville, Ky. plant. The Ranger was a scaled down F-Series. Double wall construction hood, doors, roof, box side and tailgate made the Ranger as sturdy as its big brother. Available as a 4x2 and 4x4, it came with three variations of 4 cylinder engines and one V6. From its introduction the Ranger was America's best selling compact truck for 8 of the next 10 years.

1984: Ranger styling was left alone. Trimwise the XLS and XLT models were offered. The Ranger S model was the stripped down value model.

1985: 232,771 Rangers were sold in 1985. A 2.3L 143 cid EFI Turbo Diesel 4 cylinder was offered. Styling remained unchanged.

1986: The new Super Cab was an immediate success. With 17 inches of additional room behind the front seat, the Ranger now had the same configuration as the F-Series.

1987: The High Rider 4x4 model was offered. It included a bed-mounted light bar, front Bush Bar, and improved handling. New styled white painted wheels were optional. All radios had an electronic display and included a clock. ABS rear brakes were standard on all models.

1988: America's best selling compact truck set a sales record of 367,212 trucks sold. The GT Package now joined the Custom, XLT and STX options. Both ground effects front spoiler and rocker panel skirting with sportier suspension made the GT package unique. 1988 was the last year of a carbureted engine, the 2.0L 122 cid, in a Ranger.

1989: A new front restyle made the Ranger style match the F-Series. Aerodynamically Flush Halogen headlights, wraparound turn signals, wraparound front bumper, all new hood and cowl and reshaped front fenders completed the update. The first Ford engine not to have a distributor was the 2.3L 140 cid EFI. It came with two spark plugs per cylinder and was the standard engine in the Ranger. All Ranger engines now came with EFI, electronically controlled fuel injection.

1990: A 4.0L 242 cid EFI V6 engine was offered and only available with the automatic overdrive transmission. The DANA 35 replaced the DANA 28 front axle.

1991: A sport model was added to the Ranger lineup with special paint, tape stripe package and special aluminum wheels. The 3.0L 183 cid EFI V6 was introduced.

1992: The big 4.0L 242 cid EFI now came with a 5-speed overdrive manual transmission. As the best-selling compact truck in America, Ford made few changes for 1992.

1993: The Ranger was completely restyled for 1993. The boxy look was dropped for a new streamlined appearance. The front end became more rounded and the front bumper wrapped around the fenders. Wheel wells became more pronounced with a wider flare. The new Flareside Splash model was introduced. Access to the cab was made easier with wider front doors. The 2.9L V6 engine was replaced with a 3.0L 182 cid.

1994: The Splash was now available as a Super Cab. For improved side impact safety, side door guard beams were added to all models.

1995: A driver's side airbag was added. All wheel ABS became standard for all four-wheel drive models and models with the 4.0L engine. A new electronic 4 speed automatic transmission was now available. The instrument panel received a facelift as well as the front grille.

1996: The Flareside bed was no longer exclusively available as a Splash model. Passenger side air bags were added as an option.

1997: A new five speed automatic transmission was offered as an option. A stereo with a single disc player was added as well as an extra power point for accessories.

1998: The Ranger increased its standard cab depth by three inches adding more legroom. The front of the truck received a new look with a new bumper, valance, grille, front lights and a steel or aluminum hood. A 2.5L 153 cid engine replaced the 2.3L engine. A wishbone type coil spring or torsion bar front suspension replaced the old coil spring Twin I-Beam. An all-electric Ranger EV was introduced for fleet sales only. The four-wheel drive could now be engaged on-the-fly with a dash switch.

1999: The Super Cab now came with four doors. The Splash model was dropped leaving available trim levels as the XL and XLT with optional sport appearance packages. A fully boxed frame now made the Ranger a tougher truck all around.

2000: Minor trim level changes were made for the Ranger in 2000. The XL received a new Trailhead package and the XLT received a new 4x4 Off-Road Group package.

2001: A new grille, front bumper, valance and crystal clear headlights gave the Ranger a custom appearance for 2001. The Ranger added a new trim level called the Edge. The Edge came standard with aluminum rims and color coordinated bumper, valance and wheel arch moldings. Both the 2WD and 4WD Edge models had the same ride height and came standard with a black vinyl floor. XLT Super Cabs now offered a premium off road package. The 4.0L OHV was replaced with a 4.0L 242 cid SOHC. Four wheel ABS became standard on all models.

2002: A fuel-efficient 2.3L 143cid DOHC engine was added and the 2.5L was dropped. A new FX4 off-road model was introduced with forged aluminum wheels, heavy-duty suspension and added skid plates. The FX4 came standard with the 4.0L engine. Standard trim levels remained the XL and XLT.

2003: A FX4 level II was introduced with a manual transfer case, a torsen® limited slip axle, heavy-duty shocks, forged aluminum wheels and stainless steel tow hooks. The Tremor trim level was added to the FX4 lineup with a 485-watt sound system.

2004: New front valances and grille designs were added to give the Ranger a rugged new look much like the F150. Interior changes were minimal. The Tremor was given a new 510-watt sound system, sporty interior design and custom cast aluminum wheels.

2005: Interior changes were minimal. Trim levels offered were the XL, XLT, Edge, FX4 Off-Road, FX4 Level II. The Tremor trim level was dropped. A stylish STX trim level was added that had a custom grille, valance, aluminum wheels, running boards, tail lights and fog lights. Ford Ranger has been distinguished as the best selling compact truck for 17 years straight.

2006: A new grille with horizontal bars, squared off mirrors and boxed in emblems now gave the Ranger the look of a small F150. Park lights and taillights were changed as well. Minor changes were made to the front bumper and fenders. The Edge was replaced by the Sport, which came in 2WD and 4WD.

2007: Minor interior changes were made. The crash safety service was upgraded. A tire pressure monitoring system and a passive anti-theft system were also added as an option. SIRIUS satellite radio and an auxiliary MP3 input jack were added to the premium sound system.

2008: A new front bumper with better aerodynamics was added to improve fuel economy. With the new front bumper, fog lights were also redesigned. The FX4 Off-Road Ranger received some performance upgrades and the FX4 LEVEL II and STX trim levels were dropped.

2009: Minor interior changes were made. Trim levels offered were the XL, XLT, Sport and FX4 Off-Road. A trailer hitch receiver became standard on all models. The 3.0L engine was dropped leaving the 2.3L and 4.0L as the two engine choices.

2010: The FX4 Off-Road model was dropped. Trim levels offered were the XL, XLT and Sport. Front seat side airbags and Roll Stability Control™ are now standard equipment on all models.

2011: No major changes were made in 2011. The last North American Ford Ranger rolled off the assembly line on Dec. 16, 2011, at Ford's Twin Cities Assembly Plant in St. Paul, Minnesota. Over 7 million Rangers were built since 1982.

Vehicle Identification Number

Bronco II 1984-90

Where to Find Your Vehicle Identification Number (VIN)

For the Bronco II the VIN plate is visible through the driver's side of the windshield.

Vehicle Identification Number - 1FMBU12T5GZA00,001

1 F M B U 12 T 5 G Z A00,001

Nation of Origin

1 = USA 2 = Canada

Manufacturer

F = Ford Motor Company

Type of Vehicle

M = Multipurpose Vehicle

Gross Vehicle Weight Range

A = Up to 3,000 lbs

B = 3,001 to 4,000 lbs

C = 4,001 and up

Model or Line

U = Bronco II

Chassis & Body Type

Numerical Sequence of Assembly

Constant A until sequence number of 99,999 is reached, then changes to constant B and so on.

1984-1990 Bronco II Key Information

1984: The Bronco II was the 4x4 midsize equivalent of the full size Bronco. The same double wall construction hood, doors, roof, box sides and tailgate as the full size Ford. The Twin Traction Beam front axle, 4-speed manual transmission, and 2.8L 170 cid V6 were standard.

1985: Styling was carried over, now standard full instrumentation, transfer case skid plates and a 5-speed transmission. Optional was the 2.3L 143 cid EFI 4 cylinder Diesel engine.

1986: The 2.9L 179 cid EFI V6 replaced the original 2.8L 170 cid engine. A multiple of exterior colors and two-tone paint scheme were optional.

1987: ABS rear wheel braking is now standard on all models. 4x2 two-wheel drive was now available. Optional electric transfer case shifting and Touch Drive were now available.

1988: The XL Sports model was now available. White-lettered tires, deep-dished cast aluminum wheels, tachometer, brush/grille guard, fog lights, black front bumper and black tubular rear bumper combined to make the XL a cool off-the-road truck.

1989: A completely restyled front end was similar to the F-Series design. Automatic transmission shift linkage moved to the steering column. A floor-mounted, rear seat heater was only available on the Bronco II.

1990: No major changes, for this was a short production year, ending in February 1990. This made way for the longer and wider 1991 Explorer to be introduced.

Gift Cards Now Available

Call (800) 562-8782 to Order

Available for \$25 - \$50 - \$100

- Gift Cards are the perfect gift to ensure you are giving exactly what they want!

LMC Truck Cover ... Who Knew Protecting Your Vehicle's Finish Could Be So Inexpensive!

LMC universal fit truck covers provide protection from the elements and are not affected by temperature extremes. In summer a cover keeps the interior cooler and helps protect from the sun's damaging rays, which can cause fading and deterioration. In winter it can keep the snow and ice off your glass and finish.

Fabric will not stretch, shrink, rot or mildew. Elastic is sewn in front and rear hems to ensure snug fit. Call or go online and order your truck cover today.

Antenna must be removed or an antenna grommet attached to your cover before use. See below for more information on antenna grommet.

LMC 1000 **\$49.95 each** **GOOD**

For Moderate Weather Conditions

Durable synthetic fabric has the look and feel of more expensive covers. Water resistant, yet breathable and features double-stitched seams for maximum strength.

Ford Pickup and SUV	
29-8950-F Std Cab Shortbed	1983-11
29-8951-F Std Cab Longbed	1983-11
29-8952-F Super Cab	1986-11
29-8954-F Bronco II	1984-90

LMC 3000 **\$89.95 each** **BETTER**

Superior Protection at a Great Value

Superior breathable 3-layer synthetic fabric is highly water resistant, even during downpours and provides a soft cushioning layer that protects your paint. No-leak construction is achieved through ultrasonic welding, and UV-stable materials ensure a long life, making them ideal for long-term vehicle storage.

Ford Pickup and SUV

Ford Official Licensed Product is purchased from an authorized Ford Licensee.

Steel Body Panels and What to Expect

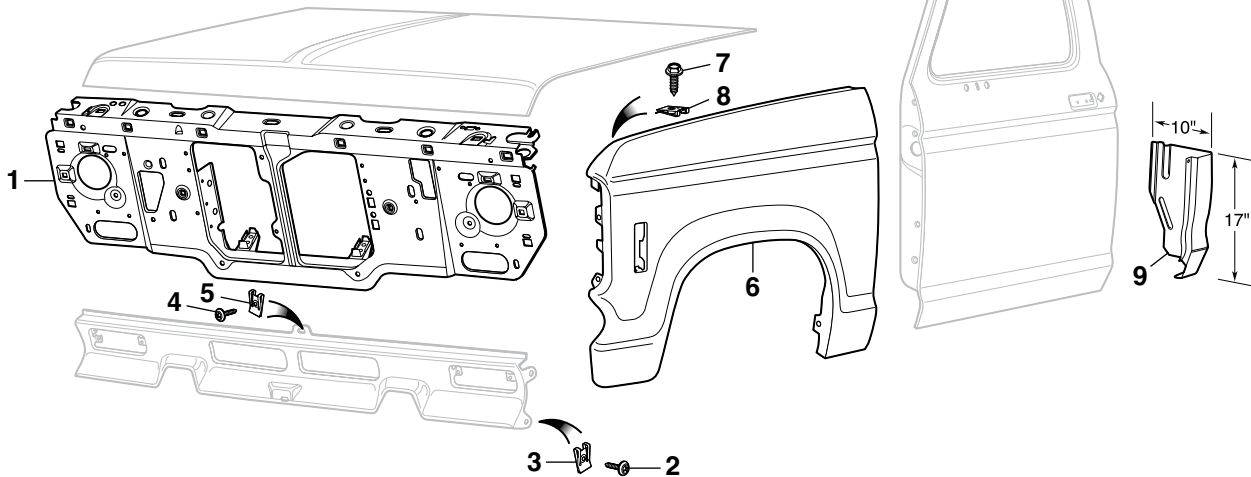

All sheet metal is inspected before it is shipped and careful steps are taken to package parts so there is no damage during shipping. Due to the nature of the product, sheet metal is easily damaged and scratches, dents, dings and other imperfections are normal and not considered damaged. These kinds of imperfections should be expected and can be easily fixed during installation and the paint preparation, sanding and priming stages of your restoration. It is recommended you inspect all sheet metal that is delivered before the delivery driver leaves. Test fitting of all panels before installation is recommended and the use of alignment shims and other adjustments during the install may be required.

-T after a part number means that part must be shipped Truck Freight. An additional \$150.00 will be charged to your order for delivery in the 48 contiguous United States. Orders outside of the 48 states will be quoted. Additional delivery time required.

Hood Lift System

1983-11 Ranger
1984-88 Bronco II

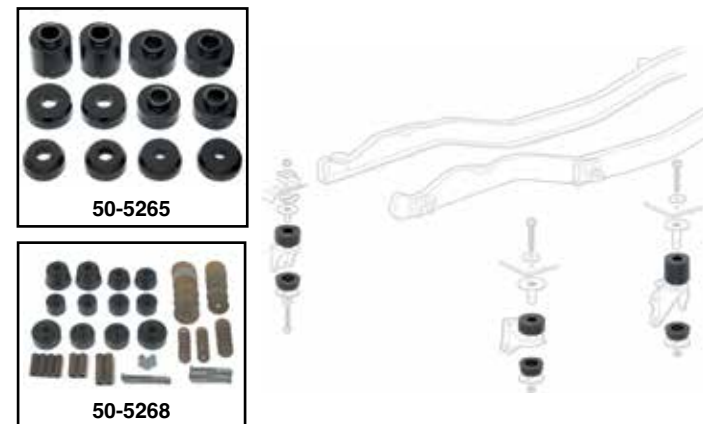

Hood Lift System replaces those unsightly hood springs or prop-rods with modern gas struts made specifically for your truck. Each system features black e-coated struts and black powder-coated hardware. They are backed by a 4-year warranty.

Elite Hood Lift System features all the above but uses 316L Stainless Steel gas struts and comes with a 5-year warranty

All necessary brackets, hardware and full-color installation instructions are included.

Polyurethane Cab Mount Bushing Set

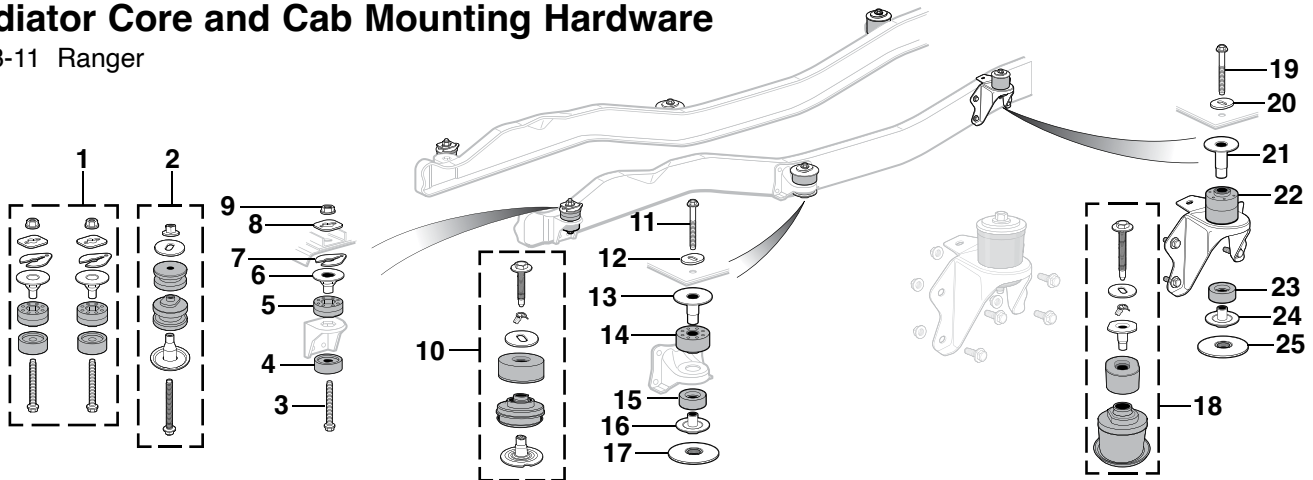

Rubber cab mount bushings have a soft and forgiving ride, but they will crush, harden and crack over time. These polyurethane bushings are specially formulated to be more durable and last much longer than rubber mounts. Order today!

Steel Body Panels and What to Expect

All sheet metal is inspected before it is shipped and careful steps are taken to package parts so there is no damage during shipping. Due to the nature of the product, sheet metal is easily damaged and scratches, dents, dings and other imperfections are normal and not considered damaged. These kinds of imperfections should be expected and can be easily fixed during installation and the paint preparation, sanding and priming stages of your restoration. It is recommended you inspect all sheet metal that is delivered before the delivery driver leaves. Test fitting of all panels before installation is recommended and the use of alignment shims and other adjustments during the install may be required.

* Or ** after the sell price means your order will incur an Oversize Part Charge for each oversized part. * Means extra charge will be \$20. ** Means extra charge will be \$50. Due to packing and/or transportation requirements, please allow additional time for delivery. Oversized Parts are not available for air delivery.

POR-15 Restoration Products

POR-15 is a high-performance rust preventative black paint designed to extend the life of new and rusted metal surfaces. It dries to a rock-hard, non-porous finish that will not rust, chip, crack or peel.

Dry Time Accelerator reduces the cure time of POR-15 by 30-50% without affecting the final physical properties of the paint. One 8 ounce bottle treats 64 pints or 32 quarts of POR-15.

Dries in 2 to 5 hours; body fillers and paint can be applied over POR-15. For maximum effectiveness, degrease metal surfaces with Cleaner Degreaser, then prime with Metal-Prep.

Approximate product coverage:
1 pint = 48 sq. ft.; 1 quart = 96 sq. ft.

PART	DESCRIPTION	PRICE
37-8411-F	POR-15 SEMI-GLOSS-1 PINT	\$43.95
37-8412-F	POR-15 SEMI-GLOSS-1 QUART	\$66.95
37-8408-F	POR-15 GLOSS-1 PINT	\$41.88
37-8409-F	POR-15 GLOSS-1 QUART	\$63.89
37-8418-F	DRY TIME ACCELERATOR	\$34.05

High Temp Paint is an extreme temperature finish that maintains color without burning off or discoloring on manifolds and headers. Withstands high temperatures up to 1,200°F and resists cracking, chipping and peeling. It is weather-, salt- and moisture-resistant. Available in gray or aluminum color; can be brushed or sprayed on. Recommend sandblasting for optimal surface preparation.

PART	DESCRIPTION	PRICE
37-8484-F	HIGH TEMP PAINT-GRAY 8 OZ	\$25.51
37-8485-F	HIGH TEMP PAINT-ALUM 8 OZ	\$25.51

Approximate coverage: 8 oz. covers a set of big block V8 headers with two coats.

Metal-Prep provides adhesion for POR-15 on any metal surface. Gently etches metal, neutralizes rust and creates an ideal anchor for coatings such as POR-15, while leaving a zinc phosphate finish to ensure chemical bonding of paint and steel. Metal-Prep must be used on galvanized metal, aluminum, stainless steel and smooth, polished or new metal surfaces prior to applying POR-15. Metal-Prep is water-based so it is not caustic, corrosive, toxic or flammable.

PART	DESCRIPTION	PRICE
37-8415-F	METAL-PREP 1 QUART	\$22.14
37-8416-F	METAL-PREP 1 GALLON	\$44.74

Cleaner Degreaser cleans and degreases in one application without messy residues, noxious fumes or flammable solvents. Removes grease, oil, mildew, algae, musty odors, soap films and wax from canvas, vinyl, plastics, nylon, wood, fiberglass and all metal surfaces.

Cleaner Degreaser should be used as a surface prep prior to using Metal-Prep and POR-15.

PART	DESCRIPTION	PRICE
37-8413-F	CLEANER DEGREASER 1 QUART	\$14.67
37-8414-F	CLEANER DEGREASER 1 GALLON	\$29.95

POR-15 Self Etch Primer is a quick drying and easy-to-apply coating which enables a restorer to quickly topcoat POR-15 Rust Preventive Coating and other basecoats. You can even topcoat POR-15 that's been in place for months or years. This Self Etch Primer is NOT a high-build primer, it can be sprayed on almost any painted surface and can be top coated in 15 - 30 minutes. It bonds incredibly well to POR-15 Rust Preventive Coating, and all topcoats bond incredibly well to POR-15 Self Etch Primer. It can be sanded lightly, and, if desired, multiple coats may be applied.

PART	DESCRIPTION	PRICE
37-8401-F	SELF ETCH PRIMER-GRAY	\$39.15

POR-15 Top Coat can be applied directly to a clean prepped metal surface, but when used as a top coat over POR-15 Rust Preventive Coating it provides the toughest, most permanent protection against rust and corrosion. It has exceptional long-term gloss and color retention when exposed to sunlight and the elements, non-porous, extremely scratch and chip resistant, won't crack, peel or chip. Can be applied directly to metal substrates, with no need for a primer or undercoat, and is formulated to form a robust barrier that sheds moisture.

37-8402-F

37-8403-F

37-8404-F

Chassis Black has a semi-gloss appearance. For maximum durability Chassis Black should be clear coated.

PART	DESCRIPTION	PRICE
37-8402-F	TOP COAT-CLEAR	\$28.39
37-8403-F	TOP COAT-GLOSS BLACK	\$28.39
37-8404-F	TOP COAT-CHASSIS BLACK	\$28.39

Bed Liner is a water-based, rubberized coating ideal for protecting truck beds, and all other metal, aluminum, fiberglass and wood surfaces exposed to impacts and scuffs. It is UV stable and offers superior adhesion, impact resistance and flexibility. Features a textured semi-gloss black finish for good looks. Prior to application, surfaces should be degreased with Cleaner Degreaser and metal surfaces should be treated with Metal-Prep. Bed Liner can be applied over POR-15.

Shortbed trucks - 1 gallon for two coats on bed floor, sides and tailgate. Longbed trucks need an additional quart.

Approximate product coverage:
1 quart = 25-30 sq. ft.; 1 gallon = 100-120 sq. ft.

PART	DESCRIPTION	PRICE
37-8480-F	BED LINER 1 QUART	\$37.94
37-8481-F	BED LINER 1 GALLON	\$142.96

Fuel Tank Sealer coats the inside of your tank to stop rust and seal pinholes and weld seams. It's a non-porous, flexible film that is resistant to all fuels, alcohols and fuel additives. This environmentally safe sealer does not contain the harmful chemical Methyl Ethyl Ketone (MEK) and is non-flammable. Cleaner Degreaser and Metal-Prep must be used to prep fuel tank prior to using fuel tank sealer.

Approximate product coverage:
1 pint = to 12.5 gal tank; 1 quart = to 25 gal tank

PART	DESCRIPTION	PRICE
37-8488-F	FUEL TANK SEALER 1 PINT	\$31.44
37-8489-F	FUEL TANK SEALER 1 QUART	\$54.60

POR-15 Stop Rust Kit is designed to stop and/or prevent rust on metal surfaces and ensures the best results when applying POR-15 Rust Preventive Coating. The kit contains everything you need for the 3-step process, 8 ounce bottle of POR-15 Cleaner Degreaser, 8 ounce bottle of POR-15 Metal-Prep, 4 ounce can of POR-15 Gloss Black, two paint brushes, 1 pair of latex gloves, and detailed instructions and tips. The kit is ideal for small projects such as sub-frames, axle replacements, control arms, brake shields and much more! There is enough material in this kit to cover a 6 sq. ft. area with two coats.

PART	DESCRIPTION	PRICE
37-8405-F	STOP RUST KIT	\$27.84

3-in-1 Truck Ties

Tested to -20°F and 165°F, these 3-in-1 Truck Ties are made in the USA from durable nylon plastic and are designed to fit into the stake pockets of your truck in three different ways: by installing with the ring side facing the truck bed so multiple cargo straps can be used; with the cleat side facing the truck bed to keep tension in the rope each time it is looped around the tie; or by covering the load with a tarp over the stake pockets and inserting the truck ties into the stake

pockets over the tarp (rated for highway speeds).

Ties can be installed and removed with no drilling or modifications necessary.

Steel Body Panels and What to Expect

All sheet metal is inspected before it is shipped and careful steps are taken to package parts so there is no damage during shipping. Due to the nature of the product, sheet metal is easily damaged and scratches, dents, dings and other imperfections are normal and not considered damaged. These kinds of imperfections should be expected and can be easily fixed during installation and the paint preparation, sanding and priming stages of your restoration. It is recommended you inspect all sheet metal that is delivered before the delivery driver leaves. Test fitting of all panels before installation is recommended and the use of alignment shims and other adjustments during the install may be required.

-T after a part number means that part must be shipped Truck Freight. An additional \$150.00 will be charged to your order for delivery in the 48 contiguous United States. Orders outside of the 48 states will be quoted. Additional delivery time required.

Flexy-Flares™ ... To Cover Those Wide Tires

Sold as Set of 4

50-5191

Flexy-Flares™ provide protection from mud, dirt, gravel and salt and are a necessity in many states where wide tires must be covered by a fender. Constructed from EDPM synthetic rubber, they won't crack, peel or droop in extreme temperatures. These heavy-duty flares use a wire insert on outer edge for extra strength and added rigidity, and the built-in curvature allows the flare to fit the fenderwell without wrinkles or buckling. Flexy-Flares™ extend your fenders 3" and come with hardware packs for easy installation. **Set of 4**

Window Installation Tips:

Fit your new window rubber to your cab first, then install the window glass.

Use a rubber friendly lubricant such as WD40 and the Windshield Stick (#38-0796-F) to ease installation and avoid damaging your window rubber.

Window rubber shrinks; your new window rubber may appear slightly larger than the original prior to installation.

SHADED Windshield has a full light green tint with a dark band at the top of glass.

Windshield Stick A glass installer's most useful tool! Can be used to install or remove windows or window rubber. This plastic tool measures 8" in length for an easy grip.

PART	DESCRIPTION	PRICE
38-0796-F	WINDSHIELD STICK	\$.99

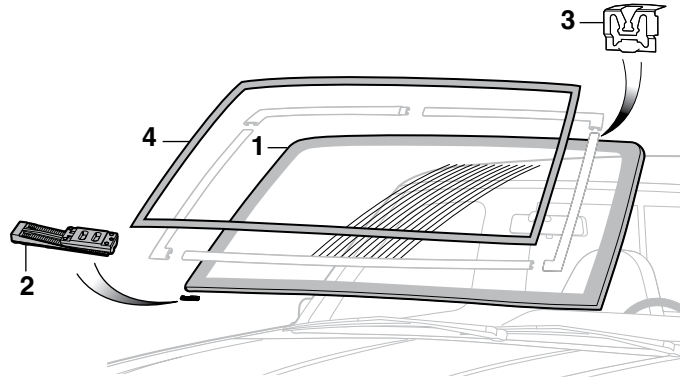

Windshield and Glass Sealant is a silicone sealant for windshields, windows and other glass. Flows into leaks like water and dries to form a flexible, tough, clear seal that is resistant to extreme temperatures, vibration and most chemicals.

PART	DESCRIPTION	PRICE
38-0783-F	GLASS SEALANT 1.5 OZ TUBE	\$5.95

Front Bumper Guards ... Absorb Impact !

These massive Front Bumper Guards are chrome plated and have 3/4" thick rubber faces for absorbing impact.

They are made from heavy gauge steel with an automotive spec dual nickel chrome surface.

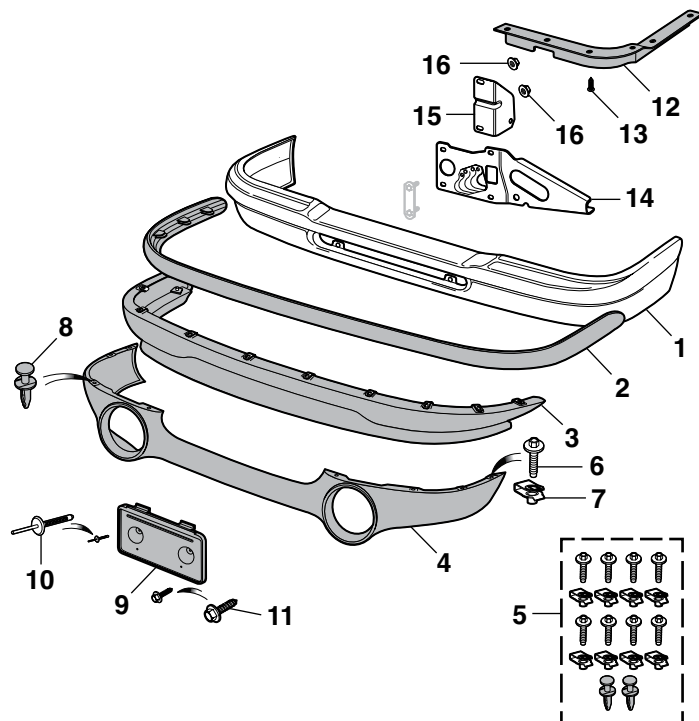

Custom clamp-on installation gives the bumper guards a contoured look that will fit your truck.

"B" Fits Sliding Rear Windows listed on left only.

Tuff Truck Bag

Tuff Truck Bag is heavy-duty to withstand the elements for all-season cargo protection yet lightweight and collapsible to allow for easy storage when not in use. Tuff Truck Bag can be set up and loaded into any truck bed within minutes, unlike the time required for a camper shell or tonneau cover installation.

- Made from weatherproof, waterproof, non-breathable PVC material with heat fusion epoxy sealed seams along all edges.
- Heavy-duty, commercial-grade zipper and waterproof PVC triple-fold flap that covers the zipper.
- Heavy-duty metal rings in all four bag corners (top and bottom) to retain the bag to the truck.
- Includes storage tote bag and four adjustable bungee cords.
- Provides 26 cubic feet (40"x50"x22") of waterproof storage for any truck bed.
- Can be used alone or in addition to existing storage boxes.

PART	DESCRIPTION	REQD	PRICE
38-3058-F	TUFF TRUCK BAG-BLACK	(1)	\$164.95

Rear Step Bumper OE Style

1993-11 Ranger Models with Covered Hitch Plate

OE Style Replacement Rear Bumpers are made from die-formed construction and match the original rear bumper from the hitch assembly and step pad design to the lighting assembly. Meets all your

replacement needs and includes OE style brackets and necessary mounting hardware. Tested to maximum 350 lbs. tongue weight and 3,500 lbs. trailer weight. Do not exceed truck manufacturer's recommended towing capacity.

Chrome Rear Step Bumpers ... Style and Utility All in One

1983-11 Ranger

Chrome Rear Step Bumpers give your truck the ability to tow up to 300 pounds tongue weight and 3,500 pounds trailer weight. These bumpers offer the ease of bolt-on installation, the convenience of a step and come complete with rear license plate lamps. Do not exceed truck manufacturer's recommended towing capacity.

A Bumper Mounting Kit #29-0050-F is required when installing these rear bumpers.

Chrome Rear Step Bumper - Diamond Tread

This traditional utility bumper features a classic embossed steel top plate on a stylish and reliable step bumper.

PART	DESCRIPTION	APPLICATION	REQD	PRICE
29-5285	CHROME STEP BUMPER-DIAMOND TREAD	STYLESIDE 83-11	(1)	\$333.95*
29-0050-F	BUMPER MOUNTING KIT	STYLESIDE 83-11	(1)	\$29.95

Chrome Rear Step Bumper - Polymer Pad

Classic style rear step bumper features a step pad made from molded polymer to protect the bumper from scratches. The grid pattern adds an excellent anti-skid surface for sure footing while loading and unloading.

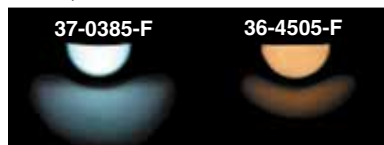

PART	DESCRIPTION	APPLICATION	REQD	PRICE
29-5289	CHROME STEP BUMPER W/STEP PAD	STYLESIDE 83-11	(1)	\$329.95*
29-0050-F	BUMPER MOUNTING KIT	STYLESIDE 83-11	(1)	\$29.95

* Or ** after the sell price means your order will incur an Oversize Part Charge for each oversized part. * Means extra charge will be \$20. ** Means extra charge will be \$50. Due to packing and/or transportation requirements, please allow additional time for delivery. Oversized Parts are not available for air delivery.

Replacement License Plate Lamp Sets

Fits Bumpers listed above only.

36-4505-F set includes 2 lamps, 2 quick splice connectors, 2 license plate grommets and 2 license plate screws.

PART	DESCRIPTION	APPLICATION	REQD	PRICE
37-0385-F	LED LICENSE LAMP SET		(1)	\$19.95
36-4505-F	REPLACEMENT LICENSE LAMP SET		(1)	\$8.95
36-0222-F	REPLACEMENT BULB	FITS 36-4505-F LAMP	(2)	\$.85

Chrome Rear Step Bumper - Star-Lite

This Chrome Rear Star-Lite Step Bumper has a diamond tread on top for sure footing when bumper is used as a step. The internal mounted Backup Lights look great and make it safer to back up truck by illuminating a larger area, making it easier to see hazards.

PART	DESCRIPTION	APPLICATION	REQD	PRICE
29-5287	CHROME STEP BUMPER-STAR-LITE	STYLESIDE 83-11	(1)	\$299.95*
29-0050-F	BUMPER MOUNTING KIT	STYLESIDE 83-11	(1)	\$29.95

Replacement Backup Light

Lights can be easily spliced into the existing backup light wires so they will come on each time you shift into reverse. The additional light is excellent for hooking up trailers or boats in the dark since they are located closer to the hitch area.

However, in some cases factory wiring may not transfer enough power to properly illuminate the lights. For full illumination install a Backup Light Wiring Kit (sold separately #36-0735-F).

PART	DESCRIPTION	APPLICATION	REQD	PRICE
36-4416-F	REPLACEMENT BACKUP LIGHT-W/LENS		(2)	\$9.95
36-4206-F	REPLACEMENT LENS	FITS 36-4416-F LIGHT	(2)	\$2.45
36-0227-F	REPLACEMENT BULB	FITS 36-4416-F LIGHT	(2)	\$1.25

Backup Light Wiring Kit

The wiring kit includes a separate switch, enabling you to turn the lights on and off, eliminating the need and danger of having to leave the vehicle in reverse to utilize the lights.

Backup Wiring Kit #36-0735-F Includes:

- Illuminated rocker switch
- 30 amp relay
- 15 amp in-line fuse
- Connectors
- Wires

PART	DESCRIPTION	APPLICATION	REQD	PRICE
36-0735-F	BACKUP LIGHT WIRING KIT	RANGER 83-11	(1)	\$25.95

Stainless Steel Threshold Plate Set and Aluminum Door Sill Plates

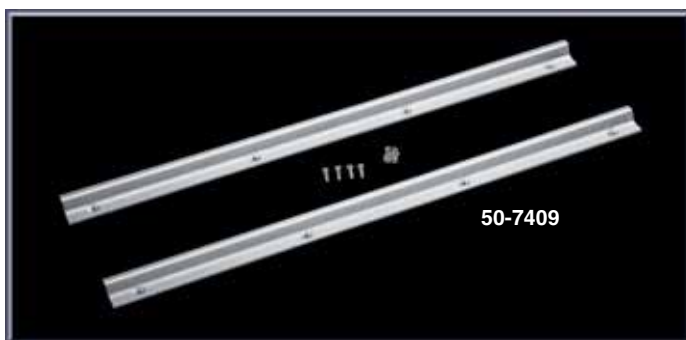

50-7409 Door Sill Plate and 50-7411 Threshold Plate

This rugged Stainless Steel Threshold Plate Set and Aluminum Door Sill Plates protect your thresholds from scuffs and scrapes. Threshold Plate Set is a great complement to running boards. Sold as a set of two.

Highliner with Built-In Speakers For a Stereo System Above the Rest

Highliner uses four built-in, uniquely placed speakers which guarantee true stereo separation as well as less distortion and ensures clarity at lower volume levels by neutralizing the echo effect found in most pickups. Radio console is designed to accept optional aftermarket stereo cassette players, CD players or CB radios.

Highliner is manufactured from high-impact, leather-grained, black ABS plastic and can be painted to match the color of the interior. It installs easily and includes four 4" air suspension speakers with a 5.8 ounce magnet, which handles up to 10 watts of power. Features high-temperature resistant voice coils and comes with foam speaker baffle and suppression pads, antenna extension cable, bezel plate, installation hardware and instructions.

Fits Standard Cab Models Only.

ABS Plastic Headliners ... The Long-Term Solution to Sagging Headliners

1993-97 Ranger

50-8825-GR

- Easy Installation
- No Special Tools
- Instructions Included

The original headliners are made of pressed foam board. Over time the headlining material separates from the foam board and falls down with the foam board usually deteriorated beyond repair. These ABS plastic-backed headliners are a simple, cost-effective, long-term solution to this problem.

Headliners are vacuum-formed ABS plastic covered with foam-backed cloth materials in colors that fit and function as original.

Full Range Speaker Set

Full Range Speaker Set is the perfect upgrade to add more thump behind the seat. Speaker enclosure is wedge shaped, made from MDF and protected by durable carpet. Enclosures are a mirror image of each other with each box containing one 8" woofer with port and a soft dome tweeter for 175 watts power handling, 60-22,000 Hz frequency response and 4 ohms impedance.

Acoustic batting is used to increase sound quality and performance. Chrome spring loaded terminals for easy wire installation. Dimensions: 16-1/4" wide, 13-1/2" high, 7-1/2" deep at bottom, 3-3/4" deep at top.

Hand Riveter Set ... Makes Rivet Installation Easy

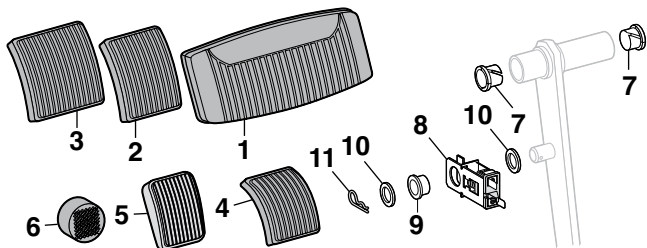

The Hand Riveter Set works great for body clips, door components, ID plates and sheet metal repairs. Comes with four nosepieces (3/32", 1/8", 5/32" and 3/16") and a wrench inside the gun's handle. 60 blind rivets included.

The Heavy-Duty Hand Riveter Set features extra long handles to give you more leverage setting rivets. A collection bottle keeps the workplace safe and clean. Includes 3/32", 1/8", 5/32", 3/16" nosepieces, plus 1/4" for larger projects like installing brackets and window regulators. Comes with a wrench and 50 blind rivets.

Molded Carpet ... Fits and Looks Like Original

Cut pile carpet is molded from the original floor pan for a perfect fit that covers the entire floor. It's made from 100% nylon with an OE type heel pad. The heavy 36 ounce jute padding under the front passenger area helps insulate against heat and reduces road noise.

Color coordinated original style heel pad is attached and an easy-to-install dimmer switch grommet is also included. The color coordinated vinyl binding helps prevent fraying and adds the finishing touch.

Shiftrod and Steering Column Holes are Not Pre-cut

These mats protect your carpets from the everyday wear and tear as well as mud, sand, snow and the sun which cause your carpet to fade. Floor mats are made from 100% nylon, trimmed with color coordinated vinyl binding and feature a grip lock non-skid backing to help them stay in place.

Multi-Purpose Heat and Sound Insulation

Uses Space Age technology to insulate against heat, cold and noise under hoods, carpeting, headliners, door panels, firewalls or seats as well as other household uses. This 4-foot x 6-foot sheet is made of 3/8" sound deadening fiber padding. Highly reflective aluminum is bonded on one side to achieve 97% reflection of radiant heat. Use this Multi-Purpose Insulation with Sound Control Mat for maximum sound deadening. Call or go online and order both today!

Use #38-0798-F Spray Adhesive and #38-0716-F Aluminum Tape or #42-0759 Weatherstrip Adhesive to easily install Insulation Material.

1/8" Thick Molded Industrial Polyvinyl (MIP) Floor Mats

Heavy-duty Molded Industrial Polyvinyl (MIP) Floor Mats are made of durable 1/8" thick industrial Polyvinyl and are resistant to moisture and temperature; therefore, they will not dry rot or crack and last longer than rubber. They are vacuum molded from the original floor pan to cover the entire floor, making installation easy.

Mats are easy to clean and protect your interior from water, snow, mud and most chemicals. The MIP Floor Mat includes pre-cut 36 ounce jute padding under the passenger areas to provide a higher level of insulation against heat, cold and road noise.

Installation Tip: Allow mats to lay unfolded for 48 hours at room temperature of 72° or more to help remove creases caused by packing. Test fit prior to making any permanent installations (some trimming may be necessary).

Floor Liners ... Tough and Durable Protection for Your Truck

Floor Liners protect your truck's carpet from water, snow, mud and most chemicals. Molded for an exact fit from a patented rubberized thermo-plastic material, guaranteed not to crack or break. Raised outer rim traps up to 2 gallons of liquid. Driver's side mat is equipped with an extra thick heel pad to offer heel protection and guard against wear in this high use area.

Floor mats conform to the shape of your vehicle's floor and have an anti-slip back. Cleanup is easy, just wipe up small areas with a cloth or remove the mat and hose it off.

38-2830-F	INSULATION MATERIAL	3FT X 6FT ROLL CUT TO FIT	\$11.95

Sound Control Mat

Sound Control Mat reduces noise, vibration and heat created from the engine, road and structure of your vehicle. Can be applied to any interior surface area; cover as little as 25% of an area for a noticeable reduction. Each 2mm thick sheet consists of butyl rubber with a top layer of heat resistant aluminum that is easy to cut and conform to contoured surfaces, just peel and stick. Available in silver and black, each sheet measures 21" x 29".

3-in-1 Sound Control Mat combines the vibration absorption and heat resistant capabilities of the 2mm thick Sound Control Mat with an additional 5mm thick layer of foam for more efficient sound deadening. This makes it our most effective product for eliminating road noise and vibrations in your truck. Each sheet is 7mm thick and measures 19" x 31".

Retro Floor Mats

Protect your truck's carpet with these Retro Rubber Floor Mats from Dojamat. Patterned after the very popular floor mats available in the '70s and '80s, they're the perfect final touch to your truck's interior.

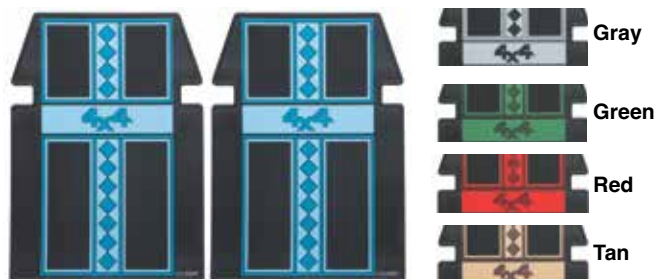

They are made from 100% premium grade durable black rubber, top and bottom. Retro rubber floor mats feature several gripping areas for non-slip fit.

Each set comes with two floor mats.

Dash Protector ... Prevents Fading and Cracking

Dash Protector eliminates dash replacement and provides preventative care for the undamaged dash. Made from soft, velvety velour that has special UV inhibitors to block the sun and resist shrinking and fading. They are custom cut to fit your dash, and have pre-cut allowances for defrost vents, which makes installation easy using self-adhesive Velcro tabs.

Now You Can Be Sure All Your Interior Colors Match

ColorBond permanently changes the color of your interior. Sprays on and dries to the touch in 45 seconds, forming a complete bond in 10 minutes. Original grain pattern is never altered or hidden, no matter how many times ColorBond is applied. Will not crack, flake, peel or rub off from solid or flexible materials because the color becomes part of the surface.

Satin Black
\$21.45

37-8362-F
Silver
\$21.45

ColorBond Exterior Trim Paint has all the innovative features of ColorBond Interior Paint but is specially formulated to provide a stronger, more durable bond for exterior trim use. Exterior Trim Paint delivers a superior finish to exterior trim plastics and painted metal trim including: bumpers, mirrors, fender flares, wiper arms and window trim. Each 12 ounce can covers 6 square feet. Use ColorBond Adhesion Promoter #37-8395-F prior to application for a long-lasting finish.

Spitshine Tire Black and Silver Rally Wheel Paint ... Bring Back the Shine

Before After

37-8370-F
\$21.45

37-8365-F
\$21.45

ColorBond Spitshine Tire Black is a specially formulated paint, not a clear silicone dressing, designed to restore a military shine to faded and scuffed tires for a minimum of two months. Spitshine is not greasy or tacky, so it won't attract unsightly dirt and dust. Each 12 ounce can is easy to apply; first, clean tires of any existing dressings, silicones and dirt with ColorBond Prep/Cleaner. Mask the wheel or rim and apply in light coats. Reapply Spitshine Tire Black if tires become scuffed.

Not for use on tires with white lettering or sidewalls.

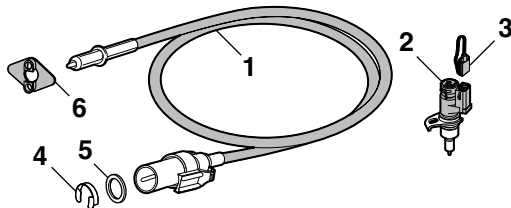

ColorBond Rally Wheel Paint is a specially formulated acrylic lacquer that provides a brilliant silver finish to the original rally wheels and withstands temperatures up to 250°F. Each 12 ounce can covers 6 square feet. ColorBond Prep/Cleaner should be used prior to applying ColorBond.

A-Pillar Gauge Pods

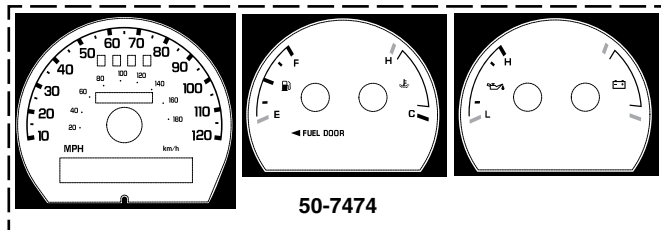

50-8790

Gauge Pillar Pods offer a unique mounting solution for 2-1/16" gauges. Each pod is custom molded for an exact fit using black ABS plastic that can be painted to match your interior.

Pillar Pods mount directly to the A-pillar without cutting. Gauges sold separately.

PART	DESCRIPTION	APPLICATION	REQD	PRICE
50-8790	GAUGE POD - DUAL	RANGER 93-02	(1)	\$53.95

White Face Gauge Overlays

White Face Gauge Overlays are computer printed on vinyl and pre-cut for a precise fit. They install easily over stock gauge faces without removing the gauge needles (except clock) and use the stock gauge lighting. No worries of broken needles or need for recalibrating gauges. Overlays will not wrinkle or bubble in hot or cold temperatures and can be removed with direct heat. Installation instructions included.

NotchHead Line Clamps

NotchHead Line Clamps organize both hard and soft lines and clamp them in place to keep from being chafed on sharp edges or crushed under moving components. Easily secure lines without marring paint. Can also be used as separators for running hoses in parallel by bolting two line clamps together. Flexible lines easily snap in for quick installation and mock-ups. Mounting hardware included in each kit.

3" Body Lift Kit ... Makes Room for Larger Tires

A Body Lift spaces the body away from the frame to make room for larger tires without altering the suspension. Body Lift Kit includes reinforced nylon spacers, compression tested to 50,000 psi, plated grade 5 hardware and steering shaft extension.

PART	DESCRIPTION	APPLICATION	REQD	PRICE
50-5450	3" BODY LIFT KIT "A"B"C"	RANGER 83-88	(1)	\$160.00
50-5451	3" BODY LIFT KIT "A"B"C"	RANGER 89-92	(1)	\$181.00
50-5452	3" BODY LIFT KIT "A"B"C"D"	RANGER 93-94	(1)	\$255.00
50-5454	3" BODY LIFT KIT "A"B"C"E"	RANGER 98-00	(1)	\$297.00
50-5455	3" BODY LIFT KIT "A"B"C"E"	RANGER 01-11	(1)	\$287.00
50-5465	MANUAL TRANS SHIFT EXTENSION	83-11	(1)	\$95.00

Note: "A" Body mount bushings must be drilled out to accept larger bolts.
 "B" Manual transmission models will require #50-5465 Shift Extension (Mazda transmission only).
 "C" Steering extension is included in this kit.
 "D" Front bumper brackets are included in this kit.
 "E" Front and rear bumper brackets are included in this kit.

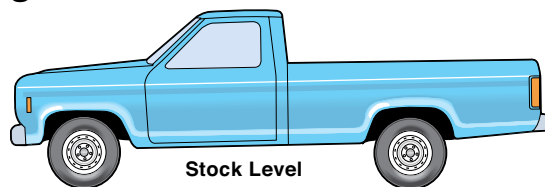

50-5450

Since the stock suspension is not affected, and larger tires are normally part of the plan, new shocks are recommended.

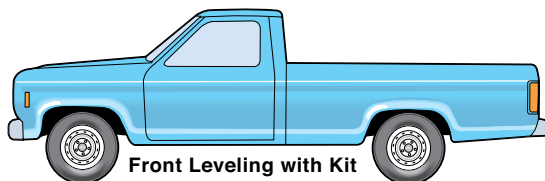

Front Leveling Kit ... For Better Looks and Larger Tires

1998-11 Ranger

Front Leveling Kit lifts the front of a truck to match the rear for an improved level height and look. Adding a Front Leveling Kit is inexpensive and gives the extra space needed to accommodate larger tires on a truck. A modest front lift still maintains the factory ride quality and won't affect steering or suspension. Quick and easy bolt-on installation; the kit is designed to work with the original suspension with no need to change other components. Allows installation of up to 32" tires.

Wheel Bearing Grease Packer

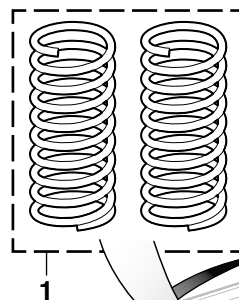

Wheel Bearing Grease Packer quickly flushes out old grease and repacks the bearings with less the mess. The Wheel Bearing Grease Packer works on bearings up to 3 1/2" outer diameter. The grease stays in the tool cavity, not on your hands. To pack a bearing, simply place the bearing on the piston, press down on the cap until the old grease is forced out and the new grease shows on top of the bearing.

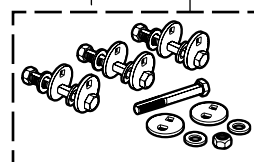

PART	DESCRIPTION	PRICE
45-0509	WHEEL BEARING GREASE PACKER	\$26.95

GR-2 Gas Shock Absorbers: Features lower pressure for riding comfort, with improved handling and response only gas shocks can provide at an economical price. The economical way to step up from hydraulic shocks to the quality ride and control of gas.

Gas-A-Just Shock Absorbers: Features higher gas pressure to provide unsurpassed control on even the most demanding roads. Eliminates the age old problem of performance fade by eliminating aeration and foaming, a problem with other shocks that use two-tube construction that allows air to mix with fluid.

Foam Steering Wheels ... For a Comfortable Grip

Steering Wheel Puller - See Page 72

38-1175-F

29-4772-F

Available in Silver or Black Finish

50-4782

These steering wheels with a 3-dimensional, hi-tech, dual plane, silver or black 4 spoke design offer a world-class look. Rim is covered with a specially formulated black foam for a comfortable grip. Wheel measures 13-1/2" in diameter with a 3" dish.

A Steering Wheel Installation Kit must be used to install Steering Wheels.

38-1049-F

38-1171-F

38-1167-F

Back View

38-1188-F

38-1129-F

These 14" diameter, 3 spoke steering wheels have a half-wrap design featuring a billet back with a wood or leather grained vinyl front. Facing ring is available in hand-rubbed wood or black leather grained vinyl.

Wood Steering Wheel has been stained to a rich mahogany color and urethane-coated for better heat resistance and long life. Leather Grained Vinyl Steering Wheels are available in matte black powder coat or high-polished finish. The one-piece billet backing ring has contoured finger notches.

Billet Horn Buttons include mounting hardware.

Each steering wheel requires a horn button and an installation kit; sold separately below. Horn buttons are available in black or polished finish. Installation kits are available in matte black steel (3-3/8" dish).

Heavy-Duty Steering Column Bearing and Retainer

1989-94 Ranger
1989-90 Bronco II

45-0808

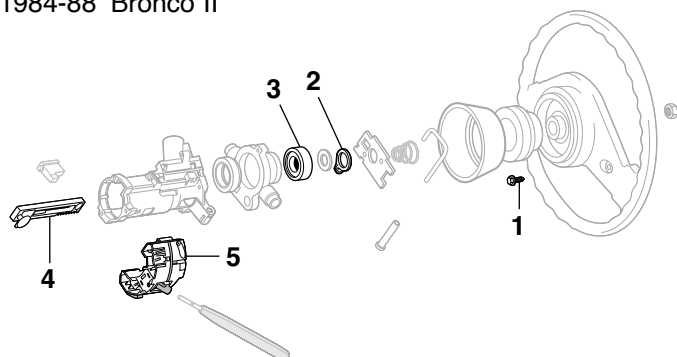

Replace the broken or worn-out plastic bushing in your steering column with this high-quality aluminum housing and press-fit sealed bearing.

Machined from a block of aluminum, this will help restore smooth steering and eliminate most steering wheel vibrations on your truck. Includes 1/4"-20 stainless mounting hardware for a finished look. Easy to install.

"B" Fits models with 10" brakes.

Brake Shoe Adjustment Tool

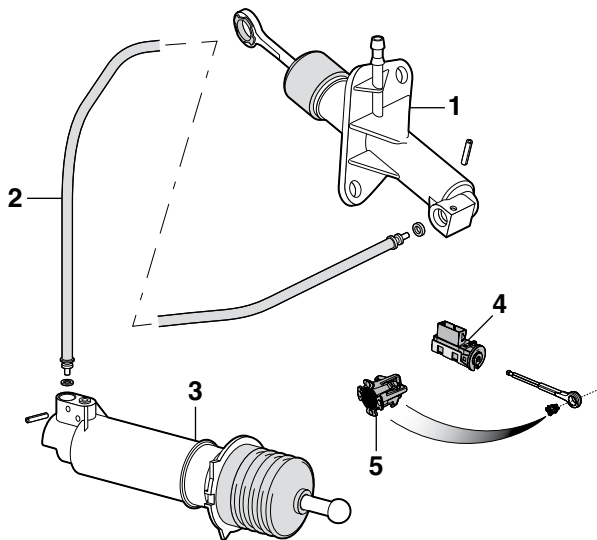

Brake Shoe Adjustment Tool adjusts the clearance between the brake drum and the brake shoe through the backing plate (providing the manufacturer has made provisions). Simply remove the rubber plug to access the star adjustment bar without having to remove the drum.

50-4202		ALIGNMENT TOOL W/DIESEL	RGR 83-84	(1)	\$2.95

Note: "A" The 1985-87 Rangers came with a two-piece style release bearing consisting of a short bearing and a steel piston or spacer. This two-piece style release bearing has been replaced by a new one-piece design that eliminates the need for the steel piston or spacer. When replacing the old two-piece style bearing, the piston or spacer must be removed from inside the concentric slave cylinder. If this is not done, the clutch finger will be overstroked and cause slippage and/or noise.

Transfer Case Motor

1990-03 Ranger
1990 Bronco II

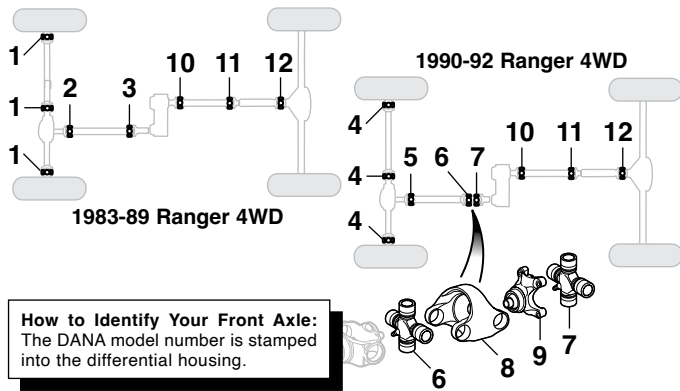

50-7020

Transfer Case Identification: All Transfer Cases have an assembly tag attached to their case. The tag may be a bolted, riveted or screwed on metal tag, or a stick-on paper tag. The Transfer Case must be identified by the assembly number listed on the tag.

Switch-Ball™ Set

37-7433-F

Switch-Ball™ Set - Constructed from premium grade steel with nickel-chrome plating, the Switch-Ball™ Set has an exclusive 'J' Groove design that ensures that the ball is installed on the shank and engaged by a coupler, making the hitching system safe and secure. Weight bearing capacity rests on shank to relieve stress away from the ball, thus freeing the coupler from friction and binding for a smoother and safer towing.

Change between three different trailer hitch ball sizes quickly and easily. No attachment pin to remove or tools required to switch ball sizes. Weight ratings for each hitch ball size are: 1-7/8" = 3,500 lbs., 2" = 6,000 lbs. and 2-5/16" = 8,000 lbs.

Harmonic Balancer Puller

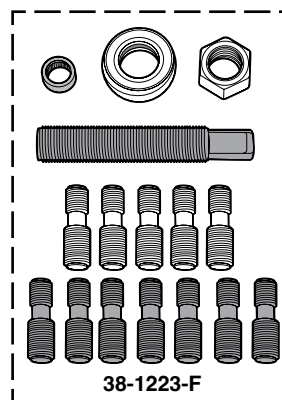

38-1222-F

Removes harmonic balancer from engine without risk of damage. Four-slot, heavy-duty yoke handles any pulling job. Extra-long center screw is machined for use with included adaptor tip that centers puller on crankshaft for quick and damage-free removal. Includes five sets of hardened, flange-head bolts in standard and metric thread sizes for most engines. Order today!

Disposable Black Nitrile Gloves

Disposable Black Nitrile Gloves are made from durable, powder-free 6 mil thick patented material for superior strength and tear-through resistance.

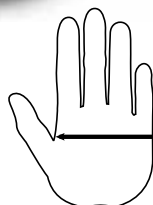

Gloves feature a fully textured finish for better grip with a two-ply construction that is tough enough to withstand exposure to grease, solvents and oil. Sold as a box of 100.

3-1/2" = Medium
4" = Large
4-1/2" = X-Large

EZ Oil Drain Valve

EZ Oil Drain Valve allows quick oil changes with little to no mess. Compact design has no lever to catch on obstacles. Adaptors are not required and easily installs with socket or wrench. Aluminum crush washer (included) ensures tight, leak-free seal.

Simple operation; push in cap, twist to the right and drain. Once drained, push in and twist to left to close. Spring-tensioned, double o-ring seal guarantees a long, leak-free life.

With Flo-Tek Aluminum Cylinder Heads, you no longer have to choose between performance, quality and price. Flo-Tek produces the most affordable high-performance cylinder heads on the market, and every aspect of their cylinder heads is designed with performance and quality in mind, including phosphorous bronze valve guides, high-quality valves with high-nickel valve seats, and premium springs. Flo-Tek aluminum cylinder head ends are already milled, drilled and tapped for accessories, so you can bolt on your head (not included) knowing you'll have maximum out-of-the-box performance.

Flo-Tek premium alloy castings are thoroughly inspected and assembled in the USA.

Turbo Mufflers ... Reduce Noise without Restricting Power

Turbo Mufflers are specially designed to reduce and control noise without excessively restricting power.

They are made from the finest quality materials and can be used as OE replacements as well as on custom exhaust systems.

36-6030-F

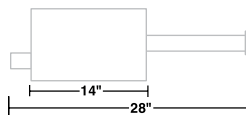

Turbo Mufflers have a galvanized, double wrapped muffler casing for maximum rust protection. Louvered baffles eliminate vibration and spun end caps provide a gas tight seal. Reverse flow design allows muffler to be inverted.

36-6040-F

Turbo Header Mufflers have the same features as Turbo Mufflers and they have a 3" 3-bolt flange to bolt-up to most headers.

Cat-Back Performance Dual Exhaust System with Resonator Tips

Exceptional Sound
with Increased
Horsepower

Cat-Back Exhaust Systems have a straight-through design that reduces back pressure for more low-end torque, increased horsepower and better fuel economy. Replaces the stock exhaust system from the catalytic converter back. Manufactured from 16-gauge, mandrel bent aluminized steel, increasing flow up to 20% more than stock. Exhaust systems have 3-1/2" diameter resonator tips that replace the original muffler. Easy bolt-on installation, no welding required. Hangers, fasteners and steel clamps are included. Exhaust exits the rear of truck.

50-1902

Replacement Resonator Tips

36-5557-F

36-5559-F

The 3-1/2" diameter resonator tips replace the original muffler and give your truck that deep performance tone without being too loud. Available in stainless steel angle tip or black powder coat blunt tip.

These are longbed systems; front extension pipes will need to be cut to fit shortbeds.

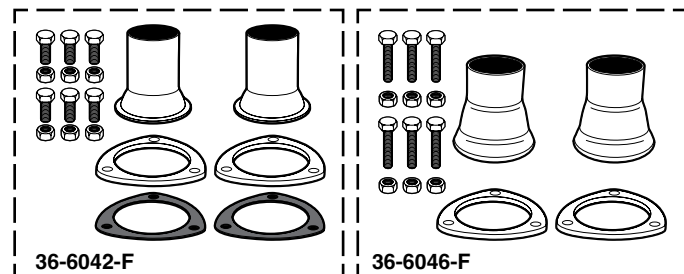

Available in black powder coat blunt tip or stainless steel angle tip.

Header Wrap

Increase performance by keeping hot exhaust gasses inside the headers for maximum velocity, improved exhaust scavenging and protecting sensitive engine components from high temperatures.

Header Wrap is able to withstand temperatures up to 1,200°F and is made from vermiculite-coated, textured fiberglass yarn woven into a strong, flexible wrap that can easily be cut with scissors.

Available in 25 or 50-foot rolls of 1" or 2" widths. Two 50-foot rolls of 2" wide are generally enough to wrap standard V8 headers. Stainless steel locking cable ties keep the wrap securely in place. *Header Wrap can void warranty of some headers. Check header manufacturer's warranty before installing.*

Headers with tight bends should use 1" wide wrap for coverage. Overlap wrap 1/4" for optimum heat dissipation.

PART	DESCRIPTION	APPLICATION	PRICE
36-6181-F	HEADER WRAP	1" X 25'	\$10.95
36-6182-F	HEADER WRAP	1" X 50'	\$20.95

Thermal Spark Plug Boot Sleeve Set

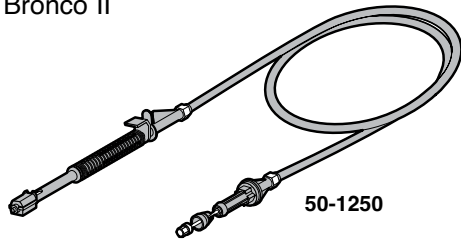

Thermal Spark Plug Boot Sleeves provide thermal protection against hot exhaust headers. Double-layer gray fiberglass sleeves are non-conductive and can directly contact hot surfaces without harmful effects. Chemically-resistant 3/4" diameter braided sleeves easily slip over any spark plug wire and boot configuration to protect from temperatures up to 1,200°F. Call or go online and order yours today!

Rubber Vacuum Caps

30-1436-F

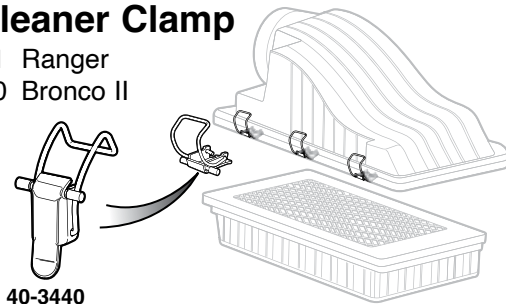

These Rubber Vacuum Caps are great for blocking off unused vacuum ports and lines, to prevent leaks and poor engine performance. Excellent for capping lines and hoses while testing carburetors, emission control systems, vacuum lines and more.

Caps are made from durable heat-resistant black rubber. Assortment contains one each of the following sizes: 5/32", 7/32", 5/16", 3/8" and two each of 3/16" and 1/4".

Electric Cooling Fan Kit Keeps Your Engine Cool

38-4895-F

50-4766

38-4894-F

38-4896-F

Electric Cooling Fan and high-performance motor give maximum air delivery while working off the electrical system. Fan blade and shroud are constructed of glass-filled nylon for strength and durability; includes mounting hardware as well as easy-to-follow instructions. **IMPROVES GAS MILEAGE**

Fan Mounting Bracket Kit is recommended for optimum mounting strength and performance on all electric cooling fans.

#38-4894-F Adjustable Thermostat, sold separately, operates fan only when needed. Adjustable Thermostat is adjustable from 150°-240°F.

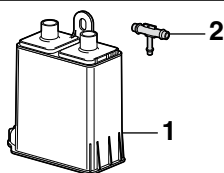

Quick Re-Installation Kit contains everything needed to reinstall cooling fan if removed.

Universal Wiring Harness ... Finish the Job Right the First Time

Universal Wiring Harness from Painless Wiring is a comprehensive approach to rewiring your truck's electrical system. Factory assembled harness features a prewired fuse block with modern blade-type fuses and built-in additional circuits. Wiring Harnesses are available in 21-circuit and 28-circuit assemblies.

High quality terminals and color coded and labeled GXL/XLPE wire (cross-linked polyethylene, -60°F to 275°F abrasion resistant) are used. Includes conventional and 1-wire alternator leads. Terminals are provided to make adapting to any aftermarket steering column easier. Standard features include starter wiring, tachometer lead, single headlight plugs, third brake light, horn relay, turn signal and 4-way hazard flashers, fuses, terminal ends and wire ties. Easy-to-follow instructions and schematics are included.

21-Circuit Wiring Harness includes air conditioning/heat, brake lights, cooling fan, courtesy lights, gauges/instruments, hazard, headlights, horn, ignition coil, radio, turn signal and wiper.

Wire Terminal Extractor Tools

This Wire Terminal Tool Kit is designed to release and extract wires from terminals without damage. The single blades have a bevel ground onto the end for working on small terminals found on newer vehicles. Red is specially designed for Pak-Con and WeatherPak terminals. Silver has prongs to depress the 'barbs' on conventional terminals. The handle slips over the probes to protect your hand as well as provide extra leverage. This complete kit comes in a sturdy blow-molded case for protection and long life and is a must-have for any do-it-yourselfer's toolbox.

42-1399	WIRE TERMINAL TOOL KIT	UNIVERSAL	(1)	\$53.95

Split Braid Flex Loom and Wire Loom Installation Tool

Unique black flexible braided construction features a 25% edge overlap that will allow for the sharpest of bends without distorting or splitting open. Lateral split design of the flex loom allows for easy installation of multiple wires. Self-wrapping feature ensures the flex loom will return to its original size and shape without the need to use fasteners or tape. Protect your vehicle's wiring, cables, hoses and tubing from unnecessary wear while adding a clean look. Available in three sizes: 1/4", 1/2" or 3/4" diameter.

36-2600-F

Wire Loom Installation Tool makes feeding wires into split wire looms a snap. Insert the wiring into the channel of the tool, rotate the handle to lock wiring in place and insert the loom separator into the split loom. Gently pull the tool through the loom while holding onto the wires. Available in three convenient sizes.

WeatherPak Wire Extractor Tools

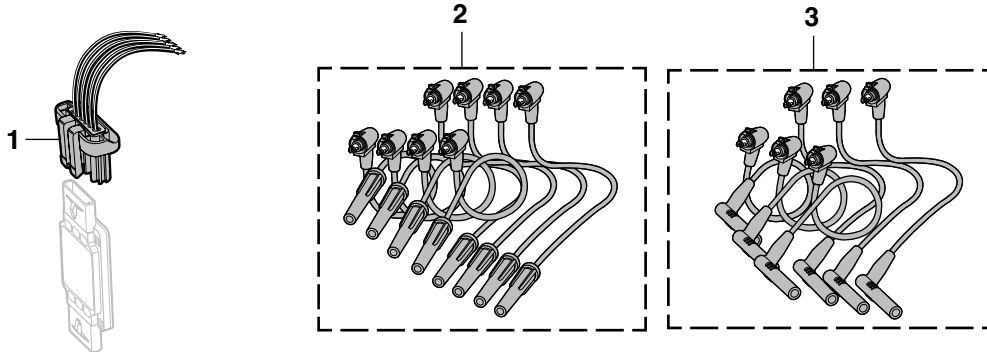

These WeatherPak Wire Extractor Tools will save you time and hassle when servicing your vehicle's wiring system. Tools are engineered to easily release and remove OEM terminals from their WeatherPak housings, as well as releasing the lock tab on Packard 56 and Pak-Con terminals. This 3-piece set comes with a narrow pick (.05" wide), wide pick (.09") and tubular-shaped extraction tool. Handles are color-coded for easy identification.

Amplified Hide-Away Antenna

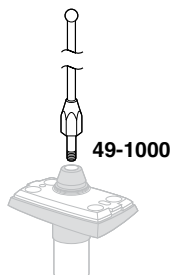

Amplified Hide-Away Antenna allows you to get AM/FM reception without having to use standard fender-mount or window antenna. Features active magnetic field circuitry for enhanced radio reception and 105" cable allows installation almost anywhere in your vehicle. Connects to standard antenna plug and radio's power antenna wire (if equipped) or a switched 12V positive power source. Never worry about stolen or damaged antenna again.

Universal Windshield Washer Pump

This pump adapts to any 12-volt vehicle and installs in minutes with simple household tools.

Features a gear-driven positive replacement pump to ensure a constant spray under all conditions. All necessary parts and instructions are included with pump.

PART	DESCRIPTION	PRICE
36-4081-F	UNIVERSAL WASHER PUMP	\$11.95

Heated Windshield Washer Kit

Heat your washer fluid to a temperature of 125-135°F for quick, effortless removal of frost, snow and ice this winter. Provides improved visibility for all driving conditions, while extending the service life of your windshield wipers by minimizing unnecessary wear. Ensures clog-free wiper spray nozzles for consistent spray pattern. Can also be used year-round to remove bird droppings, bugs, grime, road film and streaks.

Installs inline between windshield washer reservoir and spray nozzles. Connects directly to your battery with the included ground cable and fused power cable. Order yours today and see what a difference the Heated Windshield Washer Kit can make! Kit includes mounting bracket, hardware and instructions.

Electronic Musical Horn Plays 46 Sounds

3 Modes ... Animal, Alarm or Music ...
46 Different Sounds

Electronic Musical Horn plugs into a cigarette lighter or power point to play sound three times and stop automatically or can be used as a loudspeaker with included microphone. Auxiliary input allows you to play music from your MP3 player or iPod. Command module is 7" wide by 3" high and mounts using included adhesive backed hook and loop patches. No drilling is required.

Adjustable rotary on/off volume control allows for easy sound level control, five bright LED lights on control module instantly indicate system mode and a 4" diameter weatherproof horn mounts under the hood. For 12 volt negative ground systems.

PART	DESCRIPTION	PRICE
38-1503-F	ELECTRONIC MUSICAL HORN	\$29.95

8" Powered Subwoofer**1-Year Warranty**

This 8-inch powered subwoofer is housed in a rigid die-cast aluminum chassis for better heat dissipation and powered by a built-in 100-watt amplifier with 200 watts max output. Has frequency response of 35-100Hz and total harmonic distortion of 0.08%.

Features include a fully adjustable crossover network between 50-100Hz, independent gain (volume) and 0 or 180-degree phase control. Subwoofer can be connected to radio with low level input RCA connectors or wired directly to radio through the high level input using supplied wiring harness. Includes mounting brackets, wiring harness and wired remote bass control. Compact 9" x 2.75" x 13.75" size weighing 9 lbs.

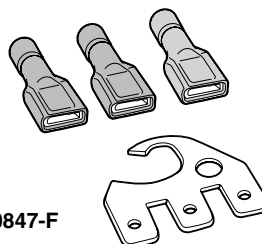

PART	DESCRIPTION	APPLICATION	PRICE

Ground Straps

Many electrical problems can be traced to poor engine and body ground. Protect yourself from these problems by installing a ground strap between the engine and frame of your truck, this will ensure you have a proper ground for your coil, spark plugs and computer control module. For complete protection, add a ground strap from the frame to the body. Straps are made of tin coated stranded copper braid for durability and are simple to install.

1983-91 Ranger
1984-90 Bronco II

More amperage is needed to run today's modern accessories. High amp 1-wire alternators are a bolt-on upgrade for original alternator and will give your truck the charging power it needs.

Features include high output with excellent idle performance; hand-wound, custom-designed stators; gold-plated battery post for better electrical connections; and "Proof of Performance" tag.

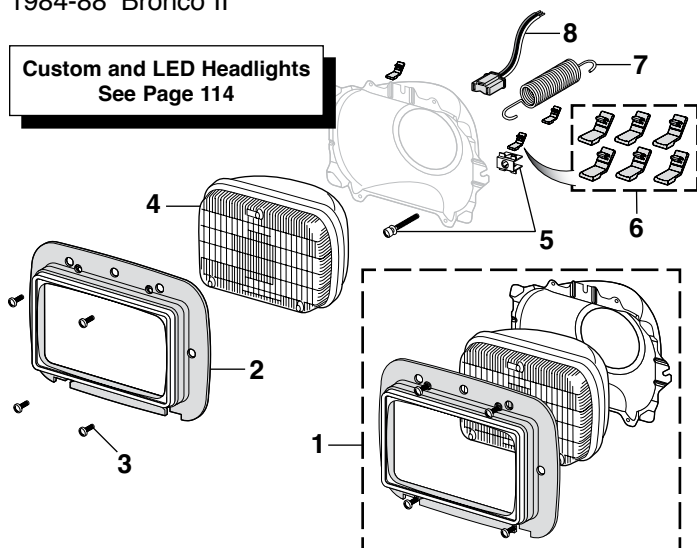

PART	DESCRIPTION	AMPERAGE	WIRE TYPE	APPLICATION	REQD	PRICE
47-0137	ALTERNATOR 100AMP	"A"	4&6 CYL	83-89	(1)	\$179.95

Headlight Warning Buzzer

**Heavy-Duty
Headlight Harness
See Page 114**

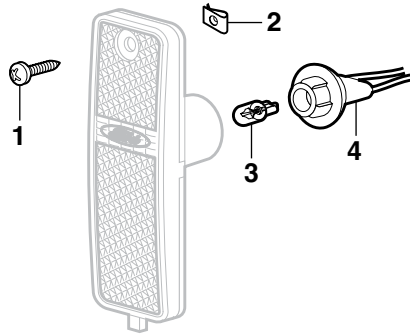

Headlight Warning Buzzer warns if headlights are left on when exiting the vehicle. It can be added to a truck that was never equipped with one or as a replacement for the original. Connects to fuse box and works with both glass and blade-type fuses. Easy-to-use instructions included.

Custom Tail Light Sets

1993-99 Ranger

50-4715

Custom Tail Light Sets have an ultra clear lens with a chrome housing and red reflector lenses that use the original clear bulbs, sold separately. Lens assemblies comply with all federal regulations. All required test functions are indicated on each lens, as required by law. Custom Tail Light Sets easily replace stock factory lenses.

LED Tail Light Set ... The Future of Automotive Lighting

50-4744

50-4765

New technology previously available only on high-end luxury cars is now available for your truck! These tail lights quickly alert other drivers of your intentions with LED bulbs that illuminate 140 times faster than conventional incandescent bulbs which translates to a gain of 20+ feet of reaction distance!

Additional LED benefits:

LEDs have no filament, which means they are less sensitive to vibrations, and they can last up to 20,000 hours. They use only 15% of the energy required by incandescent bulbs, reducing the load placed on your truck's charging system and less heat is emitted. Tail lights are a direct replacement for stock tail lights and are made to factory specifications. No modifications to fit required. They feature LEDs for brake lights, parking lights and turn signals. Use stock bulbs, sold separately, for the backup lights.

An Electronic Flasher is recommended when upgrading to LED bulbs or light assemblies. Due to the lower current draw of LED lighting, the factory flasher may cause inconsistent flash rates, no flash or indicate that a bulb is out.

Custom Light Bulbs

Halogen Bulb Tech Tip: Always handle halogen bulbs by the plastic base to prevent contaminants on the glass from shortening the life of the bulb.

Halogen Blue-Coated Headlight Bulbs

Replace the white halogen bulbs with a halogen blue-coated bulb. Blue-coated bulb creates an intense white light, giving the cool look of HID (high intensity discharge) lighting without the high price; call or go online and order yours today!

Superwhite Bulb Set Produces 30% More Light

Superwhite headlight bulbs produce 30% more light while retaining the street legal wattage. Superwhite bulbs use a proprietary mixture of premium gases that includes Xenon, which cools the light filament, improving the efficiency and light output of the bulb, unlike standard halogen bulbs which use less efficient argon gas.

36-0298-F

Superwhite bulbs operate in the Kelvin color temperature range of 4000-4200K, producing a brighter, white light. Traditional halogen bulbs operate at 2600-3000K, emitting a more yellowish appearance. Sold in sets of two. Call or go online and order yours today!

LED Bulbs

47-0377

36-0368-F

36-0371-F

47-0310

LED bulbs have no filament, making them less sensitive to vibrations, and illuminate 140 times faster while lasting up to 20,000 hours, much longer than conventional incandescent bulbs. They emit less heat and use only 15% of the energy required by incandescent bulbs, reducing the load placed on a vehicle's electrical system.

Underhood Lamp

42-5503

Installation Tip: Since all hoods and mounting locations are different, a slight adjustment to mounting bracket may be needed to assure light goes out when hood is closed. After mounting bracket and wires have been installed, apply pressure to the mounting bracket to change the angle as needed for proper operation.

Underhood Lamp adapts to any 12 volt truck and helps illuminate the engine bay. No need for wiring into a switch, bulb socket base is gravity activated; lamp comes on when hood is raised and goes out when hood is lowered. Mount underneath hood and connect lamp wire to any constant 12 volt source. Moisture proof in-line fuse is integrated into the wire for protection.

Driving Light Set

Driving lights provide a longer, more focused beam pattern for improved long-range vision. Features include reinforced steel housing with black finish and adjustable chrome mounting bracket with 10mm mounting stud; and state-of-the-art reflector which gives maximum light output from a 4-1/2" diameter light. Lights are complete with illuminated push button switch, 12-volt relay, all necessary wiring, mounting hardware, protective lens covers and high efficiency halogen 12V 55W replaceable bulbs.

38-1274-F

For added style, replace the white halogen bulb with a halogen blue-coated bulb. The blue-coated bulb creates an intense white light which gives the cool look of HID (high intensity discharge) lighting without the high price.

Custom Headlight

1983-88 Ranger
1984-88 Bronco II

36-0282-F

Custom Light Bulbs
See Page 112

These OE-quality headlights feature an aluminum die-cast housing with a protective finish coating, making the housing corrosion free. Maximum light output is produced by brighter light focused on the road for a greater distance.

The strong, semi-hardened, crystal clear glass lens does not diffuse the light like traditional headlight lenses. A high-efficiency white halogen 12V 60/55 watt replaceable bulb is included. DOT and SAE approved.

If adding brighter bulbs or upgrading to high power halogen lights, use a Heavy-Duty Headlight Harness. For more information, see below.

Light will need to be wired into one of your reverse lights for a signal and grounded locally.

This LED Backup Light Bar easily bolts to the top of your license plate and wires into your existing reverse lights. The Backup Light Bar will bolt onto your vehicle's top two license plate mounts. It features a die-cast aluminum housing and is finished in a satin black powder coat.

PART	DESCRIPTION	APPLICATION	REQD	PRICE
37-7475-F	LED BACKUP LIGHT BAR	UNIVERSAL	(1)	\$69.95

LED Third Brake/Cargo Light ... The Future of Automotive Lighting

New technology previously available only on high-end luxury cars is now available for trucks! This third brake light quickly alerts other drivers of your intentions with LED bulbs that illuminate 140 times faster than conventional incandescent bulbs, which translates to a gain of 20+ feet of reaction distance.

Additional LED benefits:

LED lights have no filament, which means they are less sensitive to vibrations and can last up to 20,000 hours. They use only 15% of the energy required by incandescent bulbs, reducing the load placed on your truck's charging system, and less heat is emitted.

LED Third Brake/Cargo Light is a direct replacement for stock unit and is made to factory specifications. No modifications needed. Features LEDs for brake and cargo lights.

LED Third Brake/Cargo Lights are for models originally equipped with cargo light option.

Cab Roof Light Kits ... Add Visibility and Big Rig Style

Cab Roof Light Kits are available in amber or clear. Kits meet SAE specifications when used with included bulbs. The two outside lights (clearance lights) and three inner ones (marker lights) give oncoming traffic a visual fix on the truck for additional safety. All kits come complete with lights, bulbs, wire harness, quick splice connectors and a dash mount panel with toggle switch plus indicator light which allows the Cab Roof Lights to be operated independently of the headlights.

LED Cab Roof Light Kit benefits:

LED lights have no filament, which means they are less sensitive to vibrations, and they can last up to 20,000 hours. They use only 15% of the energy required by incandescent bulbs, reducing the load on the truck's charging system, and less heat is emitted.

Loctite Ready Gasket makes leak-proof gaskets for temperatures from -75°F to 450°F. Blowout resistant, sensor-safe and ideal for sealing differential covers, valve covers, water pumps, thermostat housings and more. Applies with a standard caulking gun, dries black.

PART	DESCRIPTION	PRICE
38-0767-F	5 OZ TUBE	\$15.95

Loctite RTV Red is a high-temperature silicone gasket maker and adhesive. It forms a tough, flexible seal that is resistant to most chemicals without hardening, shrinking or cracking. RTV Red has a temperature range of -75°F to +600°F and is sensor-safe.

PART	DESCRIPTION	PRICE
42-0854	2.7 OZ TUBE	\$6.95

Loctite Spray Adhesive dries clear with superior bonding strength. Excels at attaching upholstery cloth, carpeting, insulation and has many other uses. Not recommended for use on headliners.

PART	DESCRIPTION	PRICE
38-0798-F	10.5 OZ CAN	\$9.45

Loctite Rubberized Undercoating is a heavy-duty undercoating that seals, protects and insulates frames, floor pans, wheel wells and other body panels. Rubberized for maximum durability.

PART	DESCRIPTION	PRICE
38-0766-F	16 OZ AEROSOL	\$6.95

Permatex Windshield and Glass Sealant is a silicone sealant for windshields, windows and other glass. Flows into leaks like water and dries to form a flexible, tough, clear seal that is resistant to extreme temperatures, vibration and most chemicals.

PART	DESCRIPTION	PRICE
38-0783-F	1.5 OZ TUBE	\$5.95

Permatex Anti-Seize Lubricant is a highly refined blend of aluminum, copper and graphite lubricants. Use during assembly to prevent galling, corrosion and seizing due to weathering or chemicals. Anti-Seize Lubricant assures easier disassembly and is salt, corrosion and moisture resistant.

PART	DESCRIPTION	PRICE
42-0737	4 OZ JAR	\$7.75

Loctite Copper Anti-Seize Stick protects against high-temp seizing and galling of fasteners up to 1,800°F. Perfect for spark plugs, exhaust manifold bolts, thermostat housing bolts and oxygen sensors.

PART	DESCRIPTION	PRICE
38-0765-F	20 GRAM STICK	\$6.45

Permatex Orange Threadlocker is a hybrid formula that combines the strength of Red with the removability of Blue Threadlocker. Orange Threadlocker is ideal for heavy-duty, high vibration applications and can be removed with hand tools without heating.

PART	DESCRIPTION	PRICE
42-0749	.34 OZ TUBE	\$14.95

Permatex Weatherstrip Adhesive is a flexible, water-resistant black adhesive for bonding rubber and metal surfaces. Withstands extreme temperatures and resistant to gasoline, antifreeze and most solvents.

PART	DESCRIPTION	PRICE
42-0759	5 OZ TUBE	\$8.75

Loctite Dielectric Grease extends the life of electrical components by protecting them from moisture, salt and corrosion. Also prevents spark plugs from fusing to boots. Use on fuses, battery terminals, ignition components and other electrical connections.

PART	DESCRIPTION	PRICE
38-0770-F	.33 OZ TUBE	\$4.45

Permatex's Thread Sealant with PTFE (a thermoplastic polymer) is an economical general-purpose fitting sealant. It outperforms traditional tapes and pipe dopes while it seals and resists pressure in air, oil, diesel fuel and hydraulic systems. Thread Sealant remains pliable at higher and lower temperatures.

PART	DESCRIPTION	PRICE
42-0733	4 OZ JAR	\$7.95

Vinyl Edge Sealer Pen is an ultraviolet light-blocking, fast-drying, clear acrylic sealer that protects the edges of vinyl decals, graphics and the ends of adhesive chrome body moldings. It features a wedge applicator tip for a smooth, even application.

PART	DESCRIPTION	PRICE
38-0921-F	.3 OZ PEN	\$12.95

3M™ Adhesive Tape is a high-performance, double-sided tape for all types of

accessories, both interior and exterior. The tape's foam core allows it to expand and contract with temperature changes and to conform to surface irregularities and gaps. Includes three 1" x 12" strips.

PART	DESCRIPTION	PRICE
38-0788-F	3M TAPE	\$8.95

Strip Caulk is a non-hardening, non-shrinking waterproof black caulking material with great adhesion properties and is temperature resistant from -400°F to +500°F. Perfect for sealing around hoses, tubing, wiring or any other hole, joint, seam, void or gap to prevent fumes, moisture or noise penetration. Easy to apply and can be painted immediately. Contains twelve 1/4" x 12" strips.

PART	DESCRIPTION	PRICE
38-0779-F	STRIP CAULK	\$5.75

Penetrating Graphite Powder is an extra fine graphite powder that is odorless dry powder lubricant, used to guard against sticking, wear, and corrosion. Keeps brake cables, speedometer cables, control cables, hinges, locks and other metal applications working smoothly. Helps prevent corrosion and rust.

PART	DESCRIPTION	PRICE
42-0734	.21 OZ TUBE	\$3.95

Seam Sealer provides superior adhesion and flexibility without cracking or peeling. Its self-leveling qualities make it an excellent sealer on cowl, floor, doors and wheel house seams. Skin time is 1-2 minutes and can be painted in 30-60 minutes. Applies with a standard caulking gun.

PART	DESCRIPTION	PRICE
38-0781-F	11 OZ TUBE	\$16.45

48-2601	SPARE TIRE COVER-MEDIUM	BLACK	(1)	\$79.95

Retail Delivery Fee Notice

Some states are starting to pass legislation requiring us to collect a Retail Delivery Fee on shipments. Check with your state's department of revenue for more information.

For those customers living in states that require this, the extra fee will be added to each purchase that is taxable under the state code.

What You Need to Know Before Ordering:

We are excited that you've decided to make us a part of your journey! Whether you are rebuilding from the ground up or just adding some distinctive touches to your vehicle, we are proud to give you a hand.

In addition, we'd love to see what you've been up to with your projects, so please log on to lmctrucklife.com and share your stories and pictures.

Understand that we are not trained automotive technicians. We want you to consult with mechanics regarding technical advice. Technical information is also included in the workshop manuals shown in this catalog. Please take the time to consult these resources if you feel you need to.

On those occasions that we've run out of a part on your order, chances are that it's already on its way to us. These items are listed as backordered on your invoice and will be sent your way as soon as possible. If you're not interested in waiting for your backordered product, just call our customer service line at (800) 222-5664, and we will cancel it and refund any money that has been paid.

You can also write "No Backorders" on your order form before you send it to us, and we'll make sure only to ship the products we currently have in stock.

Some parts have extra charges. Please consult below to make sure you understand these charges and so you aren't surprised later.

Part Number Definitions

- T - After a part number means that part must be shipped Truck Freight. An additional \$150.00 will be charged to your order for delivery in the 48 contiguous United States. Orders outside of the 48 states will be quoted. Additional delivery time required.
- * - After the sell price means Oversize Part Charge. Your order will incur a charge of \$20.00 for each oversized part. Due to packing and/or transportation requirements, please allow additional time for delivery. Oversized Parts are not available for air delivery.
- ** - After the sell price means Oversize Part Charge. Your order will incur a charge of \$50.00 for each oversized part. Due to packing and/or transportation requirements, please allow additional time for delivery. Oversized Parts are not available for air delivery.
- R - After a part number means Remanufactured Part. No core charge.

And one more thing, the part our lawyers make us say: We reserve the right to refuse service or shipment to anyone. We reserve the right to collect a service charge of \$20 for a returned check and to hold any shipments until the fee is collected.

Thank you for your support. Best of luck with all your projects!

What You Need to Know Before Returning:

If only we lived in a perfect world! Unfortunately, we don't, and things can go wrong. When that happens, we do our best to try to make things right again. But we need your help as well.

All returns must be in like new condition and in the original packaging. Please include a copy of your invoice, as that will make the process quick and easy.

We refund your payment the same way you paid. Refunds of less than \$1 will not be made except by customer request.

We can't be responsible for damages, so please package your returned items carefully.

If you can ship the item back to us ground or USPS within the 48 contiguous United States, you don't need to call for authorization. Just send it to us at:

17301 W. 113th St, Lenexa, KS 66219

If we shipped you the wrong item, send it back, and we'll send the right item and reimburse you the ground rate for your return.

We can't accept anything that has been installed (unsuccessful attempts do count), disassembled, drilled, welded, cut, painted, or modified in any way, so please make sure to check and doublecheck the fit before starting any work.

If you are returning a kit, it needs to contain all the parts you received. No partial kits may be returned.

Electronic media (CDs, DVDs) cannot be refunded once they are opened. However, if it is not working properly, it can be exchanged for the same part number.

Please call our customer service line for a return authorization if your part was delivered outside of the 48 contiguous United States.

If you want to return something you bought over a year ago, please call our customer service line for return authorization.

You must call Customer Service when returning a Truck Freight item.

Customer Service Line: (800) 222-5664

¿Habla Español? (855) 456-2288

A 20% non-refundable restocking fee will be added to anything that's over a year old (unless the extended manufacturer warranty is still in effect, of course) as well as to any unauthorized Truck Freight returns.

And the legal part again: We have the right to refuse any return we deem unfit for resale. We also have the right to refuse any shipments where the shipping charges, duties, customs, etc., are not prepaid.

California Prop 65 Warning

WARNING: This product can expose you to chemicals including lead, which is known to the State of California to cause cancer. For more information, go to www.p65warnings.ca.gov.

ADVERTENCIA: Este producto puede exponerlo a sustancias químicas, incluido el plomo reconocido por el estado de California como causante de cáncer. Para obtener más información, visite www.p65warnings.ca.gov.

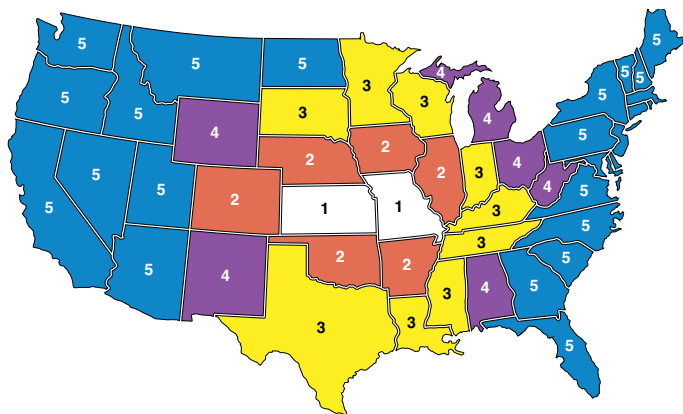

Gift Cards

- Gift Cards are the perfect gift to ensure you are giving exactly what they want!
- Gift Cards don't expire.
- Orders must be pre-paid. Orders received before 3:00 p.m. Central Time will ship same day.
- Gift Cards can now be redeemed through the mail or by phone.

What You Need to Know About Shipping within the 48 Contiguous States

Shipping charges are based on the "Parts Total" on your order.

2,500.00 and Up	Free Shipping				

If you are ordering Oversized Parts (indicated with a * Or ** throughout this catalog), or if you are placing an extra large order, please allow for extra packing and delivery time.

In order to qualify for the free shipping, your entire \$2,500+ order must be placed at one time. We may have to split your shipment, but we will pick up the shipping charges.

Customer Service Line: (800) 222-5664
¿Habla Español? (855) 456-2288

What You Need to Know About Shipping to APO and FPO Addresses

We are thrilled to be able to ship to those who are serving our country; however, there are some limitations on these shipments. We are unable to ship Truck Freight items to you at this time. All orders will be shipped complete, via Insured Priority Mail through the USPS. Size limitations will apply. Please make sure before you place your order that what you are ordering will be accepted and is deliverable to you in your location.

What You Need to Know About Shipping to Canada

Your orders will be shipped ground "Door to Door," which includes brokerage, duty and tax. Charges will be based on the value of your shipment. Document and preparation fees are included. Please call our customer service line for assistance.

What You Need to Know About Shipping to Alaska, Hawaii and the U.S. Territories

Order Parts Total	Shipping to Alaska, Hawaii & U.S. Territories
Up to \$20.00	\$ 19.95
\$20.01 to 50.00	25.95
50.01 to 75.00	36.95
75.01 to 100.00	41.95

250.01 to 350.00	72.95
350.01 to 500.00	79.95
500.01 and Up	Quote ♦

♦ You will be contacted with charges.

We reserve the right to ship the most economical way. If you need your order shipped in a specific manner, contact customer service for a customized quote.

Customer Service Line: (800) 222-5664
¿Habla Español? (855) 456-2288

This chart shows shipping charges on orders up to \$500. Parts must be 108 inches or less and weigh 70 pounds or less to qualify. If any part does not meet these qualifications, your order will be delivered by ground for additional charges.

All orders will ship complete. Any additional delivery charges will be added to your total as needed, including Oversize Part charges or overweight charges.

We will need a daytime phone number with your order. If there is a problem with your order, we will attempt to contact you three times. If we are unsuccessful, your order will be cancelled 5 days after that third failed attempt.

What You Need to Know When Shipping Problems Occur

Please open your package(s) as soon as possible and make certain that everything is accounted for and nothing was damaged in shipment. Damaged shipments are the responsibility of the carrier and must be reported to the carrier within 15 days of receipt.

If the package looks damaged when it arrives, open it with the delivery person present, so that they can make an immediate report of damages and discrepancies. If the damage is not obvious at the time of delivery, or if the package was left for you by the shipping company, contact their customer service as soon as possible to make your claim.

On Truck Freight shipments, it is your responsibility to check your order and have the driver note any damage on the freight bill before you sign for your item(s).

Please keep all packing, packaging and contents until your claim has been settled with the shipping company.

What You Need to Know About Shipping Internationally

All international orders ship complete. Shipping charges must be prepaid in U.S. funds. Brokerage, duties, taxes, and fees associated with the order are paid by the customer. We do not accept personal checks on international orders.

This Little 2.3 Is Peppy

Alexander Farnsworth and His 1992 Ford Ranger

The truck's name is Roxanne. I bought the truck back in 2018 from the original owner's son as a cheap daily driver. I kept it going and looked after it as best I could. In 2019 I traded the truck for a Volvo station wagon, and I regretted getting rid of the little truck forever. Then one day I got a call from the guy I traded it to. He was getting rid of it.

I quickly scooped it back up and made plans for it to be a drift truck. I've been slowly fixing big and small stuff. I've added a Bo-Port racing cam, a Mustang computer, throttle body and headers. And now this little 2.3 is peppy. I've lowered the truck and put Aero Sprint Car steelies on it. I love this little truck and I have absolutely zero plans of letting it go again.

Chrome Rear Step Bumpers ... Style and Utility All in One

1983-11 Ranger

Chrome Rear Step Bumpers give your truck the ability to tow up to 300 pounds tongue weight and 3,500 pounds trailer weight. These bumpers offer the ease of bolt-on installation, the convenience of a step and come complete with rear license plate lamps. Do not exceed truck manufacturer's recommended towing capacity.

A Bumper Mounting Kit #29-0050-F is required when installing these rear bumpers.

29-5285

29-5289

29-5287
